SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0882. Title: Section 95.833, Construction Requirements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other forprofit.

Number of Respondents: 10 respondents; 10 responses.

Estimated Time per Response: 1 hour. Frequency of Response: Other: every 10 year reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in sections 4 and 303; 47 U.S.C. 154 and 303 of the Communications Act of 1934, as amended.

Total Annual Burden: 10 hours. Annual Cost Burden: N/A. Privacy Act Impact Assessment: N/A. Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: This collection will be submitted as an extension (no change in reporting requirements) after this 60day comment period to Office of Management and Budget (OMB) in order to obtain the full three-year clearance.

The Commission has adjusted the number of respondents and responses due to a significant decrease in the number of respondents for this information collection. Therefore, we are reporting a -1,458 reduction in the number of respondents/responses. Thereby, the total annual burden hours has reduced from 1,468 hours to 10 hours.

Each 218–219 MHz Service licensee must make a showing of "substantial service" within ten years of the license grant. A "substantial service" assessment will be made at renewal pursuant to the provisions and procedures contained in section 1.949 of the Commission's rules. Each 218–219 MHz Service licensee must file a report to be submitted to inform the Commission of the service status of its

system. The report must be labeled as an exhibit to the renewal application. At minimum, the report must include: (1) A description of its current service in terms of geographic coverage and population served; (2) an explanation of its record of expansion, including a timetable of new construction to meet changes in demand for service; (3) a description of its investments in its 218-219 MHz Service systems; (4) a list, including addresses, of all component CTSs constructed; and (5) copies of all FCC orders finding the licensee to have violated the Communications Act or any FCC rule or policy; and a list of any pending proceedings that relate to any matter described in this paragraph.

Failure to demonstrate that substantial service is being provided in the service area will result in forfeiture of the license, and will result in the licensee's ineligibility to apply for 218–219 MHz Service licenses for three years from the date the Commission takes final action affirming that the 218–219 MHz Service licensee has been canceled pursuant to section 95.813 of the Commission's rules.

The information is used by Commission staff to assess compliance with 218–219 MHz Service construction requirements, and to provide adequate spectrum for the service. This will facilitate spectrum efficiency and competition by the 218–219 MHz Service licensees in the wireless marketplace. Without this information, the Commission would not be able to carry out its statutory responsibilities.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0896. Title: Broadcast Auction Form Exhibits.

Form Number: Not applicable. Type of Review: Revision of a currently approved collection.

Respondents: Business or other for profit entities; Not-for-profit institutions; State, local or tribal government.

Number of Respondents and Responses: 3,000 respondents; 7,605 responses.

Estimated Hours per Response: 0.5 to 2 hours.

Frequency of Response: On occasion reporting requirement.

Annual Burden: 8,628 hours.

Annual Cost Burden: \$10,163,100. Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 154(i) and 309 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality. *Privacy Impact Assessment(s)*: No impact(s).

Needs and Uses: On December 18, 2007, the Commission adopted a Report and Order and Third Further Notice of Proposed Rulemaking ("the Diversity Order") in MB Docket Nos. 07–294; 06–121; 02–277; 04–228, MM Docket Nos. 01–235; 01–317; 00–244; FCC 07–217, which expands opportunities for participation in the broadcasting industry by new entrants and small businesses, including minority and women-owned businesses.

Currently, the media interests held by an individual or company with an equity and/or debt interest in an auction applicant are attributed to that applicant, for purposes of determining its eligibility for the new entrant bidding credit, if the equity and debt interests exceed 33 percent of the total asset value of the applicant. In order to make it easier for small businesses and new entrants to acquire broadcast licenses, and acquire the capital to compete in the marketplace with better financed companies, in the Diversity Order the Commission relaxed the rule standard, so to allow for higher investment opportunities in entities meeting the definition of "eligible entities." An "eligible entity" is defined as an entity that would qualify as a small business consistent with the Small Business Administration ("SBA") standards for its industry grouping, based on revenue.

Pursuant to the Diversity Order, the Commission will now allow the holder of an equity or debt interest in the applicant to exceed the above-noted 33 percent threshold without triggering attribution provided: (1) the combined equity or debt in the "eligible entity" is less than 50 percent, or (2) the total debt in the "eligible entity" does not exceed 80 percent and the interest holder does not hold any option to acquire an additional interest in the "eligible entity."

Consistent with actions taken by the Commission in the Diversity Order, a new question has been added to the new entrant bidding credit section of the broadcast auction application form. It simply requires applicants to make explicit any claim that they are "eligible entities," as a basis for claiming a bidding credit. The question states: "Does the applicant claim to be an 'eligible entity' as defined in 47 CFR 73.5008(c), for purposes of claiming eligibility for the new entrant bidding credit?" Additional information showing proof of compliance is not required at the pre-auction application stage. The Commission also foresees a new universe of respondents to the

collection—those broadcast auction applicants claiming eligibility for the new entrant bidding credit based on their status as an "eligible entity."

The Commission auctions mutually exclusive applications for full power commercial AM and FM radio, television services, Instructional Television Fixed Services (ITFS), and all secondary commercial broadcast services (e.g., Low Power TV (LPTV), FM translators and television translators). The Commission requires the use of the FCC Form 175 (OMB Control Number 3060-0600) to participate in all broadcast auctions. Broadcast applicants are also required to submit certain exhibits which are covered in this information collection as discussed below.

To facilitate the identification of groups of mutually exclusive applicants for non-table services which include the AM radio, LPTV, and TV/FM translator services, the Commission requires applicants to submit the engineering portions of the pertinent long-form application (FCC Form 301 (OMB Control Number 3060–0027), FCC Form 346 (OMB Control Number 3060-0016), or FCC Form 349 (OMB Control Number 3060-0405)) necessary to determine mutual exclusivity. In instances where analog television licensees file major modification applications, the Commission requires that such applicants also file the engineering data. These applicants are required to file the electronic versions of FCC Forms 301. 346 or 349.
