Approval and Promulgation of Air Quality Implementation Plans; Texas; Control of Air Pollution From Volatile Organic Compounds

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Texas. This revision, adopted by Texas on November 15, 2006, and submitted to EPA on December 13, 2006, extends requirements to reduce volatile organic compound (VOC) emissions in the Dallas-Fort Worth (DFW) area. Specifically, this revision extends requirements for control of VOC emissions to the five counties that were added to the DFW nonattainment area under the 1997 8-hour ozone standard designation: Ellis, Johnson, Kaufman, Parker, and Rockwall, and the affected VOC sources will be subject to the same emission limitation, control, monitoring, testing, recordkeeping, and recording requirements in effect in Collin, Dallas, Denton, and Tarrant counties. As a result of this action, these new VOC control requirements will be consistent for all nine counties in the DFW ozone nonattainment area. This revision meets statutory and regulatory requirements, and is consistent with EPA's guidance. EPA is approving this revision pursuant to section 110, 116 and part D of the Federal Clean Air Act (CAA).

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.
