Notice of Decision Regarding the State of Texas Request for a Waiver of a Portion of the Renewable Fuel Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Governor of the State of Texas requested a waiver of 50 percent of the renewable fuel standard (RFS or RFS mandate) for the time period from September 1, 2008 through August 31, 2009, pursuant to section 211(o)(7) of the Clean Air Act (the Act), 42 U.S.C. 7545(o)(7). Based on a thorough review of the record in this case, EPA finds that the evidence does not support a determination that implementation of the RFS mandate during the time period at issue would severely harm the economy of a State, a region, or the United States. EPA is therefore denying the request for a waiver. In this Notice EPA is also providing guidance on the Agency's general expectations for future waiver requests.

DATES: Petitions for review must be filed by October 14, 2008.

ADDRESSES: EPA has established a docket for this action under Docket ID

SUPPLEMENTARY INFORMATION:

I. Executive Summary

The RFS program, which requires the use of renewable fuels in the U.S. transportation sector, was originally adopted by Congress in the Energy Policy Act of 2005 (EPAAct). This program was recently modified by Congress in the Energy Independence and Security Act of 2007 (EISA). The RFS program provides that the Administrator, in consultation with the Secretaries of Agriculture and Energy, may waive the national renewable fuel volume requirements, in whole or in part, if the Administrator determines that implementation of the requirement would severely harm the economy or environment of a State, region, or the United States (see Clean Air Act section 211(o)(7)(A)).

On April 25, 2008, the Governor of the State of Texas requested a fifty percent waiver of the national volume requirements for the renewable fuel standard (RFS or RFS mandate). Texas
