

Notices

Federal Register

Vol. 73, No. 126

Monday, June 30, 2008

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Intent To Renew a Currently Approved Information Collection

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget (OMB) regulations at 5 CFR 1320 (60 FR 44978, August 29, 1995), this notice announces the Agricultural Research Service's (ARS) intention to request an extension for a currently approved information collection in support of USDA's Biological Control Documentation Program dealing with documenting the importation and release of foreign biological control agents.

DATES: Comments on this notice must be received by September 3, 2008, to be assured of consideration.

ADDRESSES: Address all comments concerning this notice to Glenn Hanes, ARS Biological Control Documentation Center, National Program Staff, National Agricultural Library, ARS, USDA, 10301 Baltimore Avenue, Beltsville, MD 20705-2351.

FOR FURTHER INFORMATION CONTACT: Glenn Hanes, ARS Biological Control Documentation Center, (301) 504-8137.

SUPPLEMENTARY INFORMATION:

Title: USDA Biological Shipment Record—Beneficial Organisms: Foreign/Overseas Source (AD-941); Quarantine Facility (AD-942); and Non-Quarantine (AD-943).

OMB Number: 0518-0013.

Expiration Date: 3 years from date of approval.

Type of Request: To renew the currently approved information collection.

Abstract: The purpose of the Biological Control Documentation Program is to record the importation (AD-941), release from quarantine (AD-942), and shipment and/or field release/recolonization (AD-942 and AD-943) of foreign/introduced beneficial organisms (pollinators and biological control agents for invasive species). The information collected is entered into the USDA "Releases of Beneficial Organisms in the United States and Territories" (ROBO) database, established in 1984. It is a cooperative program among USDA and other Federal agencies, state governmental agencies, and U.S. universities. The use of the forms and the information provided is voluntary. The program is for the benefit of biological control research and action agency personnel, taxonomists, federal and state regulatory agencies, agricultural administrators, and the general public. The AD-941 has been computerized and efforts are underway to replace the other paper forms with computerized information collection, and when completed, only those units for which computerized input is not possible would use the forms.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1/2 hour per response.

Non-Federal Respondents: Universities, and state and local governments.

Estimated Number of Non-Federal Respondents: 40.

Estimated Number of Responses per Respondent: An average of 3 (range 1-30).

Estimated Total Annual Burden on Respondents: 10 hours.

Copies of the three forms used in this information collection, and information on the computerized form can be obtained from Glenn Hanes, ARS Biological Control Documentation Center, at (301) 504-8137.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the Validity of the methodology and assumptions used; (c) ways to enhance the quality, utility,

and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology. Comments may be sent to: Glenn Hanes, ARS Biological Control Documentation Center, National Program Staff, ARS, USDA, National Agricultural Library, 10301 Baltimore Avenue, Beltsville, MD 20705-2351.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: June 16, 2008.

Antoinette A. Betschart,

Associate Administrator, ARS.

BILLING CODE 3410-03-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2008-0047]

Notice of Request for Extension of Approval of an Information Collection; Select Agent Registration

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations for the possession, use, and transfer of biological agents and toxins that have the potential to pose a severe threat to human and animal health, to animal health, to plant health, or to animal products and plant products.

DATES: We will consider all comments that we receive on or before August 29, 2008.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS->

2008-0047 to submit or view comments and to view supporting and related materials available electronically.

• *Postal Mail/Commercial Delivery:* Please send two copies of your comment to Docket No. APHIS-2008-0047, Regulatory Analysis and Development, PPD, APHIS, Station3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2008-0047.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information regarding the select agent registration process associated with the possession, use, or transfer of biological agents and toxins in 7 CFR 331, contact Dr. Charles L. Divan, Senior Agricultural Microbiologist, Agriculture Select Agent Program, Permits, Registrations, Imports and Manuals, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737; (301) 734-5663.

For information regarding the select agent registration process associated with the possession, use, or transfer of biological agents and toxins in 9 CFR 121, contact Mr. Robert Rice, Security Manager, Agriculture Select Agent Program, Technical Trade Services Team, NCIE, VS, APHIS, 4700 River Road Unit 39, Riverdale, MD 20737; (301) 734-5557.

For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Select Agent Registration.

OMB Number: 0579-0213.

Type of Request: Extension of approval of an information collection.

Abstract: The Public Health Security and Bioterrorism Preparedness and Response Act of 2002 provides for the regulation of certain biological agents and toxins by the Department of Agriculture (USDA) and the Department of Health and Human Services (HHS). Under section 212 of the Act, USDA regulates biological agents and toxins

that have the potential to pose a severe threat to both human and animal health, to animal health, to plant health, or to animal and plant products. The Animal and Plant Health Inspection Service (APHIS) has the primary responsibility for implementing the provisions of the Act within USDA. Select agents and toxins that have been determined to pose a severe threat to both human and animal health or animal products are subject to regulation by both APHIS and the Centers for Disease Control and Prevention (CDC), HHS, which has the primary responsibility for implementing the provisions of the Act within HHS.

APHIS regulations are contained in 7 CFR 331 (plant) and 9 CFR 121 (animal and overlap). They require an individual or entity (unless specifically exempted under the regulations) to register with APHIS or, for overlap agents or toxins, APHIS or CDC, in order to possess, use, or transfer biological agents or toxins.

To register, an individual or entity must submit a registration application package; develop and implement a Biocontainment and Security Plan or Biosafety and Security Plan, as applicable; and request access approval for individuals who have been identified as having a legitimate need to handle or use listed agents or toxins and who have the appropriate training and skills to handle or use such agents or toxins.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of

information is estimated to average 1.7033 hours per response.

Respondents: Researchers, universities, research and development organizations, diagnostic laboratories, and other interested parties who possess, use, or transfer select agents or toxins.

Estimated annual number of respondents: 655.

Estimated annual number of responses per respondent: 1.1526717.

Estimated annual number of responses: 755.

Estimated total annual burden on respondents: 1,286 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 24th day of June 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2008-0046]

Notice of Request for Extension of Approval of an Information Collection; Treatments for Fruits and Vegetables

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request an extension of approval of an information collection associated with regulations for the interstate movement of fruits and vegetables from Hawaii, Puerto Rico, and the U.S. Virgin Islands to help ensure that injurious plant pests are not spread to noninfested areas of the United States.

DATES: We will consider all comments that we receive on or before August 29, 2008.

ADDRESSES: You may submit comments by either of the following methods:

• Federal eRulemaking Portal: Go to <http://www.regulations.gov/fdmspublic/>
