### **NUCLEAR REGULATORY COMMISSION**

#### **Draft Regulatory Guide: Issuance, Availability**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of Issuance and Availability of Draft Regulatory Guide, DG-3031.

#### **FOR FURTHER INFORMATION CONTACT:**

Breeda Reilly, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 492-3110 or e-mail to [Breeda.Reilly@nrc.gov](mailto:Breeda.Reilly@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

## I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) has issued for public comment a draft regulatory guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft regulatory guide (DG), titled, "Standard Format and Content for the Health and Safety Sections of License Renewal Applications for Uranium Processing and Fuel Fabrication," is temporarily identified by its task number, DG-3031, which should be mentioned in all related correspondence.

The proposed Revision 2 of Regulatory Guide 3.52 endorses the methods and procedures for evaluation and verification of the licensing of special nuclear material (SNM) of NUREG-1520, "Standard Review Plan for the Review of a License Application for a Fuel Cycle Facility" as a process that has been found acceptable to the NRC for meeting the regulatory requirements.

The regulations of the NRC in Title 10, Part 70, "Domestic Licensing of Special Nuclear Material" of the Code of Federal Regulations (10 CFR Part 70) establish procedures and criteria for the licensing of SNM. In 10 CFR 70.73, "Renewal of Licenses," the regulations specify that applications for renewal of licenses (including licenses for enriched uranium processing, fuel fabrication, uranium enrichment, enriched uranium hexafluoride conversion, plutonium processing, fabrication of mixed-oxide fuel, and scrap recovery of SNM) be filed in accordance with 10 CFR 2.109, "Effect of Timely Renewal Application"; 10 CFR 70.21, "Filing"; 10 CFR 70.22, "Contents of Applications"; 10 CFR 70.33, "Renewal of Licenses"; 10 CFR 70.38, "Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas"; and 10 CFR 70.65, "Additional Content of Applications."

While the regulations provide general information for filing license renewal applications, NUREG-1520 identifies the specific information to be submitted by an applicant and evaluated by the staff. NUREG-1520 both provides guidance on the information to be included in licensing applications and

establishes a format for presenting the information. Use of a standard format helps ensure uniformity and completeness in the preparation of licensing applications.

## II. Further Information

The NRC staff is soliciting comments on DG-3031. Comments may be accompanied by relevant information or supporting data, and should mention DG-3031 in the subject line. Comments would be most helpful if received by November 10, 2008. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

## OFFICE OF NATIONAL DRUG CONTROL POLICY

### Paperwork Reduction Act; 10-Day Notice

**AGENCY:** Office of National Drug Control Policy.

The National Youth Anti-Drug Media Campaign is in the process of renewing without change three data collection instruments. These data collection instruments—qualitative testing of creative advertising concepts (OMB 3201-0011), quantitative testing of near-final advertising before airing (OMB 3201-0006), and a tracking study to measure advertising effectiveness (OMB 3201-0010)—are critical to the continuity of the campaign and are key contributors to the downturn in teen drug abuse.

ONDCP was unable to meet the requirements for 60-day and 30-day notices for a regular renewal of existing data collection instruments. As such, emergency renewal is being submitted for a 6-month extension of the data collection instruments. During this extension period, the 60- and 30-day notices will be published in the **Federal Register**.

Address comments within 10 days to Mark Krawczyk, ONDCP, Room 737, Washington, DC 20503, by e-mail to [MKrawczyk@ondcp.eop.gov](mailto:MKrawczyk@ondcp.eop.gov), or by telephone at (202) 395-6720.

Signed on September 5, 2008.
