DEPARTMENT OF EDUCATION**Office of Special Education and Rehabilitative Services; Overview Information; National Institute on Disability and Rehabilitation Research (NIDRR)—Disability and Rehabilitation Research Projects and Centers Program—Advanced Rehabilitation Research Training (ARRT) Projects; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2009***Catalog of Federal Domestic Assistance (CFDA) Number: 84.133P-1.***DATES:** *Applications Available:* September 11, 2008.*Deadline for Transmittal of Applications:* November 10, 2008.**Full Text of Announcement****I. Funding Opportunity Description**

Purpose of Program: The purpose of this program is to provide research training and experience at an advanced level to individuals with doctorates, or similar advanced degrees, who have clinical or other relevant experience. ARRT projects train rehabilitation researchers, including researchers with disabilities, with particular attention to research areas that support the implementation and objectives of the Rehabilitation Act of 1973, as amended (Act), and that improve the effectiveness of services authorized under the Act.

Priority: In accordance with 34 CFR 75.105(b)(2)(ii), this priority is from the regulations for this program (34 CFR 350.12 and 350.64 through 350.65).

Absolute Priority: For FY 2009, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Advanced Rehabilitation Research Training Projects

ARRT projects must—(1) recruit and select candidates for advanced research training; (2) provide a training program that includes didactic and classroom instruction, is multidisciplinary, emphasizes scientific research methodology, and may involve collaboration among institutions; (3) provide research experience, laboratory experience, or its equivalent, in a community-based research setting, and a practicum experience that involves each trainee in clinical research and in practical activities with organizations

representing individuals with disabilities; (4) provide academic mentorship or guidance, and opportunities for scientific collaboration with qualified researchers at the host university and other appropriate institutions; and (5) provide opportunities for participation in the development of professional presentations and publications, and for attendance at professional conferences and meetings, as appropriate for the individual's field of study and level of experience.

It is expected that applicants will articulate goals, objectives, and expected outcomes for the research training activity. Applicants should describe expected public benefits of this training activity, especially benefits for individuals with disabilities, and propose projects that optimally are designed to demonstrate outcomes that are consistent with the proposed goals. Applicants are encouraged to include information describing how they will measure outcomes, including the indicators that will represent the end-result. Submission of this measurement information is voluntary, except where required by the selection criteria listed in the application package.

A grantee for an ARRT project must provide training to individuals for at least one academic year, unless a longer training period is necessary to ensure that each trainee is qualified to conduct independent research upon completion of the course of training.

Trainees under an ARRT project must devote at least 80 percent of their time to the activities of the training program during the training period.

Note: This program is in concert with President George W. Bush's New Freedom Initiative (NFI) and NIDRR's Final Long-Range Plan for FY 2005-2009 (Plan). The NFI can be accessed on the Internet at the following site: <http://www.whitehouse.gov/infocus/newfreedom>. The Plan is comprehensive and integrates many issues relating to disability and rehabilitation research topics. Through the implementation of the Plan, NIDRR seeks to—(1) Improve the quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) determine best strategies and programs to improve rehabilitation outcomes for underserved

populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings.

Program Authority: 29 U.S.C. 762(k).
