

in Tier 1 capital pledged deposits and nonwithdrawable accounts to the extent that such accounts or deposits have no fixed maturity date, cannot be withdrawn at the option of the account holder, and do not earn interest that carries over to subsequent periods. The OTS also permits the inclusion of net worth certificates, mutual capital certificates, and income capital certificates complying with applicable OTS regulations in savings associations' Tier 2 capital. In the aggregate, however, these deposits, accounts, and certificates are only a negligible amount, if any, of the Tier 1 or Tier 2 capital of OTS-supervised savings associations. The OCC, the FRB, and the FDIC do not expressly address these instruments in their regulatory capital standards, and they generally are not recognized as Tier 1 or Tier 2 capital components.

#### Covered Assets

The OCC, the FRB, and the FDIC generally place assets subject to guarantee arrangements by the FDIC or the former Federal Savings and Loan Insurance Corporation in the 20 percent risk-weight category. The OTS places these "covered assets" in the zero percent risk-weight category. In the aggregate, the amount of covered assets in OTS-supervised savings associations is negligible.

#### Differences in Accounting Standards Among the Federal Banking Agencies

##### Push-Down Accounting

Push-down accounting is the establishment of a new accounting basis for a depository institution in its separate financial statements as a result of the institution becoming substantially wholly owned. Under push-down accounting, when a depository institution is acquired in a purchase, yet retains its separate corporate existence, the assets and liabilities of the acquired institution are restated to their fair values as of the acquisition date. These values, including any goodwill, are reflected in the separate financial statements of the acquired institution, as well as in any consolidated financial statements of the institution's parent.

The OCC, the FRB, and the FDIC require the use of push-down accounting for regulatory reporting purposes when an institution's voting stock becomes at least 95 percent owned by an investor or a group of investors acting collaboratively. This approach is generally consistent with accounting interpretations issued by the staff of the Securities and Exchange Commission. The OTS requires the use of push-down accounting when an institution's voting

stock becomes at least 90 percent owned by an investor or investor group.

## GENERAL SERVICES ADMINISTRATION

### Multiple Award Schedule Advisory Panel; Notification of Public Advisory Panel Meetings

**AGENCY:** U.S. General Services Administration (GSA).

**ACTION:** Notice.

**SUMMARY:** The U.S. General Services Administration (GSA) Multiple Award Schedule Advisory Panel (MAS Panel), a Federal Advisory Committee, will hold public meetings on the following dates: Friday, September 19, 2008; Monday, September 22, 2008; Monday, October 6, 2008; and Monday, October 27, 2008. GSA utilizes the MAS program to establish long-term Governmentwide contracts with responsible firms to provide Federal, State, and local government customers with access to a wide variety of commercial supplies (products) and services.

The MAS Panel was established to develop advice and recommendations on MAS program pricing policies, provisions, and procedures in the context of current commercial pricing practices. For the next 3 to 4 meetings, the Panel plans to focus on developing recommendations for MAS program pricing provisions for the acquisition of (1) professional services; (2) products; (3) total solutions which consist of professional services and products; and (4) non professional services. In developing the recommendations, the Panel will, at a minimum, address these 5 questions for each of the 4 types of acquisitions envisioned above: (1) Where does competition take place?; (2) If competition takes place primarily at the task/delivery order level, does a fair and reasonable price determination at the MAS contract level really matter?; (3) If the Panel consensus is that competition is at the task order level, are the methods that GSA uses to determine fair and reasonable prices and maintain the price/discount relationship with the basis of award customer(s) adequate?; (4) If the current policy is not adequate, what are the recommendations to improve the policy/guidance; and (5) If fair and reasonable price determination at the MAS contract level is not beneficial and the fair and reasonable price determination is to be determined only

at the task/delivery order level, then what is the GSA role?

To that end, the Panel would like to hear from the many stakeholders of the MAS program. The MAS program stakeholders include, but not limited to, ordering agency contracting officers, GSA contracting officers, schedule contract holders, Congress, program managers, General Accountability Office, and federal agency Inspector General Offices. The panel is particularly interested in stakeholder views as to how the issues discussed above may relate differently to the purchase of goods, services, or goods and services that are configured to propose an integrated solution to an agency's needs. September 19, 2008, is the last date that the Panel will entertain oral comments. Written comments may be submitted at any time in accordance with the guidance below.

#### *I. Acquisition of Services and Solutions Discussion and Recommendations*

### **National Institute for Occupational Safety and Health; Determination Concerning a Petition to Add a Class of Employees to the Special Exposure Cohort**

**AGENCY:** National Institute for Occupational Safety and Health (NIOSH), Department of Health and Human Services (HHS).

**ACTION:** Notice.

**SUMMARY:** The Department of Health and Human Services (HHS) gives notice of a determination concerning a petition to add a class of employees at the Sandia National Laboratory—Livermore, Livermore, California, to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384q. On July 29, 2008, the Secretary of HHS determined that the following employees do not meet the statutory criteria for addition to the SEC as authorized under EEOICPA:

Department of Energy employees or its contractor or subcontractor employees who worked as x-ray technologists and materials scientists at Sandia National Laboratory—Livermore in the X-ray Diffraction and Fluorescence Laboratory, Building 913—Room 113 and Building 913—Room 128 from December 1, 1967 through December 31, 1990.
