

nature of the request, and providing at least a 30-day public comment period. We have 210 days from the receipt of a complete application to publish notice of approval or denial of the application.

The purpose of this proposed notice is to inform the public of the Joint Commission's request for continued deeming authority for ASCs. This notice also solicits public comment on whether the Joint Commission's requirements meet or exceed the Medicare conditions for coverage for ASCs.

III. Evaluation of Deeming Authority Request

The Joint Commission submitted all the necessary materials to enable us to make a determination concerning its request for reapproval as a deeming organization for ASCs. This application was determined to be complete on May 2, 2008. Under section 1865(b)(2) of the Act and § 488.8 (Federal review of accrediting organizations), our review and evaluation of the Joint Commission will be conducted in accordance with, but not necessarily limited to, the following factors:

- The equivalency of the Joint Commission's standards for an ASC as compared with CMS' ASC conditions for coverage.

- The Joint Commission's survey process to determine the following:

- ++ The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training.

- ++ The comparability of the Joint Commission's processes to those of State agencies, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities.

- ++ The Joint Commission's processes and procedures for monitoring ASCs found out of compliance with the Joint Commission's program requirements. These monitoring procedures are used only when the Joint Commission identifies noncompliance. If noncompliance is identified through validation reviews or complaint surveys, the State survey agency monitors corrections as specified at § 488.7(d).

- ++ The Joint Commission's capacity to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner.

- ++ The Joint Commission's capacity to provide us with electronic data in ASCII comparable code, and reports necessary for effective validation and assessment of the organization's survey process.

- ++ The adequacy of the Joint Commission's staff and other resources, and its financial viability.

- ++ The Joint Commission's capacity to adequately fund required surveys.

- ++ The Joint Commission's policies with respect to whether surveys are announced or unannounced, to assure that surveys are unannounced.

- ++ The Joint Commission's agreement to provide us with a copy of the most current accreditation survey together with any other information related to the survey as we may require (including corrective action plans).

I. Background

Under the Medicare program, eligible beneficiaries may receive covered services from an ambulatory surgical center (ASC) provided certain requirements are met. Section 1832(a)(2)(F)(i) of the Social Security Act (the Act) authorizes the Secretary to establish distinct criteria for facilities seeking designation as an ASC. Regulations concerning provider agreements are at 42 CFR part 489 and those pertaining to activities relating to the survey and certification of facilities are at part 488. Part 416 specifies the conditions that an ASC must meet in order to participate in the Medicare program, the scope of covered services and the conditions for Medicare payment for ASCs.

Generally, in order to enter into an agreement with the Medicare program, an ASC must first be certified by a State survey agency as complying with the conditions or requirements set forth in part 416. Thereafter, the ASC is subject to regular surveys by a State survey agency to determine whether it continues to meet these requirements. There is an alternative to surveys by State agencies, which is accreditation.

Section 1865(b)(1) of the Act provides that, if an ASC demonstrates through accreditation by an approved national accrediting organization that all applicable Medicare conditions are met or exceeded, we will deem those ASCs as having met the requirements. Accreditation by an accrediting organization is voluntary and is not required for Medicare participation.

If an accrediting organization is recognized by the Secretary as having standards for accreditation that meet or exceed Medicare requirements, any provider entity accredited by the national accrediting body's approved program would be deemed to meet the Medicare conditions. A national accrediting organization applying for deeming authority under part 488, subpart A must provide us with reasonable assurance that the accrediting organization requires the accredited provider entities to meet requirements that are at least as stringent as the Medicare conditions. Our regulations concerning the reapproval of accrediting organizations are set forth at § 488.4 and § 488.8(d)(3).

Section 488.8(d)(3) requires accrediting organizations to reapply for continued deeming authority every 6 years or sooner as determined by us.

AAAHC's term of approval as a recognized accreditation program for ASCs expires December 20, 2008.

II. Approval of Deeming Organizations

Section 1865(b)(2) of the Act and § 488.8(a) of the regulations require that our findings concerning review and reapproval of a national accrediting organization's requirements consider, among other factors, the applying accrediting organization's: Requirements for accreditation; survey procedures; resources for conducting required surveys; capacity to furnish information for use in enforcement activities; monitoring procedures for provider entities found not in compliance with the conditions or requirements; and ability to provide us with the necessary data for validation.

Section 1865(b)(3)(A) of the Act further requires that we publish, within 60 days of receipt of an organization's complete application, a notice identifying the national accrediting body making the request, describing the nature of the request, and providing at least a 30-day public comment period. We have 210 days from the receipt of a complete application to publish notice of approval or denial of the application.

The purpose of this proposed notice is to inform the public of AAAHC's request for continued deeming authority for ASCs. This notice also solicits public comment on whether AAAHC's requirements meet or exceed the Medicare conditions for coverage for ASCs.

III. Evaluation of Deeming Authority Request

AAAHC submitted all the necessary materials to enable us to make a determination concerning its request for reapproval as a deeming organization for ASCs. This application was determined to be complete on May 2, 2008. Under section 1865(b)(2) of the Act and § 488.8 (Federal review of accrediting organizations), our review and evaluation of AAAHC will be conducted in accordance with, but not necessarily limited to, the following factors:

- The equivalency of AAAHC's standards for an ASC as compared with CMS' ASC conditions for coverage.

- AAAHC's survey process to determine the following:

- ++ The composition of the survey team, surveyor qualifications, and the ability of the organization to provide continuing surveyor training.

++ The comparability of AAAHC's processes to those of State agencies, including survey frequency, and the ability to investigate and respond appropriately to complaints against accredited facilities.

++ AAAHC's processes and procedures for monitoring ASCs found out of compliance with AAAHC's program requirements. These monitoring procedures are used only when AAAHC identifies noncompliance. If noncompliance is identified through validation reviews or complaint surveys, the State survey agency monitors corrections as specified at § 488.7(d).

++ AAAHC's capacity to report deficiencies to the surveyed facilities and respond to the facility's plan of correction in a timely manner.

++ AAAHC's capacity to provide us with electronic data in ASCII comparable code, and reports necessary for effective validation and assessment of the organization's survey process.

++ The adequacy of AAAHC's staff and other resources, and its financial viability.

++ AAAHC's capacity to adequately fund required surveys.

++ AAAHC's policies with respect to whether surveys are announced or unannounced, to assure that surveys are unannounced.

++ AAAHC's agreement to provide us with a copy of the most current accreditation survey together with any other information related to the survey as we may require (including corrective action plans).
