(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: August 26, 2008.

Michael K. Buckley,
Deputy Assistant Administrator for Mitigation, Department of Homeland Security, Federal Emergency Management Agency.

[FR Doc. E8-20825 Filed 9-9-08; 8:45 am]

BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection

at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Assistant Administrator of the Mitigation Directorate has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An

environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

■ Accordingly, 44 CFR part 67 is amended as follows:

PART 67—[AMENDED]

■ 1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.11 [Amended]

■ 2. The tables published under the authority of § 67.11 are amended as follows:

State	City/town/county	Source of flooding	Location	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground Modified
City of Jackson, Missouri FEMA Docket No.: B-7759				
Missouri	City of Jackson	Goose Creek	Confluence with Hubble Creek Approximately 2.44 miles upstream of East Main Street.	+401 +476
Missouri	City of Jackson	Hubble Creek	Confluence with Goose Creek Missouri State Route Y	+400 +474
Missouri	City of Jackson	Neal Creek	Confluence with Goose Creek Approximately 0.60 mile upstream of Woodland Drive.	+428 +472
Missouri	City of Jackson	Ramsey Branch	Approximately 1.51 miles upstream of Hoppers Road. Approximately 1.62 miles upstream of Hoppers Road.	+474 +477
Missouri	City of Jackson	Rocky Branch	0.21 miles upstream of confluence with Hubble Creek at South Farmington Road. Approximately 130 feet upstream of North Farmington Road.	+406 +470
Missouri	City of Jackson	Rocky Branch West Fork	Confluence with Rocky Branch Approximately 260 feet upstream of Old Toll Road.	+410 +446
Missouri	City of Jackson	West Fork of Williams Creek.	Confluence with Williams Creek Approximately 230 feet upstream of Old Cape Road.	+419 +437
Missouri	City of Jackson	Williams Creek	Approximately 0.39 miles downstream of Highway 61. Approximately 0.19 miles upstream of Bainbridge Road.	+414 +441

[Docket No. 071212833-8179-02]

RIN 0648-XK04

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Commercial Quota Harvested for Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure of commercial fishery.

SUMMARY: NMFS announces that the Atlantic bluefish commercial quota available to Massachusetts has been harvested. Vessels issued a commercial Federal fisheries permit for the Atlantic bluefish fishery may not land bluefish in Massachusetts for the remainder of calendar year 2008, unless additional

quota becomes available through a transfer. Regulations governing the Atlantic bluefish fishery require publication of this notification to advise Massachusetts that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing bluefish in Massachusetts.

DATES: Effective 0001 hours, September 10, 2008, through 2400 hours, December 31, 2008.

FOR FURTHER INFORMATION CONTACT: Emily Bryant, Fishery Management Specialist, (978) 281-9244.

SUPPLEMENTARY INFORMATION: Regulations governing the Atlantic bluefish fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from Florida through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.160.

The initial Federal coastwide commercial quota for Atlantic bluefish for the 2008 calendar year was set equal to 4,787,000 lb (2,171 mt) (73 FR 9958, February 25, 2008). The initial commercial quota was adjusted by transferring 2,918,693 lb (1,324 mt) from the initial recreational allocation, resulting in a total commercial quota of 7,705,244 lb (3,495 mt). The percent allocated to vessels landing bluefish in Massachusetts is 6.7167 percent, resulting in an initial commercial quota of 517,538 lb (235 mt). The 2008

allocation was reduced to 516,619 lb (234 mt) (73 FR 9958, February 25, 2008) due to 2008 research set-aside quota allocation.

The regulations at § 648.161(b) require the Administrator, Northeast Region, NMFS (Regional Administrator), to monitor state commercial quotas and to determine when a state's commercial quota has been harvested. NMFS then publishes a notification in the **Federal Register** to advise the state and to notify Federal vessel and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing bluefish in that state. The Regional Administrator has determined, based upon dealer reports and other available information, that Massachusetts has harvested its quota for calendar year 2008.

The regulations at § 648.4(b) provide that Federal permit holders agree, as a condition of the permit, not to land bluefish in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hours, September 10, 2008, further landings of bluefish in Massachusetts by vessels holding Atlantic bluefish commercial Federal fisheries permits are prohibited for the remainder of the 2008 calendar year, unless additional quota becomes available through a transfer and is announced in the **Federal Register**. Effective 0001 hours, September 10, 2008, federally permitted dealers are also notified that they may not purchase bluefish from federally permitted
