We are approving local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

SUPPLEMENTARY INFORMATION: This proposal addresses the following SCAQMD rules: Rule 2004, Rule 2007, and Rule 2010. In the Rules and Regulations section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Dated: April 22, 2008.

SUPPLEMENTARY INFORMATION:

I. Background

On November 16, 2005 PHMSA published an advance notice of proposed rulemaking (ANPRM) under Docket HM-238 (70 FR 69493) to solicit comments concerning measures to reduce the risks posed by the storage of explosives while they are in transportation. For persons interested in viewing the ANPRM, it is accessible by PHMSA docket number (PHMSA-2005-22987) through the Federal eRulemaking Portal (<http://www.regulations.gov>). The ANPRM focused primarily on the safe storage of explosives. We also, however, invited commenters to address issues related to security and storage of other types of high-hazard materials.
