Synopsis of the Order Section of the Notice of Proposed Rulemaking and Order Introduction

The Digital Television Transition and Public Safety Act of 2005 (DTV Act) set a firm deadline for the end of the digital television (DTV) transition of February 17, 2009, at which time the spectrum in the 698–806 MHz Band (700 MHz Band), currently occupied by television broadcasters in TV Channels 52–69, will be fully available for public safety as well as commercial wireless services. As the Commission has recognized, it is incumbent on the Commission to take all steps necessary to make this spectrum effectively available both to public safety and commercial licensees at the end of the DTV transition.

1. In the Order below, the Commission imposes a freeze, effective August 21, 2008, on the filing of new license applications that seek to operate on any 700 MHz Band frequencies (698–806 MHz) after the end of the DTV transition, February 17, 2009. In addition, the Commission imposes a freeze, effective August 21, 2008, on granting any request for equipment authorization of low power auxiliary station devices that would operate in any of the 700 MHz Band frequencies. The Commission also holds in abeyance, beginning August 21, 2008 until the conclusion of this proceeding, any pending license applications and equipment authorization requests that involve operation of low power auxiliary devices on frequencies in the 700 MHz Band after the end of the DTV transition.

Order

2. In light of the Commission's tentative conclusion not to permit the operation of low power auxiliary stations on 700 MHz Band frequencies (698–806 MHz) following the end of the DTV transition, the Commission also finds that continuing to accept new license applications for low power auxiliary station licenses that involve the operation of such stations on this spectrum after February 17, 2009 would impair the objectives that the Commission is proposing in this proceeding. In addition, the Commission imposes a freeze on granting any request for equipment authorizations of low power auxiliary station devices that would operate in any of the 700 MHz Band frequencies. Accordingly, the Commission hereby suspends acceptance of license applications and equipment authorizations for low power auxiliary stations that seek to operate on 700 MHz Band frequencies after February 17,

2009. This suspension is effective immediately and until further notice and applies to applications received on or after August 21, 2008. Any applications received on or after this date will be returned as unacceptable for filing. The Commission takes this action to permit orderly and effective resolution of issues in this proceeding.

3. In addition, the Commission will not process such pending license applications and equipment authorization requests if they would involve operation in the 700 MHz Band after the end of the DTV transition. Pending applications and equipment authorization requests will be held in abeyance until the conclusion of this proceeding, whereupon the Commission will determine, in accordance with such new rules as are adopted, whether to process or return any such pending applications and equipment authorization requests. The Commission notes that entities with pending applications and equipment authorization requests to operate in the spectrum that would include the 700 MHz Band are free to modify their applications and requests to exclude operation in this band, and these applications and requests could then proceed with being processed.

Procedural Matters

1. *Ex Parte* Requirements

This proceeding has been designated as a “permit-but-disclose” proceeding in accordance with the Commission's *ex parte* rules.¹ Parties making oral *ex parte* presentations in this proceeding are reminded that memoranda summarizing the presentation must contain the presentation's substance and not merely list the subjects discussed.² More than a one- or two-sentence description of the views and arguments presented is generally required.³

Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on the NPRM provided on page one of the NPRM. The Commission will send a copy of the NPRM, including the IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA).⁶ In addition, the NPRM and IRFA (or summaries thereof) will be published in the **Federal Register**.⁷
