

While the number of incidental harassment takes will depend on the distribution and abundance of marine mammals in the vicinity of the activity, the number of potential harassment takings is estimated to be small (less than five percent of any of the estimated population sizes) and has been mitigated to the lowest level practicable through incorporation of the measures mentioned previously in this document.

The provision requiring that the activity not have an unmitigable adverse impact on the availability of the affected species or stock for subsistence uses is not implicated by this action.

Northern fur seals, Guadalupe fur seals, and Steller sea lions are unlikely to be found in the area and, therefore, will not be affected. No rookeries, mating grounds, areas of concentrated feeding, or other areas of special significance for marine mammals occur within or near south VAFB harbor.

#### Authorization

As a result of these determinations, NMFS has issued an IHA to ULA to take marine mammals, by Level B harassment, incidental to conducting harbor activities at VAFB for a one-year period, provided that the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: August 18, 2008.
