SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-58252; File No. SR-DTC-2008-05]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing of a Proposed Rule Change Relating to Establishing a New Money Market Instrument Procedure Disincentive Fee

July 30, 2008.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on June 5, 2008, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") and on July 16, 2008, amended the proposed rule change and as described in Items I, II, and III below, which Items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would establish a new disincentive fee for DTC's Money Market Instrument ("MMI") settlement services.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements

may be examined at the places specified in Item IV below. DTC has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to add a new \$10,000 disincentive fee for "reversal of a failure or refusal to pay instruction" that will be listed in DTC's fee schedule for settlement services under the heading "Money Market Instruments (MMI) by Book Entry Only."

As background, DTC automatically sweeps all maturing money market instruments' ("MMIs") positions each morning from investors' custodian accounts and generates the appropriate maturity payment ("MP"). The MMIs are then delivered to the account of the appropriate issuer paying agent ("IPA"). DTC debits the IPA's account in the amount of the MP for settlement that day and credits the same MP amount to the investor's custodian account for payment that day to the investor.

However, because MPs are processed automatically and randomly against the IPA's DTC account, IPAs can refuse to pay a specific issuer's MP if that issuer defaults on its obligation to the IPA. An IPA that refuses payment on an MMI must communicate its intention to do so to DTC by using the MP Refusal function on DTC's Participant Terminal System ("PTS"). This communication is referred to as an Issuer Failure/Refusal to Pay and it allows the paying agent to enter refusal to pay notifications for a particular defaulting issuer through PTS until 3:00 p.m., eastern time, on the maturity date. The paying agent understands that entering such a notification will cause DTC to follow its Defaulting Issuer procedures, which include devaluing the collateral value of all of the defaulting issuer's MMIs to zero, reversing all of the issuer's issuances and maturities processed that day, notifying DTC participants of the default, and blocking all further issuances by the issuer from entering DTC. If, thereafter, an IPA contacts DTC to complete all of the transactions that it previously cancelled through the MP Refusal Function, DTC must undo all the actions it took under its Defaulting Issuer procedures. This process of reversing a refusal or failure to pay instruction and effectively resettling the security is an operational burden to DTC and of great financial concern to investors and their custodians. Accordingly, DTC is proposing to

implement a disincentive \$10,000 fee to each IPA that requests such reversal. Additionally, DTC expects such fee to serve as a disincentive to IPAs that request such reversal.

DTC states that the proposed rule change is consistent with the requirements of Section 17A of the Act² and the rules and regulations thereunder applicable to DTC because the disincentive fee is designed to deter the practice of requesting a refusal or failure to pay instruction, thereby promoting the prompt and accurate clearance and settlement of securities transactions.

B. Self-Regulatory Organization's Statement on Burden on Competition

DTC does not believe that the proposed rule change will have any impact or impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments relating to the proposed rule change have not yet been solicited or received. DTC will notify the Commission of any written comments it receives.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve such proposed rule change or
- (B) Institute proceedings to determine whether the proposed rule change should be disapproved.
