Once DCP formally files its application with the FERC, you may

want to become an "intervenor," which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in a Commission proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "e-filing" link on the Commission's web site. Please note that you may not request intervenor status at this time. You must wait until a formal application is filed with the Commission.

Environmental Mailing List

We may mail the EA for comment. If you are interested in receiving the EA for review and/or comment, please return the Mailing List Retention Form (Appendix 2). If you do not return the Mailing List Retention Form, you will be taken off the mailing list. All individuals who provide written comments will remain on our environmental mailing list for this project.

Fact sheets prepared by the FERC are also available for viewing on the FERC Internet Web site (<http://www.ferc.gov>), using the "For Citizens" link. These fact

sheets, including "A Guide to LNG—What All Citizens Should Know" and "Guide to Electronic Information at FERC," address a number of typically asked questions about LNG and provide instructions on how to participate in the Commission's proceedings.

Finally, DCP has established an Internet Web site at http://www.dom.com/about/gas-transmission/covepoint/pier_reinforcement/pdf/cove_point_pier_reinforcement.pdf to provide the public with information about the Pier Reinforcement Project. Issued July 17, 2008.

Before Commissioners: Joseph T. Kelliher, Chairman; Suedeen G. Kelly, Marc Spitzer, Philip D. Moeller, and Jon Wellinghoff.

1. On February 21, 2008, the Commission issued an order on the Western System Power Pool (WSPP) Agreement rates, finding that it is not just and reasonable to allow a seller to use the WSPP-wide "up to" demand charge as a ceiling rate in markets where the seller does not have market-based rate authority, unless such a seller can cost-justify the use of the "up to" demand charge based on its own fixed
