**SUPPLEMENTARY INFORMATION:** In accordance with the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, and the General Services Administration regulations covering management of Federal advisory committees, 41 CFR part 102-3, this notice announces a meeting of the National Task Force to Develop Model Contingency Plans to Deal with Lengthy Airline On-Board Ground Delays. The meeting will be held on September 22, 2008, between 8:30 a.m. and 5 p.m. at the U.S. Department of Transportation (U.S. DOT), 1200 New Jersey Avenue, SE., Washington, DC, in the Oklahoma City Conference Room on the lobby level of the West Building.

DOT's Office of Inspector General recommended, in its audit report, entitled "Actions Needed to Minimize Long, On-Board Flight Delays," issued on September 25, 2007, that the Secretary of Transportation establish a national task force of airlines, airports, and the Federal Aviation Administration (FAA) to coordinate and develop contingency plans to deal with lengthy delays, such as working with carriers and airports to share facilities and make gates available in an emergency. To effectuate this recommendation, on January 3, 2008, the Department, consistent with the requirements of the FACA, established the National Task Force to Develop Model Contingency Plans to Deal with Lengthy Airline On-Board Ground Delays. The first meeting of the Task Force took place on February 26, 2008. The September 22, 2008, meeting will be the sixth meeting of the task force.

The agenda topics for the September 22, 2008, meeting will include a continuation of the final review and discussion of the draft model contingency planning document for dealing with lengthy tarmac delays that was developed by the Contingency Plan Working Group, the working group that is tasked with reviewing existing airline and airport contingency plans for extended tarmac delays for best practices and developing a model contingency plan.
