

AGENCY MISSION: NCD is an independent federal agency and is composed of 15 members appointed by the President, by and with the advice and consent of the Senate. NCD provides advice to the President, Congress, and executive branch agencies promoting policies, programs, practices, and procedures that (A) guarantee equal opportunity for all individuals with disabilities, regardless of the nature or severity of the disability; and (B) to empower individuals with disabilities to achieve economic self-sufficiency, independent living, and inclusion and integration into all aspects of society.

ACCOMMODATIONS: Those needing reasonable accommodations should notify NCD immediately.

LANGUAGE TRANSLATION: In accordance with E.O. 13166, Improving Access to Services for Persons with Limited English Proficiency, those people with disabilities who are limited English proficient and seek translation services for this meeting should notify NCD immediately.

Dated: June 26, 2008.

Michael C. Collins,
Executive Director.

BILLING CODE 6820-MA-P

NATIONAL TRANSPORTATION SAFETY BOARD

Sunshine Act Meeting; Agenda

TIME AND DATE: 9:30 a.m., Tuesday, July 8, 2008

PLACE: NTSB Conference Center, 429 L'Enfant Plaza, SW., Washington, DC 20594.

STATUS: The one item is open to the public.

MATTER TO BE CONSIDERED:

8021 *Highway Accident Report—Motorcoach Override of Elevated Exit Ramp, Interstate 75, Atlanta, Georgia, March 2, 2007 (HWY-07-MH-015).*

NEWS MEDIA CONTACT: Telephone: (202) 314-6100.

Individuals requesting specific accommodations should contact Rochelle Hall at (202) 314-6305 by Thursday, July 3, 2008.

The public may view the meeting via a live or archived Webcast by accessing a link under "News & Events" on the NTSB home page at <http://www.nts.gov>.

FOR FURTHER INFORMATION CONTACT: Vicky D'Onofrio, (202) 314-6410.

Dated: Monday, June 30, 2008.

Candi R. Bing,

Federal Register Liaison Officer.

BILLING CODE 7533-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-33820]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for Amendment of Byproduct Materials License No. 13-26640-01, for Unrestricted Release of a Facility in Evansville, IN

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of Environmental Assessment and Finding of No Significant Impact for License Amendment.

FOR FURTHER INFORMATION CONTACT:

Peter J. Lee, PhD, CHP, Health Physicist, Decommissioning Branch, Division of Nuclear Materials Safety, Region III, U.S. Nuclear Regulatory Commission, 2443 Warrenville Road, Lisle, Illinois 60532; telephone: (630) 829-9870; fax number: (630) 515-1259; or by e-mail at Peter.Lee@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend Byproduct Materials License No. 13-26640-01. The license is held by the Covance Clinical Research Unit, Inc. (the Licensee), now located at 617 Oakley Street, Evansville, Indiana. Issuance of the amendment would authorize release of the Licensee's facility, located at 800 St. Mary's Drive, Evansville, Indiana (the Facility) for unrestricted use. The Licensee requested this action in NRC FORM 313 dated February 1, 2008. The NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of Title 10, Code of Federal Regulations (CFR), Part 51 (10 CFR Part 51). Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate with respect to the proposed action. The amendment will be issued to the Licensee following the publication of this FONSI and EA in the **Federal Register**.

II. Environmental Assessment

Identification of Proposed Action

The proposed action would approve the Licensee's February 1, 2008 request,

resulting in release of the Facility for unrestricted use. License No. 13-26640-01 was issued on August 16, 1995, pursuant to 10 CFR Part 35, and has been amended periodically since that time. The license authorizes the use of by-product materials (carbon-14 and hydrogen-3) in human research studies.

Need for the Proposed Action

The Licensee has ceased conducting licensed activities at the Facility and seeks the unrestricted use of its Facility.

Environmental Impacts of the Proposed Action

The historical review of licensed activities conducted at the Facility shows that such activities involved use of the following radionuclides with half-lives greater than 120 days: hydrogen-3 and carbon-14, and that use of these materials at the Facility ceased in early January 2008. Prior to performing the final status survey, the Licensee conducted decontamination activities, as necessary, in the areas of the Facility affected by these radionuclides.

The Licensee completed final status surveys at the Facility on January 22, 2008. The final status survey report was attached to the Licensee's amendment request dated February 1, 2008. The Licensee elected to demonstrate compliance with the radiological criteria for unrestricted release as specified in 10 CFR 20.1402 using release criteria for building surfaces based on NUREG-1556, Volume 7, "Program-Specific Guidance About Academic, Research and Development, and Other Licenses of Limited Scope Including Gas Chromatographs and X-Ray Fluorescence Analyzers—Final Report," Appendix Q, "Radiation Safety Survey Topics." These release criteria are the same as the radionuclide-specific dose-based release criteria, described in NUREG-1757, "Consolidated NMSS Decommissioning Guidance," Volume 2. These values provide acceptable levels of surface contamination to demonstrate compliance with the NRC requirements in Subpart E of 10 CFR Part 20 for unrestricted release. The Licensee's final status survey results were below these values and are in compliance with the As Low As Reasonably Achievable (ALARA) requirement of 10 CFR 20.1402. The NRC thus finds that the Licensee's final status survey results are acceptable.

Based on its review, the staff has determined that the affected environment and any environmental impacts associated with the proposed action are bounded by the impacts evaluated by the "Generic
