

authorizes cooperative and trade associations to pay the administrative fee for CAT coverage under certain circumstances. Provisions have been modified to allow such associations to pay the CAT administrative fee.

To effectuate this mandated change, FCIC is revising the CAT Endorsement and the GRP policy.

Good cause is shown to make this rule effective upon filing for public inspection at the Office of the Federal Register. Good cause exists when notice and comment and the 30 day delay in the effective date is impracticable, unnecessary, or contrary to the public interest.

FCIC is merely making ministerial changes to the policy that are mandated by the 2008 Farm Bill. There is no discretion given to FCIC in the terms contained in this rule or their implementation. Further, the next applicable contract change date, the date by which changes to the policy must be made to have them effective for the next crop year, is June 30, 2008. Therefore, there is no time to conduct a notice and comment rulemaking.

For the reasons stated above, good cause exists to make these policy changes effective upon filing for public inspection at the Office of the Federal Register.

[Docket No. FAA-2008-0163; Airspace Docket No. 08-AGL-2]

Amendment of Class E Airspace; Indianapolis, IN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: This action confirms the effective date of a direct final rule that establishes additional Class E airspace at Indianapolis, IN, published in the Federal Register April 2, 2008 (73 FR 17887) Docket No. FAA-2008-0163. This action also makes a minor correction to the geographic coordinates of Hendricks County Gordon Graham Field.

DATES: Effective Date: 0901 UTC June 27, 2008. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

The FAA published a direct final rule with request for comments in the Federal Register April 2, 2008, (73 FR 17887), Docket No. FAA-2008-0163, that establishes additional Class E airspace at Indianapolis, IN. The FAA uses the direct final rule procedure for non-controversial rules where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit an adverse comment, was received within the comment period, the regulation would become effective on June 5, 2008. No adverse comments were received; thus, this notice confirms that the direct final rule will become effective on this date. Also an error was found in the geographic coordinates of Hendricks County Gordon Graham Field. This action corrects that error.

The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9R, Airspace Designations and Reporting Points, signed August 15, 2007, and effective September 15, 2007, is hereby amended as follows:

Correction

In the Federal Register dated April 2, 2008, (73 FR 14887), Federal Register Docket No. FAA-2008-0163, on page 17888, column 2, line 47, replace the coordinates for Hendricks County-

Gordon Graham Field as follows: (Lat. 39°44'48" N, Long. 86°28'31" W).

[Docket No. FAA-2008-0131; Airspace Docket 08-AEA-12]

Establishment of Class E Airspace; Philippi, WV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Philippi, WV, to accommodate a new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAP) Runways (RWY) 08-26 that has been developed for Philippi/Barbour County Regional Airport. As a result, controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to contain the SIAP and for Instrument Flight Rule (IFR) operations at Philippi/Barbour County Regional Airport. The operating status of the airport will change from Visual Flight Rules (VFR) to include IFR operations concurrent with the publication of the SIAP.

DATES: Effective Date: 0901 UTC, September 25, 2008. The Director of the Federal Register approves this incorporation by reference action under title 1 Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On March 18, 2008, the FAA proposed to amend Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing Class E airspace at Philippi, WV (73 FR 14408). This action provides adequate Class E airspace for IFR operations at Philippi/Barbour County Regional Airport. Designations for Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in FAA Order 7400.9R, dated August 15, 2007, and effective September 15, 2007, which is incorporated by reference in 14 CFR part 71.1. The Class E designations listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking by submitting comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 establishes Class E airspace at Philippi, WV, to provide controlled airspace required to support the new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAP) Runways 08-26 that have been developed for Philippi/Barbour County Regional Airport.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
