

confidential treatment pursuant to 49 CFR part 512.

This notice addresses the timing of submission of requests for confidentiality of EWR claims data and production data for light vehicles. The agency's EWR CBI rule did not resolve the confidentiality of those data. Instead, as noted above, this was left to individual requests for confidentiality, if manufacturers chose to submit them. And, if a manufacturer did not submit a request covering EWR claims data or, for light vehicles, production data, NHTSA was free to release those data submitted by the manufacturer. However, NHTSA issued an administrative stay of the release of the EWR claims data pending the resolution of the litigation and advised manufacturers not to submit requests for confidentiality while the stay was in effect. In view of the decision and judgment by the Court of Appeals, the stay is no longer operative.

NHTSA is providing manufacturers a limited opportunity to request confidentiality for previously submitted EWR claims data (information on incidents involving death or injury or property damage claims) and, for light vehicles, production data. There are two general groups of EWR data at issue. The first is EWR claims data and light vehicle production data previously submitted to the agency pursuant to the EWR rule. NHTSA's naming convention rules for the submission of electronic EWR quarterly reports require manufacturers to denominate their EWR submissions with a "C" in the Confidentiality Request Identifier to indicate that the manufacturer contends that the EWR claims data and/or light vehicle production data is confidential. However, the "C" in the file naming convention alone does not confer confidential treatment for EWR claims data and light vehicle production data. Manufacturers seeking confidential treatment for this information must submit a request pursuant to 49 CFR part 512 to the Chief Counsel of NHTSA by mail, express courier (e.g., Fed Ex, UPS, DHL), or hand delivery, which is due by August 27, 2008. A request for confidential treatment may be made even if an EWR report was submitted without the "C" designation. If a request for confidential treatment is not submitted by the above date, the agency will be free to disclose the data regardless if a "C" is included in the file name of the EWR report.

The second group of EWR data at issue is EWR claims data and light vehicle production data submitted in the future. Consistent with 49 CFR part 512, manufacturers choosing to request

confidential treatment for such data are required to submit individual requests for confidential treatment to NHTSA's Chief Counsel in connection with their electronic submissions of EWR quarterly reports. While quarterly EWR reports are submitted electronically and require a "C" in the file naming convention to indicate a request for confidential treatment, an individualized request under 49 CFR part 512 must also be sent by mail, express courier or hand delivery to the Chief Counsel of NHTSA.
