

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[EPA-OAR-R04-2008-0512-200815 (b); FRL-8706-3]

Approval and Promulgation of Plans; North Carolina; Miscellaneous Revisions**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the State Implementation Plan submitted by the North Carolina Department of Environment and Natural Resources on behalf of the State of North Carolina on April 16, 2001, April 4, 2003, and December 14, 2004. The purpose of these revisions is to require continuous emissions monitoring systems be used to determine compliance; specify a 24-hour block averaging time for sulfur dioxide emissions; make a correction to a cross-reference; provide options for supplying missing data and for determining heat input; and make several revisions to permit exemptions. This action is being taken pursuant to section 110 of the Clean Air Act.

In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before September 22, 2008.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-OAR-R04-2008-0512 by one of the following methods:

Migratory Bird Permits; Control of Muscovy Ducks, Revisions to the Waterfowl Permit Exceptions and Waterfowl Sale and Disposal Permits Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service, propose changes in the regulations governing control of introduced migratory birds. The muscovy duck (*Cairina moschata*) occurs naturally only in southern Texas. It has been introduced in other locations, where it is considered an invasive species that sometimes creates problems through competition with native species, damage to property, and transmission of disease. We propose to revise 50 CFR part 21 to prohibit sale of muscovy ducks for hunting, and to allow their removal in locations in which the species does not occur naturally in the contiguous United States, Alaska, and Hawaii, and in U.S. territories and possessions. This will require a revision of § 21.14 (permit exceptions for captive-bred migratory waterfowl other than mallard ducks) and a revision of § 21.25 (waterfowl sale and disposal permits), and the addition of § 21.54, an order to allow control of muscovy ducks, their nests, and eggs. We also have rewritten the affected regulations to make them easier to understand.
