### Bureau of Land Management

[AZ-220-08-5410-FR-A511; AZA-33799]

#### Notice of Realty Action: Application for Conveyance of Federal Mineral Interests, Maricopa County, AZ

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of application.

**SUMMARY:** The surface owner of the lands described in this notice, aggregating approximately 160 acres, has filed an application for the purchase of the Federally-owned mineral interests in the lands. Publication of this notice temporarily segregates the mineral interest from appropriation under the public land laws, including the mining law.

**DATES:** Interested persons may submit written comments to the Bureau of Land Management (BLM) at the address stated below. Comments must be received no later than August 29, 2008.

*Comments:* Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must clearly state this at the beginning of your written comment. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The BLM will honor requests for confidentiality on a case-by-case basis to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety. All persons who wish to present comments, suggestions, or objections in connection with the pending application may do so by writing to Teresa A. Raml, Phoenix District Manager, at the following address.

**ADDRESSES:** Bureau of Land Management, Phoenix District, 21605 North 7th Avenue, Phoenix, AZ 85027. Detailed information concerning this action, including appropriate environmental information, is available for review at the above address.

**FOR FURTHER INFORMATION CONTACT:** Matthew Magaletti, Lands and Realty Specialist, at the above address or at 623-580-5590.

**SUPPLEMENTARY INFORMATION:** The surface owner of the following described lands has filed an application pursuant to section 209 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1719(b), for the purchase and conveyance of the Federally-owned mineral interest in the following described lands:

#### Gila and Salt River Base and Meridian, Yavapai County, Arizona

T. 1 S., R. 3 W.,

Sec. 9, SW $\frac{1}{4}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ ,  
NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$ .

Total Acres 160.00, more or less.

Effective immediately, the BLM will process the pending application in accordance with the regulations stated in 43 CFR part 2720. Written comments concerning the application must be received no later than the date specified above in this notice. The purpose for a purchase and conveyance is to allow consolidation of surface and subsurface minerals ownership where (1) there are no known mineral values or (2) in those instances where the Federal mineral interest reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development.

On July 15, 2008 the mineral interests owned by the United States in the above described lands will be segregated to the extent that they will not be subject to appropriation under the public land laws, including the mining laws. The segregative effect shall terminate upon issuance of a patent or deed of such mineral interest; upon final rejection of the mineral conveyance application; or July 15, 2010, whichever occurs first.

**Authority:** 43 CFR 2720.1-1(b).

**Teresa A. Raml,**

*District Manager.*

#### Notice of Intent To Amend the Kingman Resource Area, Resource Management Plan and Associated Environmental Assessment

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent.

**SUMMARY:** The Bureau of Land Management (BLM) Kingman Field Office, Kingman, Arizona, intends to amend the Kingman Resource Management Plan (RMP) with an associated Environmental Assessment (EA) and by this notice is announcing the start of the public scoping period. The Kingman RMP, approved March 1995, requires amendment in order to designate a Transportation Corridor in response to an Arizona Department of Transportation (ADOT) proposal to realign State Route 95 (SR-95).

**DATES:** Public scoping comments will be accepted for 30 days from the publication date of this **Federal Register** Notice.

**ADDRESSES:** You may submit comments by any of the following methods:

- *E-mail:* john\_reid@blm.gov.
- *Fax:* 928-718-3761.
- *Mail:* Ruben Sanchez, Field

Manager, BLM, Kingman Field Office, 2755 Mission Boulevard, Kingman, Arizona 86401.

Documents pertinent to this proposal may be examined at the Kingman Field Office.

**FOR FURTHER INFORMATION:** For further information and/or to have your name added to our mailing list, contact John Reid, Environmental Protection Specialist, Kingman Field Office, telephone (928) 718-3735; e-mail john\_reid@blm.gov.

**SUPPLEMENTARY INFORMATION:** This document provides notice that the BLM Kingman Field Office, Kingman, Arizona, intends to amend the Kingman RMP with an associated EA and announces the public scoping period.

The proposed location for the Transportation Corridor would be within Gila and Salt River Meridian, Mohave County, Arizona: T. 16N., R. 20 W.; T. 17 N., R. 20 W.; T. 17 N., R. 21 W.; T. 19 N., R. 21 W.; and, T. 21 N., R. 20 W. The area described contains about 776 acres in Mohave County, Arizona. The amendment will fulfill the needs and obligations set forth by the National Environmental Policy Act (NEPA), the Federal Land Policy and Management Act (FLPMA), and BLM management policies. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis and alternatives. You may submit comments on issues to

the BLM using one of the methods listed in the **ADDRESSES** section above. To be most helpful, please submit formal scoping comments within 30 days after publication of this notice. Comments received after conclusion of the 30-day period will be considered, but may not be addressed in the EA. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed.

Preliminary issues and management concerns have been identified by BLM personnel, other agencies, and in meetings with individuals and user groups. They represent the BLM's knowledge to date regarding the existing issues and concerns with current land management. The major issues identified thus far that will be addressed include:

- Land Tenure adjustments;
- Cultural Resources management;
- Visual Resource management;
- Special Status Species management;
- Wild and Free Roaming Horse and Burro management; and,
- Resource Access and Travel Management.

In addition to these major issues, a number of management questions and concerns will be addressed in the RMP amendment. The public is encouraged to help identify these questions and concerns during the scoping phase.

The Federal Highway Administration is in the process of developing an EIS that will analyze project specific effects. Following the preparation of the EIS there will be further opportunities for public involvement and comment.

**Authority:** 43 CFR 2809.

Dated: July 2, 2008.

**Ruben A. Sánchez,**

*Kingman Field Office Manager.*

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### General Management Plan, Environmental Impact Statement, Golden Spike National Historic Site, UT

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Notice of intent to prepare an environmental impact statement for the general management plan for Golden Spike National Historic Site.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service is preparing an environmental impact statement for the general management plan for Golden Spike National Historic Site, Utah. The Regional Director, Intermountain Region, will approve the environmental impact statement.

Golden Spike National Historic Site is in Box Elder County, Utah. The national historic site was authorized by Congress on July 30, 1965. Congress charged the Secretary with acquisition of lands “ \* \* \* for the purpose of establishing a national historic site commemorating the completion of the first transcontinental railroad across the United States \* \* \* ” The enabling legislation also states that “ the National Park Service \* \* \* shall administer, protect, and develop such historic site, subject to the provisions of the Act entitled ‘ An Act to establish a National Park Service, and for other purposes ’ ” approved August 25, 1916 (39 Stat. 525), as amended and supplemented, and the Act entitled “ An Act to provide for the preservation of historic American sites buildings, objects, and antiquities of national significance, and for other purposes, ” approved August 21, 1935 (49 Stat. 666), as amended.

The general management plan will prescribe the resource conditions and visitor experiences that are to be achieved and maintained in the national historic site over the next approximately 20 years. The clarification of what must be achieved according to law and policy will be based on review of the park's purpose, significance, special mandates, and the body of law and policies directing the park management. Management decisions to be made where law, policy, or regulations do not provide clear guidance or limits will be based on the purposes of the park; the range of public expectations and concerns; resource analysis; an evaluation of the natural, cultural, and social impacts of alternative courses of action; and consideration of long-term
