Title: Environmental Streamlining: Measuring the Performance of Stakeholders in the Transportation Project Development Process, Third Survey.

OMB Control Number: 2125-0591.

Background: The U.S. Department of Transportation (DOT), FHWA, has

contracted with the Gallup Organization to conduct a survey of professionals associated with transportation and resource agencies in order to gather their views about the workings of the environmental review process for transportation projects and how the process can become more efficient. The purpose of the survey is to: (1) Collect the responses of agency professionals to questions about their involvement in conducting the decision-making processes mandated by the National Environmental Policy Act (NEPA) and other resource protection laws in order to develop benchmark performance measures; and (2) identify where the performance of the process might be improved by the application of techniques for streamlining. This is a survey conducted of only local, state, and federal officials who work with the NEPA process.

Respondents: Approximately 2,000 professionals/officials from transportation and natural resource agencies.

Frequency: This is the third time in seven years that this survey will be conducted.

Estimated Average Burden per Response: Annual Burden Hours: The FHWA estimates that each respondent will complete the survey in approximately 15 minutes. Respondents will have the option of answering the survey's questions either over the telephone or online.

Estimated Total Annual Burden Hours: With a potential total of 2,000 survey respondents, an estimated 500 hours is the total burden.

Electronic Access: For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>. Follow the online instructions for accessing the dockets.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: June 30, 2008.
