

interconnecting pipelines to four existing pipelines (Dauphin Island Gathering System Feedline, Transco Feedline, Destin Feedline, and Viosca Knoll Gathering System Feedline).

The major components of the proposed deepwater port would be the Support Platform, two HiLoad floating LNG transfer and re-gasification units, two PLEMs with ancillary risers and terminal pipelines, HiLoad parking line pilings, and approximately 25 miles of new subsea pipeline.

BOET will have an average throughput capacity of 1.2 billion standard cubic feet per day (Bscfd) of natural gas. No new onshore pipelines or LNG storage facilities are proposed with this action. A shore based facility will be used to facilitate movement of personnel, equipment, supplies, and disposable materials between the terminal and shore.

Construction of the deepwater port would be expected to take 30 months; with startup of commercial operations in 2011, should a license be issued. The deepwater port, if licensed, would be designed, constructed and operated in accordance with applicable codes and standards and would have an expected operating life of approximately 25 years.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Reports, Forms, and Recordkeeping Requirements; Agency Information Collection Activity: Under OMB Review

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below will be forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and the expected burden. The **Federal Register** Notice with a 60-day comment period was published on February 4, 2008 (73 FR 6556-6558). No comments on this notice were received.

DATES: Comments must be submitted on or before 30 days from the date of publication.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.

FOR FURTHER INFORMATION CONTACT: Keith D. Williams at the National Highway Traffic Safety Administration, Enforcement and Justice Services Division (NTI-122), 202-366-0543, 1200 New Jersey Ave., SE., W44-231, Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: Demonstration of Speed Management Programs; Including Automated and Traditional Enforcement.

OMB Number: 2127-NEW.

Type of Request: Collection of information.

Abstract: The National Highway Traffic Safety Administration (NHTSA) proposes to conduct a series of telephone surveys that will examine the effectiveness of a speed management research and demonstration program in the city of Tucson, Arizona. As part of the program, surveys will be administered pre and post implementation of the countermeasure treatment program to measure awareness of the program in both Tucson and an as yet to be selected comparison community/ies in the State of Arizona. The pretreatment telephone surveys would be administered during the fall-winter 2008/2009 time period and the post-treatment survey 24 months afterward. The National Highway Traffic Safety Administration was established to reduce the mounting number of deaths, injuries, and economic losses resulting from motor vehicle crashes on the Nation's highways. As part of this statutory mandate, NHTSA is authorized to conduct research as a foundation for the

development of motor vehicle standards and traffic safety programs. The speed demonstration project requires NHTSA to measure whether these initiatives were effective. The telephone surveys are instrumental in that measurement. The telephone surveys will be administered to a randomly selected sample of 400 persons pre and post treatment in the demonstration and comparison areas to persons age 18 and older. An essential part of this evaluation effort is to compare baseline and post-intervention measures of attitudes and intervention awareness to determine if the interventions were associated with changes on those indices.

Affected Public: Randomly selected members of the general public in telephone households.

Estimated Total Annual Burden: 266.67 hours (1,600 interviews averaging 10 minutes each).

Comments Are Invited On: Whether the proposed collection of information is necessary or the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Authority: 44 U.S.C. 3506(c)(2)(A).

Dated: August 4, 2008.

SUPPLEMENTARY INFORMATION:

Title: Averaging of Farm Income.

OMB Number: 1545-1662.

Form Number: REG-121063-97; TD 8972(Final).

Abstract: Section 1301 of the Internal Revenue Code allows an individual engaged in a farming business to elect to reduce his or her regular tax liability by treating all or a portion of the current year's farming income as if it had been earned in equal proportions over the prior three years. To take advantage of income averaging, § 1301 requires that the taxpayer calculate the § 1 tax using the three prior years' tax tables and, if applicable, Schedule D, Capital Gains and Losses, (to apply the maximum capital gains tax rates), as well as the current year's tax tables or tax rate schedules. The regulation requires the taxpayer to use Schedule J of Form 1040 to record and total the amount of tax for each year of the four year calculation.

Current Actions: There are no changes to this existing regulation.

Type of Review: Extension of a currently approved collection.

The burden for this requirement is reflected in the burden estimate for Schedule J of Form 1040.
