**SUPPLEMENTARY INFORMATION:** On November 8, 2007, the Water Resources Development Act (WRDA) of 2007 was enacted into law. Title IX of this WRDA, cited as the National Levee Safety Act of 2007 (the Act), involves development of a strategic plan for a national levee safety program, in addition to, inventory and inspection of levees. The initial step will be formation of a sixteen member "Committee on Levee Safety," (Committee) charged with developing recommendations for a national levee safety program, including a strategic implementation plan.

Recommendations shall address the nine program goals named in the Act. Committee membership will include the Secretary of the Army, or the Secretary's designee as Chairperson; the Administrator of the Federal Emergency Management Agency (FEMA) or the Administrator's designee; eight representatives of state levee safety agencies; two representatives of the private sector; two representatives of local and regional governmental agencies; and two representatives of Indian tribes.

Nominees not selected as a Committee member may be given the opportunity to be on the review team for the strategic implementation plan. Potential review team members will be contacted by Headquarters of the U.S. Army Corps of Engineers (HQUSACE) at a later time.

The expected time commitment for Committee members is two years, with no financial compensation, except for travel. Review team members will serve without compensation. It is estimated

that most of the time commitment will be to develop the strategic implementation plan within the first six months.
