**SUPPLEMENTARY INFORMATION:** The primary purpose of the Ice Age NST is to create an outstanding 1,000-mile hiking trail that follows the terminal moraines and other landscape features left by the last glacial advance and retreat approximately 10,000 years ago. The Ice Age National Scientific Reserve (Reserve), a companion project to the Ice Age NST, is a network of nine units that contain clusters of the most significant examples of landscape features formed by continental glaciation. The Ice Age NST and Reserve are the only authorized areas in the National Park System that focus on interpreting the landscape formed by continental glaciation. The Ice Age NST Interpretive Site lies within the boundary of the Wisconsin DNR Cross Plains Unit of the Reserve.

The NPS efforts to establish, develop, and manage the Ice Age NST are guided by the 1983 Comprehensive Plan for Management and Use of the Ice Age NST. The plan does not address or resolve the many detailed issues associated with owning, operating, and organizing a major interpretive site along the trail, although it cites the NPS authority to establish such a site. The development of a new GMP/EIS for the Ice Age NST Interpretive Site and Cross Plains Unit of the Reserve will result in a long-term (15-20 year) vision for the management and protection of this unique area. The outcome of the GMP/EIS will achieve a consistent management over the entire project, identify necessary developments, and support facilities to achieve the desired outcomes for the Ice Age NST and Interpretive Site, provide direction for restoring and managing the significant geologic and biologic features on the site, and define appropriate visitor use activities.

Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

**SUPPLEMENTARY INFORMATION:** Consistent with section 9(f) of the Reclamation Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity.

The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall

determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Consent Decree Under the Clean Water Act and the Resource Conservation and Recovery Act

Notice is hereby given that on August 7, 2008, a proposed Consent Decree ("Decree") in *United States v. Republic Dumpco, Inc., et al.*, Civil Action No. 2:08-cv-01024 (D. Nev.) was lodged with the United States District Court for the District of Nevada.

The civil action relates to the Sunrise Mountain Landfill in Las Vegas,

Nevada. In this action the United States sought to obtain injunctive relief and assessment of civil penalties against Republic Dumpco, Inc. and Republic Silver State Disposal Inc. (doing business as Republic Services of Southern Nevada) (hereinafter "Republic Services of Southern Nevada"), for alleged violations of the Clean Water Act ("CWA"), 33 U.S.C. 1251-1387. The complaint also sought injunctive relief and assessment of civil penalties against Republic Services of Southern Nevada and Clark County, Nevada, under Section 7003 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. 6973. The complaint also states claims for damages for trespass against all three defendants, and breach of contract and violations of permits against Clark County.

The proposed Decree would require Republic Services of Southern Nevada to pay \$1 million as a civil penalty, and to implement a comprehensive closure of the Landfill estimated to cost \$36.3 million, including storm water controls, upgrades to the cover, methane gas collection, groundwater monitoring, and long-term operation and maintenance. In addition, Clark County agrees to accept ownership of the landfill from the United States Bureau of Land Management. The Consent Decree resolves the violations alleged in the complaint. In addition, the United States grants a covenant not to sue for the Landfill under Section 7003 of RCRA, and under sections 106 and 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9606 and 9607.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to [pubcomment-ees.enrd@usdoj.gov](mailto:pubcomment-ees.enrd@usdoj.gov) or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, D.C. 20044-7611, and should reference *United States v. Republic Dumpco*, Civil Action No. 2:08-cv-01024, and DOJ Ref. No. 90-7-1-06725/2. Commenters may request an opportunity for a public meeting in the affected area, in accordance with Section 7003(d) of RCRA, 42 U.S.C. 6973(d).

The Decree may be examined at the Office of the United States Attorney, 333 Las Vegas Blvd. South, Suite 5000, Las Vegas, Nevada 89101. During the public comment period, the Decree may also be examined on the following Department of Justice Web site: <http://www.usdoj.gov/enrd/>
