BILLING CODE 3410-15-P

DEPARTMENT OF AGRICULTURE

Rural Utilities Service

Brazos Electric Power Cooperative, Inc.; Notice of Finding of No Significant Impact

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: The Rural Utilities Service (RUS), an agency delivering the United States Department of Agriculture (USDA) Rural Development Utilities Programs, hereinafter referred to as Rural Development or the agency, has made a finding of no significant impact (FONSI) in connection with the addition and operation of a second 600 megawatt combined-cycle combustion turbine generation facility proposed by Brazos Electric Power Cooperative (Brazos), of Waco, Texas.

ADDRESSES: The FONSI is available for public review at USDA Rural Development, 1400 Independence Avenue, SW., Washington, DC 20250-1571; and at Brazos Electric, 2404 LaSalle Avenue, Waco, Texas 76702-2585. To obtain copies of the FONSI or for further information, contact: Dennis E. Rankin, Environmental Protection Specialist, USDA Rural Development, Utilities Programs, 1400 Independence Avenue, SW., Stop 1571, Washington, DC 20250-1571, Telephone: (202) 720-1953 or e-mail: dennis.rankin@wdc.usda.gov; or David McDaniel, Brazos Electric, 2404 LaSalle Avenue, Waco, Texas 76702-2585, Telephone: (254) 750-6324 or e-mail: dmdaniel@brazoselectric.com.

SUPPLEMENTARY INFORMATION: Brazos is proposing to construct a second 600 MW gas-fired combined-cycle electric generation station adjacent to Brazos' existing generation station located at Henderson Ranch Road near the Joplin Community in Jack County, Texas. The project will consist of two combustion turbines and heat recovery steam

generators and one steam turbine with a water-cooled steam surface condenser.

Any final action by RUS related to the proposed project will be subject to, and contingent upon, compliance with all relevant Federal environmental laws and regulations and completion of environmental review procedures as prescribed by 7 CFR part 1794, Environmental Policies and Procedures.

Dated: August 27, 2008.

James R. Newby,

Assistant Administrator, Electric Programs, Rural Utilities Programs.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

Docket 47-2008

Foreign-Trade Zone 189 Kent/Ottawa/Muskegon Counties, Michigan, Application for Subzone, Wolverine World Wide, Inc. (Footwear and Apparel Distribution)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Kent-Ottawa-Muskegon Foreign Trade Zone Authority, grantee of FTZ 189, requesting special-purpose subzone status for the footwear and apparel distribution facilities of Wolverine World Wide, Inc. (Wolverine), located in Rockford, Cedar Springs and Howard City, Michigan. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on August 25, 2008.

The proposed subzone would include Wolverine's facilities at 3 sites located within the Grand Rapids, Michigan port of entry area: *Site 1* (265 acres) - 9341 Courtland Drive, in Rockford; *Site 2* (19 acres) - 660 West Street S NE, in Cedar Springs; and, *Site 3* (26 acres) - 214 East Washburn Street, in Howard City. Site 1 is owned by Wolverine while sites 2 and 3 are leased. The facilities are used for warehousing and distribution of both foreign-origin and domestic footwear, apparel and gear for both the U.S. market and export. The application states that all textile and apparel products classified under Textile Import Quota categories would be admitted to the proposed subzone under domestic (duty-paid) status (19 CFR Sec. 146.41). FTZ procedures would be used to help support Wolverine's Michigan-based import and distribution activity.

FTZ procedures would exempt Wolverine from Customs duty payments on foreign products that are re-exported. On domestic sales, duty payments would be deferred until the foreign merchandise is shipped from the facilities and entered for consumption. The company would also realize significant logistical benefits related to the use of direct delivery and weekly customs entry procedures. The application indicates that the savings from the use of FTZ procedures would help improve the company's international competitiveness and help facilitate the company's plans to grow their export market.

In accordance with the Board's regulations, Christopher Kemp of the FTZ staff is designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is November 3, 2008. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to November 17, 2008).

A copy of the application and accompanying exhibits will be available at each of the following addresses: U.S. Department of Commerce Export Assistance Center, 401 West Fulton Street, Suite 349C, Grand Rapids, MI 49504; and, Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Ave, NW, Washington, D.C. 20230. For further information contact Christopher Kemp at christopher_kemp@ita.doc.gov or (202) 482-0862.

Dated: August 25, 2008.

Andrew McGilvray,

Executive Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

(A-351-828)

Certain Hot-Rolled, Flat-Rolled Carbon Quality Steel Products from Brazil: Preliminary Notice of Intent to Rescind Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from Nucor Corporation, a domestic

interested party (“Nucor”), the Department of Commerce (“the Department”) initiated an administrative review of the antidumping duty order on certain hot-rolled, flat-rolled carbon quality steel products (“hot rolled steel”) from Brazil. This review covers two manufacturer/exporters of the subject merchandise, Companhia Siderurgica Nacional (“CSN”) and Companhia Siderurgica de Tubarao (“CST”), and covers the period March 1, 2007, through February 29, 2008. The Department intends to rescind this review after determining that the parties subject to this review did not have entries during the period of review (“POR”) upon which to assess antidumping duties.

EFFECTIVE DATE: September 3, 2008.

FOR FURTHER INFORMATION CONTACT: John Drury or Angelica Mendoza, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-0195 or (202) 482-3019, respectively.

SUPPLEMENTARY INFORMATION: The Department published an antidumping duty order on hot rolled steel from Brazil on March 12, 2002. See *Antidumping Duty Order: Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products from Brazil*, 67 FR 11093 (March 12, 2002). The Department published a notice of “Opportunity to Request an Administrative Review” of the antidumping duty order for the period March 1, 2007, through February 29, 2008, on March 3, 2008. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review*, 73 FR 11389 (March 3, 2008). Nucor requested that the Department conduct an administrative review of sales of merchandise covered by the order by CSN and CST on March 31, 2008. In response to the request from Nucor, the Department published the initiation of the antidumping duty administrative review on hot rolled steel from Brazil on April 25, 2008, pursuant to section 751(a) of the Tariff Act of 1930, as amended (“the Act”). See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 73 FR 22337 (April 25, 2008).

On April 29, 2008, CSN submitted a letter to the Department stating that it had no shipments of hot rolled steel to the United States during the POR. On May 12, 2008, CST submitted a letter to the Department stating that it had no shipments of hot rolled steel to the United States during the POR. The Department issued a “No Shipment Inquiry” to U.S. Customs and Border Protection (“CBP”) on June 3, 2008, to confirm that there were no shipments or entries of hot rolled steel from Brazil exported by CSN and CST during the POR of the instant administrative review. CBP only responds to the Department’s inquiry when CBP finds that there have been shipments. CBP did not respond to the Department’s inquiry, and no party submitted comments. Based on this information, on June 24, 2008, the Department determined that neither CSN nor CST had any shipments or entries of hot rolled steel from Brazil during the review period. See Memorandum to the File, through Angelica Mendoza, Program Manager, from John Drury, Senior Case Analyst: Companhia Siderurgica Nacional (CSN) and Companhia Siderurgica de Tubarao (CST) – No Shipments of Hot-Rolled, Flat-Rolled Carbon Quality Steel Products from Brazil Pursuant to U.S. Customs and Border Protection Inquiry, dated June 24, 2008.

Scope of the Order

For purposes of this order, the products covered are certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers) regardless of thickness, and in straight lengths, of a thickness less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-

free (“IF”)) steels, high strength low alloy (“HSLA”) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this order, regardless of HTSUS definitions, are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated: 1.80 percent of manganese, or 1.50 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.012 percent of boron, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.41 percent of titanium, or 0.15 percent of vanadium, or 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside and/or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including *e.g.*, ASTM specifications A543, A387, A514, A517, and A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.
- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 1.50 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- Hot-rolled steel coil which meets the following chemical, physical and mechanical specifications:

C	Mn	P	S	Si	Cr	Cu	Ni
0.10- 0.14%	0.90 %	0.025 % Max	0.005 %	0.30 -	0.3 0 -	0.2 0 -	0.20 %

Width = 39.37 inches; Thickness = 0.181 inches maximum; Yield Strength = 70,000 psi minimum for thickness 0.148 inches and 65,000 psi minimum for “thicknesses” > 0.148 inches; account for 64 FR 38650; Tensile Strength = 80,000 psi minimum.

• Hot-rolled dual phase steel, phase-hardened, primarily with a ferritic-martensitic microstructure, contains 0.9 percent up to and including 1.5 percent silicon by weight, further characterized by either (i) tensile strength between 540 N/mm² and 640 N/mm² and an elongation percentage ≥ 26 percent for thicknesses of 2 mm and above, or (ii) a tensile strength between 590 N/mm² and 690 N/mm² and an elongation percentage ≥ 25 percent for thicknesses of 2 mm and above.

• Hot-rolled bearing quality steel, SAE grade 1050, in coils, with an inclusion rating of 1.0 maximum per ASTM E 45, Method A, with excellent surface quality and chemistry restrictions as follows: 0.012 percent maximum phosphorus, 0.015 percent maximum

sulfur, and 0.20 percent maximum residuals including 0.15 percent maximum chromium.

• Grade ASTM A570–50 hot-rolled steel sheet in coils or cut lengths, width of 74 inches (nominal, within ASTM tolerances), thickness of 11 gauge (0.119 inch nominal), mill edge and skin passed, with a minimum copper content of 0.20%.

The merchandise subject to this order is currently classified in the Harmonized Tariff Schedule of the United States (“HTSUS”) at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7210.70.30.00,

7210.90.90.00, 7211.14.00.30, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, 7211.19.75.90, 7212.40.10.00, 7212.40.50.00, 7212.50.00.00. Certain hot-rolled flat-rolled carbon-quality steel covered by this order, including: vacuum degassed, fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Although the HTSUS subheadings are provided for convenience and Customs purposes, the written description of the merchandise under this order is dispositive.

Intent To Rescind Administrative Review

Pursuant to 19 CFR § 351.213(d)(3), the Department may rescind an administrative review if it concludes that during the POR there were no entries, exports, or sales of the subject merchandise. The Department's practice, supported by substantial precedent, requires that there be entries during the POR upon which to assess antidumping duties. *See, e.g., Stainless Steel Bar from Italy: Preliminary Results and Partial Rescission of Administrative Review*, 70 FR 17656 (April 7, 2005) affirmed in *Stainless Steel Bar from Italy: Final Results of Antidumping Duty Administrative Review and Rescission of Review*, 70 FR 46480 (August 10, 2005).

Both CSN and CST certified that they had no entries of subject merchandise during the 2007–2008 POR, which the Department confirmed on the basis of official data from CBP. Therefore, we have preliminarily determined to rescind the 2007–2008 administrative review.

Public Comment

Interested parties may submit case briefs not later than 20 days after the date of publication of this notice. *See* 19 CFR § 351.309(c). Rebuttal briefs, which must be limited to issues raised in such briefs, must be filed not later than 7 days from the case brief after the date of publication of this notice. *See* 19 CFR § 351.309(d). Parties who submit arguments are requested to submit with the argument (1) a statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities. Further, parties submitting written comments should provide the Department with an additional copy of the public version of any such comments on diskette. An interested party may request a hearing within 20 days of publication of this notice. Any hearing, if requested, will be held 34 days after the date of publication of this notice, or the first working day thereafter. *See* 19 CFR § 351.310. We will issue our final decision concerning the conduct of the review no later than 120 days from the date of publication of this notice.

This notice is published in accordance with section 777(i)(1) of the Act and 19 CFR § 351.213(d)(4).

Dated: August 25, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Proposed Information Collection; Comment Request; Technology Innovation Program Application Requirements

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before November 3, 2008.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Barbara Lambis at 301–975–4447 or by e-mail at barbara.lambis@nist.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Technology Innovation Program (TIP) is a competitive cost sharing program designed to assist U.S. businesses and institutions of higher education or other organizations, such as national laboratories, governmental laboratories (not including NIST), and nonprofit research institutes, to support, promote, and accelerate innovation in the United States through high-risk, high-reward research in areas of critical national need sponsored by the Department of Commerce's National Institute of Standards and Technology. High-risk, high-reward research is research that:

a. Has the potential for yielding transformational results with far-ranging or wide-ranging implications;

b. Addresses areas of critical national need that support, promote, and accelerate innovation in the United States and is within NIST's areas of technical competence; and is too novel or spans too diverse a range of

disciplines to fare well in the traditional peer-review process.

This request is for the information collection requirements associated with submission of proposals for TIP funding. The intent of the collection is to meet statutory requirements for TIP, as well as compliance with 15 CFR part 14.

II. Method of Collection

Paper or electronically via www.grants.gov.

III. Data

OMB Control Number: 0693–0050.

Form Number: NIST–1022.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations; not-for-profit institutions; Federal government.

Estimated Number of Respondents: 300.

Estimated Time Per Response: 37 hours.

Estimated Total Annual Burden Hours: 11,100.

Estimated Total Annual Cost to Public: \$37,500.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 28, 2008.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
