

Frequency of Response: Monthly and quarterly reporting requirements; third party disclosure.

Total Annual Burden: 3,000 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact.

Nature of Extent of Confidentiality: The respondents may request confidentiality protection for the special access performance information. The respondents are not required to file their customers' monthly usage information with the Federal Communications Commission (FCC).

Needs and Uses: The service quality measurement plan for interstate special access would require the respondents to report special access performance metrics on a quarterly basis. Because, pursuant to Section 272(f)(1) Sunset of the BOC Separate Affiliate and Related Requirements; 2000 Biennial Regulatory Review Separate Affiliate Requirements of Section 64.1903 of the Commission's Rules; Petition of AT&T Inc. for Forbearance Under 47 U.S.C. 160(c) with Regard to Certain Dominant Carrier Regulations for In-Region, Interexchange Services, WC Docket Nos. 02-112, 06-120, CC Docket No. 00-175, *Report and Order and Memorandum Opinion and Order*, 22 FCC Rcd 16440 (2007) (Section 272 Sunset Order), the respondents are no longer required to comply with the section 272 structural safeguards, the special access performance metrics reporting requirements will help ensure that these carriers do not engage in non-price discrimination in the provision of special access services to unaffiliated entities and will provide the FCC and other interested parties with reasonable tools to monitor these carriers' performance in providing these special access services to themselves and their competitors. The monthly usage reporting requirement would require the respondents to provide each of their residential customers who subscribe to a call plan that establishes a single rate for unlimited wireline local exchange and long distance telecommunications service with the total number of long distance telecommunications service minutes used by that customer each month. This monthly usage reporting requirement will help ensure that, as a result of the relief granted in the Section 272 Sunset Order residential interstate long distance consumers receive adequate information regarding their monthly usage in order to make informed choices among alternative long distance calling plans.

OMB Control Number: 3060-0760.

Title: 272 Sunset Order, WC Docket No. 06-120; Access Charge Reform, CC

Docket No. 96-262 (First Report and Order); Second Order on Reconsideration and Memorandum Opinion and Order, and Fifth Report and Order.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Businesses or other for-profit.

Number of Respondents and Responses: 17 respondents; 904 responses.

Estimated Time per Response: 3-300 hours.

Frequency of Response: On occasion and one time reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. See 47 FR 69.727.

Total Annual Burden: 30,348 hours.

Total Annual Cost: \$700,600.

Privacy Act Impact Assessment: No impacts.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Pursuant to the recently-released Section 272 Sunset Order, FCC 07-159, respondents are no longer required to comply with 47 U.S.C. 272 structural safeguards. As such, the respondents must now file certifications with the Commission prior to providing contract tariff services to itself or to any affiliate that is neither a section 272 nor a rule 64.1903 separate affiliate for use in the provision of any in-region, long distance services that it provides service pursuant to that contract tariff to an unaffiliated customer. The certification requirement will ensure, as a result of the relief granted in FCC 07-159, equivalent protection in the event the BOCs provide in-region, long distance services directly and will be less burdensome and less costly for these providers.

Please note that the Commission is republishing this notice in the **Federal Register** due to our determination that the initial publication contained several errors and that the methodology use to estimate the burdens should be revised. The initial publication was on July 24, 2008 (73 FR 43228). Also, the revisions to information collection 3060-0760 stem from the 272 Sunset Order that prompted the new information collection 30-day notice being published simultaneously.

Deputy Secretary.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-4766 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Focus Group Testing to Effectively Plan and Tailor Cancer Prevention and Control Communication Campaigns—New—Division of Cancer Prevention and Control (DCPC), National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The mission of CDC's Division of Cancer Prevention and Control (DCPC) is to reduce the burden of cancer in the United States through cancer prevention, reduction of risk, early detection, better treatment, and improved quality of life for cancer survivors. Toward this end, DCPC supports the scientific development, implementation, and evaluation of various health communication campaigns with an emphasis on specific cancer burdens. This process requires testing of messages, concepts, and materials prior to their final development and dissemination.

CDC requests OMB approval of a generic information collection request to develop and test cancer prevention and control messages, including, but not limited to, colorectal and gynecologic cancers. Because communication campaigns will vary according to the type of cancer, qualitative dimensions of the message, and the type of respondents, DCPC has developed a reference set of questions that can be tailored for use in a variety of focus group-based information collections. The discussion guide for each focus group will be drawn from the reference set of pre-approved questions.

Insights gained from the focus groups will assist in the development and/or refinement of messages and materials to ensure that the general public and other key audiences clearly understand the messages and are motivated to adopt the desired action. Screening information will be collected from potential respondents in order to identify those who represent key audiences for specific messages.

The average burden for participating in a focus group discussion will be two hours. Over a three-year period, DCPC will conduct or sponsor up to 72 focus groups per year with an average of 12 respondents each. There are no costs to respondents except their time. The total estimated annualized burden hours are 1,814.
