SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Automobile Concepts, Inc. ("AMC"), of North Miami, Florida (Registered Importer 01-278) has petitioned NHTSA to decide whether nonconforming 2005–2006 Mercedes Benz SLK class (171 chassis) passenger cars manufactured between August 31, 2004 and August 31, 2006 are eligible for importation into the United States. The vehicles which AMC believes are substantially similar are 2005–2006 Mercedes Benz SLK class (171 chassis) passenger cars manufactured between August 31, 2004 and August 31, 2006 that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S. certified 2005–2006 Mercedes Benz SLK class (171 chassis) passenger cars manufactured between August 31, 2004 and August 31, 2006 to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

AMC submitted information with its petition intended to demonstrate that non-U.S. certified 2005–2006 Mercedes Benz SLK class (171 chassis) passenger cars manufactured between August 31,
