SUPPLEMENTARY INFORMATION:

Title: Annual Report of Cable Television Systems.
Form Number: FCC Form 325.

Type of Review: Revision of a currently approved collection.

Respondents: Business and other for-profit.

Number of Respondents and Responses: 1,200 respondents; 1,200 responses.

Estimated Time per Response: 2.166 hours.

Frequency of Response: Annual reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in sections 4(i), 601 and 602 of the Commissions Act of 1934, as amended.

Total Annual Burden: 2,599 hours.

Total Annual Costs: None.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission made revisions/refinements to FCC Form 325 to accommodate systems using technologies other than coaxial cable (Section II.4). Previously, the number of these filers was very small. Now the portion of the sample is becoming significant. These revisions/refinements to Form 325 will allow the form to be filed electronically by these filers, avoiding a significant cost. Refinements are also made to the form to eliminate instances where potential subscribers are double counted (Section II.2). This occurs where a competing system enters the market and reports as such. These refinements impose no significant new requirement and will reduce aggregate filing costs by simplifying filing for overbuilders and permitting electronic filing for the increasing number of competing service providers.

The FCC uses Form 325 "Annual Report of Cable Television" to solicit basic operational information from a sample of cable systems nationwide, including: the operator's name and address; system-wide capacity and frequency information; channel usage; and number of subscribers. Operators of every operational cable television system are required to complete the form to verify, correct and/or furnish the Commission with the most current information on their respective cable systems.

Consumer and Governmental Affairs Bureau Seeks Comment on Liberty Public School District Petition for Waiver of 47 CFR 64.1601(b) Regarding the Transmission of Calling Party Number

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Commission seeks comment on a petition filed by the Liberty Public School District (LPS) for a limited waiver of the Commission's caller identification rules which prohibit terminating carriers from passing calling party number (CPN) to the called party where a privacy indicator has been triggered. Synopsis

LPS is a public school district serving Liberty, Missouri, a city of approximately 30,000 that is part of Kansas City, Missouri, and parts of unincorporated Clay County, Missouri. LPS employs a staff of 1300 that provides education and services for 9300 students, with facilities and operations spanning a land area of approximately 30 square miles. According to LPS, the school district provides some of its own security and telecommunications services. Over the course of a year, LPS reports receiving between 6 and 10 threatening or harassing phone calls that are considered serious in nature. LPS states that the telecommunications carriers serving LPS are bound by the CPN privacy rules, and parties placing threatening or harassing calls often use the CPN privacy indicator to prevent authorities from identifying them or their location. As a result, LPS security personnel must request a trace of threatening or harassing calls to attempt to identify and locate the caller, a process that can take up to a week. LPS emphasizes that security personnel need to be able to identify and locate callers in a timelier manner to have a chance of apprehending them or preventing them from acting on their threats. According to LPS, its telecommunications assets include a Central Office Switch facility with a call information data log capable of recording all originating and terminating numbers. Currently, telecommunications carriers will not transmit restricted CPNs to LPS, and security and other personnel are therefore prevented from identifying and locating harassing or threatening callers in a timely manner.

LPS states that it will limit access to restricted CPN information by: (1) Operating the switch in a secure facility; (2) allowing telecommunications and security personnel to access restricted CPN data only when investigating threatening or harassing calls and documenting the access as part of the

investigative report; (3) allowing transmission of restricted CPN information from LPS to other law enforcement agencies only through secure communications; and (4) destroying CPN data after a reasonable retention period. LPS argues that the waiver would serve the public interest because it would allow LPS to better protect its staff and students by providing rapid responses to threatening or harassing calls. LPS further argues that its situation presents special circumstances that warrant a limited waiver of the rules. First, LPS provides both the security service and end office telecommunications to all locations within its geographical boundaries. Also, the waiver would be applicable only to a narrow and well-defined public institution making it predictable, workable and not subject to discriminatory application.
