**The Honorable Nancy Pelosi
Speaker of the House of Representatives
Washington, DC 20515-6501**

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 08-43, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Finland for defense articles and services estimated to cost \$435 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

Jeffrey A. Wieringa
Vice Admiral, USN
Director

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Finland – AIM-120C-7 AMRAAM Missiles

The Government of Finland has requested a possible sale of 300 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$435 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in Europe.

Finland intends to use the AMRAAM missiles on its existing fleet of F/A-18C/D aircraft. The sale of AMRAAM missiles gives Finland credible territorial defense capability by increasing its sustainment capability during defensive operations, and extending the overall lifespan of its missile inventory. Finland, which already has AMRAAM missiles in its inventory, will have no difficulty absorbing these items.

The prime contractor will be Raytheon Electronic and Missile Systems of Tucson, Arizona. Offset agreements associated with this proposed sale are expected, but at this time the specific offset agreements are undetermined and will be defined in negotiations between the purchaser and contractor.

Implementation of this sale will not require the assignment of any additional U. S. Government personnel in-country.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-43

**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended**

**Annex
Item No. vii**

(vii) Sensitivity of Technology:

1. The AIM-120C-7 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a new generation air-to-air missile. The AIM-120C-7 AMRAAM hardware, including the missile guidance section, is classified Confidential. State-of-the-art technology is used in the missile to provide it with unique beyond-visual-range capability. Significant AIM-120C-7 features include a target detection device with embedded electronic countermeasures, an electronics unit within the guidance section that performs all radar signal processing, mid-course and terminal guidance, flight control, target detection and warhead burst point determination. Anti-tampering security measures have been incorporated into the AIM-120C-7 to prevent exploitation of the AMRAAM software.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon systems effectiveness or could be used in the development of a system with similar or advanced capabilities.
