

SAFEGUARDS:

Records in this system are safeguarded in accordance with applicable rules and policies, including all applicable DHS automated systems security and access policies. Strict controls have been imposed to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions. The system maintains a real-time auditing function of individuals who access the system. Additional safeguards may vary by component and program.

RETENTION AND DISPOSAL:

The National Archives Records Administration has not approved a retention schedule for this system of records. USCIS has proposed a retention period of 15 years from the date of the last interaction between FDNS personnel and the individual after which time the record will be deleted from FDNS-DS. The 15-year retention schedule is proposed to provide FDNS with access to information that is critical to the investigation of suspected or confirmed fraud, criminal activity, egregious public safety, and/or national security concerns. Upon closure of a case, any information that is needed to make an adjudicative decision (such as a statement of findings report), whether there was or was not an indication of fraud, criminal activity, egregious public safety, and/or national security concerns, will be transferred to the A-File and maintained under the A-File retention period, which is currently 75 years.
