SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including: environmental, human health, and agricultural advocates; the chemical industry, pesticide users, and members of the public interested in the sale, distribution, or the use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

EPA seeks public comment on petitions from the National Resources Defense Council (NRDC) and Pesticide Action Network North America (PANNA) requesting that EPA revoke all tolerances for endosulfan. These petitions, available in EPA-HQ-OPP-2008-0615, were submitted on February 19, 2008 in response to EPA's 2007 human health and ecological effects assessment updates for endosulfan (**Federal Register** of November 16, 2007; 72 FR 64624; FRL-8339-5). The updated assessments, as well as the 2002 endosulfan registration eligibility decision, are available in the electronic docket at <http://www.regulations.gov> under docket number EPA-HQ-OPP-2007-0944.

Although the petitions requested both cancellation and revocation of tolerances, this notice is seeking public comment only on the requests to revoke all tolerances for residues of endosulfan established under section 408 of the Federal Food, Drug and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act (FQPA) and codified at 40 CFR 180.182.

EPA will issue a separate **Federal Register** notice in early 2009 soliciting public comment on the NRDC and PANNA petitions' requests to cancel all uses of endosulfan under section 6 of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) (7 U.S.C. 136d(b)). The notice will be issued in conjunction with a request for public comment on findings from an October 2008 Scientific Advisory Panel (SAP) meeting on Persistent Bioaccumulative Toxicants (PBTs).

Through this current notice, EPA is also soliciting information from the public on endosulfan residues in/on commodities consumed by Alaska

Natives, as well as additional information on endosulfan bioaccumulation, persistence, toxicity, monitoring and transport, and ecological incidents. This information will support EPA compliance with Executive Order 12898, *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations*.

To-date, EPA has received and reviewed the following studies to better assess dietary risk to Alaska Natives from endosulfan residues:

1. Alaska Department of Environmental Conservation Fish Monitoring Program: Analysis of Organic Contaminants;
2. EPA Region 10 Columbia River Basin Fish Contaminant Survey 1996-1998;
3. EPA Region 10 Survey of Chemical Contaminants in Fish, Invertebrates, and Plants Collected in the Vicinity of Tyonek, Seldovia, Port Graham and Nanwalek and Cook Inlet, Alaska;
4. National Park Service Western Airborne Contaminants Assessment Project (WACAP) data; and
5. Kelly, *et al.* "Food Web-Specific Biomagnification of Persistent Organic Pollutants," published July 13, 2007 in *Science*, vol. 317, no. 5835, pp. 236 – 239.

The studies listed in this unit are available in docket ID number EPA-HQ-OPP-2008-0615.

EPA asks that comments on the NRDC and PANNA petitions' requests to revoke all tolerances for residues of endosulfan be submitted within 60 days. Submission of information on endosulfan residues in/on commodities consumed by Alaska Natives should also be submitted within 60 days.
