

of the USAFTA Implementation Act. See Section 203(o)(2)(B)(i) of the USAFTA Implementation Act. Executive Order 11651 established CITA to supervise the implementation of textile trade agreements and authorizes the Chairman of CITA to take actions or recommend that the United States take actions necessary to implement textile trade agreements. 37 FR 4699 (March 4, 1972).

On February 1, 2008, the Chairman of CITA received a request from Gentry Mills, alleging that certain viscose rayon fiber, classified in HSTUS subheading 5504.10.0000, cannot be supplied by the domestic or Australian industry in commercial quantities in a timely manner and requesting that CITA consider whether the USAFTA rule of origin for 52% viscose/48% polyester blended yarn, classified under HTSUS subheading 5510.90.2000 should be modified to allow the use of non-U.S. and non-Australian viscose rayon fiber. On February 26, 2008, CITA published in the Federal Register a request for public comment on the proposed modification (73 FR 10227). No public comments were received alleging that viscose rayon fiber could be supplied in commercial quantities in a timely manner. Subsequently, the United States requested consultations with the Government of Australia on Gentry Mills' request. In those consultations, the Government of Australia proposed expanding the scope of the modification of the rule of origin to all yarns under HTSUS subheading 5510.90 to allow the use of non-U.S. and non-Australian viscose rayon fiber.

CITA is soliciting public comments regarding this proposal to expand the scope of the rule of origin modification to all yarns in HTSUS subheading 5510.90 to allow the use of non-U.S. and non-Australian viscose rayon fiber. Comments must be received no later than September 5, 2008. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

CITA will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3001 in the Herbert Hoover Building, 14th and Constitution Avenue, N.W., Washington, DC 20230. Persons submitting comments on a

request are encouraged to include a non-confidential version and a non-confidential summary.

R. Matthew Priest,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DS-S

DEPARTMENT OF DEFENSE

Department of the Army

Intent To Grant an Exclusive License of a U.S. Government-Owned Patent

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: In accordance with 35 U.S.C. 209(e) and 37 CFR 404.7 (a)(I)(i), announcement is made of the intent to grant an exclusive, royalty-bearing, revocable license to U.S. Patent No. 7,094,417, issued August 22, 2006, entitled "Fish Hatching Method and Apparatus," and U.S. Patent Application No. 11/340,757 filed January 27, 2006 entitled, "Fish Hatching Method and Apparatus," and foreign rights to Diapause Research Foundation, with its principal place of business at 1924 Creighton Road, Pensacola, FL 32504.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, MD 21702-5012.

FOR FURTHER INFORMATION CONTACT: For licensing issues, Dr. Paul Mele, Office of Research & Technology Assessment, (301) 619-6664. For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808, both at telefax (301) 619-5034.

SUPPLEMENTARY INFORMATION: Anyone wishing to object to the grant of this license can file written objections along with supporting evidence, if any, 15 days from the date of this publication. Written objections are to be filed with the Command Judge Advocate (see **ADDRESSES**).

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-P

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent to Prepare an Environmental Impact Statement for the Conveyance of Federal Lands at Lake Texoma to the City of Denison, Grayson County, TX

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The purpose of the Environmental Impact Statement (EIS) is to address alternatives and environmental impacts associated with the conveyance of approximately 900 acres of Federal land at Lake Texoma, Oklahoma and Texas, to the city of Denison, TX.

ADDRESSES: Questions or comments concerning the proposed action should be addressed to Mr. Stephen L. Nolen, Chief, Environmental Analysis and Compliance Branch, Tulsa District, U.S. Army Corps of Engineers, CESWT-PE-E, 1645 S. 101st E. Ave., Tulsa, OK 74128-4629.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen L. Nolen, (918) 669-7660, fax: (918) 669-7546, e-mail: Stephen.L.Nolen@usace.army.mil.

SUPPLEMENTARY INFORMATION: Section 3182 of the Water Resources Development Act of 2007 (Pub. L. 110-114) directed the Secretary of the Army (Secretary) to offer to convey, at fair market value to the city of Denison, TX, all right, title and interest of the United States in and to approximately 900 acres of land located in Grayson County, TX. The exact acreage and description of the real property will be determined by a survey that is satisfactory to the Secretary and the property conveyed by quitclaim deed. The real property is currently held in fee by the U.S. Government and managed by the Tulsa District Corps of Engineers as a part of Lake Texoma, a multipurpose reservoir located along the Red River in Oklahoma and Texas. The lands subject to this action are located along the eastern shore of the Little Mineral Arm of Lake Texoma in Grayson County, TX. Upon receipt of title to the property, the City of Denison intends to develop the area, in conjunction with development of adjacent private lands, to include such features as single and multi-family residential housing, hotel and conference facilities, golf course(s), retail and commercial space, office and light industry, public boat ramp(s), beach and yacht clubs, and related commercial development facilities.

Reasonable alternatives to be considered include varying amounts of acreages to be conveyed, alternative deed restrictions on conveyed lands, varying development features and locations, alternative locations and nature of shoreline development, and no action.

Issues to be addressed in the EIS include but are not limited to: (1) Socioeconomic impacts associated with planned development, (2) matters pertaining to shoreline management and potential changes to the Lake Texoma

shoreline management plan in the immediate area of the conveyance, (3) potential impacts to cultural and ecological resources, (4) public access and safety, (5) impacts to lake use and recreation, (6) aesthetics, (7) water and wastewater infrastructure, (8) lake water quality, (9) traffic patterns, (10) terrestrial and aquatic fish and wildlife habitat, (11) Federally-listed threatened and endangered species, and (12) cumulative impacts associated with past, current, and reasonably foreseeable future actions at Lake Texoma.

A public scoping meeting for the action will be conducted in early fall, 2008 in Denison, TX. News releases and notices informing the public and local, state, and Federal agencies of the proposed action and date of the public scoping meeting will be published in local newspapers. Comments received as a result of this notice, news releases, and the public scoping meeting will be used to assist the Tulsa District Corps of Engineers in identifying potential impacts to the quality of the human or natural environment. Affected Federal, state, or local agencies, affected Indian tribes, and other interested private organizations and parties are encouraged to participate in the scoping process by forwarding written comments to (see **ADDRESSES**) or attending the scoping meeting.

The draft EIS will be available for public review and comment. While the specific date for release of the draft EIS has yet to be determined, all interested agencies, tribes, organizations and parties expressing an interest in this action will be placed on a mailing list for receipt of the draft EIS. In order to be considered, any comments and suggestions should be forwarded to (see **ADDRESSES**) in accordance with dates specified upon release of the draft EIS.

Dated: July 28, 2008.

Anthony C. Funkhouser,
Colonel, U.S. Army, District Commander.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Availability Supplemental Draft Environmental Impact Statement for the White River Minimum Flow Reallocation Study, Arkansas

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of availability.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969 (as amended), the U.S. Army Corps of Engineers (USACE), Little Rock District, has prepared a Supplemental Draft Environmental Impact Statement (SDEIS) for the proposed implementation of the White River Minimum Flow, Arkansas. This SDEIS is being made available for a 45-day public comment period.

DATES: Public meetings for receiving comments on the DEIS are tentatively scheduled for August 26, 2008, at Forsyth, MO; and August 27, 2008, at Mountain Home, AR. Specific times and locations will be announced at a later date. Written comments on the SDEIS should be submitted on or before September 22, 2008.

ADDRESSES: Questions or comments concerning the SDEIS should be addressed to Mike Biggs, Project Manager, Planning & Environmental Office, P.O. Box 867, Little Rock, Arkansas 72203-0867.

FOR FURTHER INFORMATION CONTACT: Mike Biggs, telephone 501-324-7342, E-mail: mike.l.biggs@swl02.usace.army.mil.

SUPPLEMENTARY INFORMATION:

Setting: The White River and its tributaries drain a total area of 27,765 square miles (10,620 square miles in Missouri and 17,145 square miles in Arkansas). The White River basin originates in the Boston Mountains of northwest Arkansas (AR), near the city of Fayetteville. Three forks, the White River, the Middle Fork, and the West Fork, come together in Washington County, AR, to form the mainstem of the White River. The White River is first impounded as Lake Sequoyah, a 500-acre impoundment at the junction of the Middle Fork and the White River, near Fayetteville. The White River flows south out of Lake Sequoyah and joins the West Fork before entering Beaver Lake just west of Eureka Springs, AR. The White flows out of Beaver Dam (the first in a series of four hydroelectric dams) northward into Missouri (MO) near the town of Eagle Rock, Barry County. The White then flows eastward where it has been impounded as Table Rock Lake, just below its confluence with the James River near Branson. The White River below Table Rock Lake is again impounded by Powersite Dam near Forsyth, MO, and forms Lake Taneycomo. The river flow takes a southerly turn and flows back into Arkansas where it has again been impounded by Bull Shoals Dam near Cotter, Marion County. The White River flows towards the southeast from Bull Shoals Dam. The White river exits the
