SMALL BUSINESS ADMINISTRATION

[Disaster Declaration # 11371]

Massachusetts Disaster # MA-00018
Declaration of Economic Injury

AGENCY: U.S. Small Business
Administration.

ACTION: Notice.

SUMMARY: This is a notice of an
Economic Injury Disaster Loan (EIDL)
declaration for the State of
Massachusetts, dated 08/15/2008.

Incident: Fire.

Incident Period: 07/04/2008.

Effective Date: 08/15/2008.

EIDL Loan Application Deadline Date:
05/15/2009.

ADDRESSES: Submit completed loan
applications to: U.S. Small Business
Administration, Processing and
Disbursement Center, 14925 Kingsport
Road, Fort Worth, TX 76155.

FOR FURTHER INFORMATION CONTACT: M.
Mitravich, Office of Disaster Assistance,
U.S. Small Business Administration,
409 3rd Street, SW., Suite 6050,
Washington, DC 20416.

SUPPLEMENTARY INFORMATION: Notice is
hereby given that as a result of the
Administrator's EIDL declaration,
applications for economic injury
disaster loans may be filed at the
address listed above or other locally
announced locations.

The following areas have been
determined to be adversely affected by
the disaster:

Primary Counties: Dukes

Contiguous Counties:

Massachusetts: Barnstable

The Interest Rate is: 4.000.

The number assigned to this disaster
for economic injury is 113710.

The States which received an EIDL
Declaration number are Massachusetts.

(Catalog of Federal Domestic Assistance
Number 59002)

Dated: August 15, 2008.

Jovita Carranza,
Acting Administrator.

DEPARTMENT OF STATE

[Public Notice 6326]

Notice of Availability of the Final
Environmental Assessment and A
Finding of No Significant Impact for
the Proposed PMI Frontera Juarez
Pipeline Project

August 15, 2008.

AGENCY: Department of State.

ACTION: Notice of Availability of the
Final Environmental Assessment and A
Finding of No Significant Impact for the
Proposed PMI Frontera Juarez Pipeline
Project.

SUMMARY: This notice announces the
availability of the Final Environmental
Assessment and a Finding of No
Significant Impact for the Proposed PMI
Frontera Juarez Pipeline Project.

On January 18, 2008, PMI Services
North America ("PMI") applied for a
Presidential permit to construct,
connect, operate and maintain a 10.75-
inch liquid hydrocarbon (gasoline and
diesel) pipeline for the transportation of
liquid hydrocarbon products between
the United States and Mexico, to be
located at the international border
between the United States and Mexico,
near San Elizario, Texas. Currently, the
refined products are transported across
the international border via trucks from
El Paso to Ciudad Jua rez. The Frontera
Juárez Pipeline would displace this
mode of delivery with the proposed net
effect of increasing safety and
decreasing the negative impact to the
local environment.

Executive Order 13337 of April 30,
2004, as amended, delegates to the
Secretary of State the President's
authority to receive applications for
permits for the construction,
connection, operation, or maintenance
of facilities, including pipelines, for the
exportation or importation of petroleum,
petroleum products, coal, or other fuels
at the border of the United States and to
issue or deny such Presidential Permits
upon a national interest determination.

The Executive Order directs the
Secretary of State to refer the
application and pertinent information
to, and to request the views of, the
heads of certain agencies before issuing
a Permit and authorizes the Secretary to
consult with other interested federal
and state officials, as appropriate. The

Executive Order also authorizes **Federal Register** notification of receipt of Presidential permit applications and for public comments on those applications. The functions assigned to the Secretary have been further delegated within the Department of State.

The Department of State published in the **Federal Register** a Notification of Receipt and Notice of Intent to prepare an Environment Assessment (EA) regarding the PMI Application for a permit on March 26, 2008 (73 FR 16090-01). That notification advised the public that the Department intended to prepare an EA on the application and solicited public comment. The Department's Notice of Availability of the draft EA and request for public comment was published in the **Federal Register** on April 29, 2008 (73 FR 23301-01), seeking comments by May 29, 2008. The Department received public comments in response to its two notices and has taken them into account in preparing the Final Environmental Assessment on the PMI Application.

As required by Executive Order 13337, PMI's pipeline application and a Draft Environmental Assessment were also transmitted to the relevant federal agencies for their review and comment on May 22, 2007. The Department of State received no objections from federal agencies regarding the issuance of a permit.

In accordance with the National Environmental Policy Act of 1969 ("NEPA"), 42 U.S.C. 4321-4370f, the Council of Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA, 40 CFR parts 1500-1508, and the Department's regulations for the implementation of NEPA, 22 CFR part 161, PMI has prepared a Final Environmental Assessment ("FEA") under the guidance and supervision of the Department, with full public participation, including a public meeting and ample opportunity for written and oral public comment on the project. Based on the FEA and the record created as part of the Department's evaluation of the PMI application, on August 16, 2008 the Department determined that "issuance of a Presidential Permit authorizing construction, connection, operation and maintenance of the proposed Frontera Juarez Pipeline would not have a significant impact on the quality of the human environment within the United States." Accordingly, the Department on that date adopted a "Finding Of No Significant Impact" (FONSI) and determined that an environmental impact statement will not be prepared on the PMI application.

FOR FURTHER INFORMATION CONTACT: The Final Environmental Assessment addressing this action is on file and may be reviewed by interested parties, along with the Finding of No Significant Impact, at the Department of State, 2200 C Street NW., Room 4843, Washington, DC 20520 (Attn: Mr. J. Brian Duggan, Tel. 202-647-1291). The above documents may also be requested by e-mail at DugganJB@state.gov.

Issued in Washington, DC on August 15, 2008.

Stephen J. Gallogly,

Director, Office of International Energy and Commodity Policy, Department of State.

BILLING CODE 4710-07-P

DEPARTMENT OF STATE

[Public Notice 6327]

Notice of Receipt of Application for a Presidential Permit To Operate and Maintain Pipeline Facilities on the Border of the United States

Notice is hereby given that the Department of State has received an application from Razorback L.L.C. for a Presidential permit, pursuant to Executive Order 13337 of April 30, 2004, to operate and maintain two pipelines for transporting petroleum products from Brownsville, Texas, to Matamoros, Mexico ("Matamoros pipelines"), crossing the international boundary line between the United States and Mexico at a point near Brownsville, Texas. On July 26, 1999, the Department of State (the "Department"), acting pursuant to delegated authority, issued a Presidential permit to the Penn Octane Corporation ("Penn Octane"), a California corporation with its principal place of business in Redmond, California, to "construct, maintain and operate" the Matamoros pipelines. According to the application, Rio Vista Operating Partnership L.P. ("Rio Vista") was the successor in interest to Penn Octane and Razorback acquired the Matamoros pipelines from Rio Vista on December 31, 2007, as part of a large asset acquisition.

According to the application, Razorback is a Delaware Limited liability company doing business in Texas as Diamondback Pipeline L.L.C. and is engaged in the interstate and intrastate transportation of liquid petroleum products by pipeline. Also, according to the application, Razorback is an indirect wholly owned subsidiary of TransMontaigne Partners, L.P., a Delaware Limited Partnership.

Razorback has, in written correspondence to the Department of State, committed to abide by the relevant terms and conditions of the permit previously issued by the Department to Penn Octane. Further, Razorback indicates in that correspondence that there have been no substantial changes in the operations of the Matamoros pipelines from those originally authorized by the Department and further states that the future operation of the pipeline will remain essentially unchanged from that previously permitted. Therefore, in accordance with 22 CFR 161.7(b)(3) and the Department's Procedures for Issuance of a Presidential Permit Where There Has Been a Transfer of the Underlying Facility, Bridge or Border Crossing for Land Transportation (70 FR 30990, May 31, 2005), the Department of State does not intend to conduct an environmental review of the application unless information is brought to its attention that the transfer potentially would have a significant impact on the quality of the human environment.

As required by E.O. 13337, the Department of State is circulating this application to concerned federal agencies for comment.

DATES: Interested parties are invited to submit, in duplicate, comments relative to this proposal on or before September 22, 2008 to J. Brian Duggan, Office of International Energy and Commodities Policy, Department of State, Washington, DC 20520. The application and related documents that are part of the record to be considered by the Department of State in connection with this application are available for inspection in the Office of International Energy and Commodities Policy during normal business hours.

FOR FURTHER INFORMATION CONTACT: J. Brian Duggan, Office of International Energy and Commodity Policy (EB/ESC/IEC/EPC), Department of State, Washington, DC 20520; or by telephone at (202) 647-1291; or by e-mail at DugganJB@state.gov.

Dated: August 15, 2008.

Stephen J. Gallogly,

Director, Office of International Energy and Commodity Policy, Department of State.
