

■ d. Redesignate paragraphs (d)(2) and (d)(3) as paragraphs (d)(3) and (d)(4), respectively, and add a new paragraph (d)(2); and

■ e. Add a new paragraph (i)(3).

The revisions and additions read as follows:

§ 220.8 Nutrition standards and menu planning approaches for breakfasts.

* * * * *

(d) *Exceptions and variations allowed in reimbursable breakfasts—(1) Exceptions for disability reasons.* Schools must make substitutions in breakfasts for students who are considered to have a disability under 7 CFR part 15b.3 and whose disability restricts their diet. Substitutions must be made on a case by case basis only when supported by a written statement of the need for substitutions that includes recommended alternate foods, unless otherwise exempted by FNS. Such statement must be signed by a licensed physician.

(2) *Exceptions for non-disability reasons.* Schools may make substitutions for students without disabilities who cannot consume the breakfast because of medical or other special dietary needs. Substitutions must be made on a case by case basis only when supported by a written statement of the need for substitutions that includes recommended alternate foods, unless otherwise exempted by FNS. Except with respect to substitutions for fluid milk, such statement must be signed by a recognized medical authority.

(i) *Milk substitutions for non-disability reasons.* Schools may make substitutions for fluid milk for non-disabled students who cannot consume fluid milk due to medical or special dietary needs. A school that selects this option may offer the nondairy beverage(s) of its choice, provided the beverage(s) meet the nutritional standards established in paragraph (i)(3) of this section. Expenses incurred in providing substitutions for fluid milk that exceed program reimbursements must be paid by the school food authority.

(ii) *Requisites for milk substitutions.* (A) A school food authority must inform the State agency if any of its schools choose to offer fluid milk substitutes other than for students with disabilities; and

(B) A medical authority or the student's parent or legal guardian must submit a written request for a fluid milk substitute, identifying the medical or other special dietary need that restricts the student's diet.

(iii) *Substitution approval.* The approval for fluid milk substitution must remain in effect until the medical authority or the student's parent or legal guardian revokes such request in writing, or until such time as the school changes its substitution policy for non-disabled students.

(i) * * *

(3) *Milk substitutes.* If a school chooses to offer one or more substitutes for fluid milk for non-disabled students with medical or special dietary needs, the nondairy beverage(s) must provide the nutrients listed in the following table. Milk substitutes must be fortified in accordance with fortification guidelines issued by the Food and Drug Administration. A school need only offer the nondairy beverage(s) that it has identified as allowable fluid milk substitutes according to this paragraph (i)(3).

FEDERAL RESERVE SYSTEM

12 CFR Part 229

[Regulation CC; Docket No. R-1326]

Availability of Funds and Collection of Checks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule; technical amendment.

SUMMARY: The Board of Governors (Board) is amending appendix A of Regulation CC to delete the reference to the Jacksonville branch office of the Federal Reserve Bank of Atlanta and to reassign the Federal Reserve routing symbols currently listed under that office to the head office of the Federal Reserve Bank of Atlanta. These amendments reflect the restructuring of

check-processing operations within the Federal Reserve System.

DATES: The final rule will become effective on November 15, 2008.

FOR FURTHER INFORMATION CONTACT: Jeffrey S. H. Yeganeh, Financial Services Manager (202-728-5801), or Joseph P. Baressi, Financial Services Project Leader (202-452-3959), Division of Reserve Bank Operations and Payment Systems; or Sophia H. Allison, Senior Counsel (202-452-3565), Legal Division. For users of Telecommunications Devices for the Deaf (TDD) only, contact 202-263-4869.

SUPPLEMENTARY INFORMATION: Regulation CC establishes the maximum period a depository bank may wait between receiving a deposit and making the deposited funds available for withdrawal.¹ A depository bank generally must provide faster availability for funds deposited by a "local check" than by a "nonlocal check." A check is considered local if it is payable by or at or through a bank located in the same Federal Reserve check-processing region as the depository bank.

Appendix A to Regulation CC contains a routing number guide that assists banks in identifying local and nonlocal banks and thereby determining the maximum permissible hold periods for most deposited checks. The appendix includes a list of each Federal Reserve check-processing office and the first four digits of the routing number, known as the Federal Reserve routing symbol, of each bank that is served by that office for check-processing purposes. Banks whose Federal Reserve routing symbols are grouped under the same office are in the same check-processing region and thus are local to one another.

On November 15, 2008, the Reserve Banks will transfer the check-processing operations of the Jacksonville branch office of the Federal Reserve Bank of Atlanta to the head office of the Federal Reserve Bank of Atlanta. As a result of this change, some checks that are drawn on and deposited at banks located in the Jacksonville and Atlanta check-processing regions and that currently are nonlocal checks will become local checks subject to faster availability schedules. To assist banks in identifying local and nonlocal checks and making funds availability decisions, the Board is amending the list of routing symbols in appendix A associated with the Federal Reserve Bank of Atlanta to

¹ For purposes of Regulation CC, the term "bank" refers to any depository institution, including commercial banks, savings institutions, and credit unions.

reflect the transfer of check-processing operations from the Jacksonville branch office to the head office of the Federal Reserve Bank of Atlanta. To coincide with the effective date of the underlying check-processing changes, the amendments to appendix A are effective November 15, 2008. The Board is providing notice of the amendments at this time to give affected banks ample time to make any needed processing changes. Early notice also will enable affected banks to amend their availability schedules and related disclosures if necessary and provide their customers with notice of these changes.²

Administrative Procedure Act

The Board has not followed the provisions of 5 U.S.C. 553(b) relating to notice and public participation in connection with the adoption of the final rule. The revisions to appendix A are technical in nature and are required by the statutory and regulatory definitions of “check-processing region.” Because there is no substantive change on which to seek public input, the Board has determined that the section 553(b) notice and comment procedures are unnecessary. In addition, the underlying consolidation of Federal Reserve Bank check-processing offices involves a matter relating to agency management, which is exempt from notice and comment procedures.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506; 5 CFR 1320 Appendix A.1), the Board has reviewed the final rule under authority delegated to the Board by the Office of Management and Budget. The technical amendment to appendix A of Regulation CC will delete the reference to the Jacksonville branch office of the Federal Reserve Bank of Atlanta and reassign the routing symbols listed under that office to the head office of the Federal Reserve Bank of Atlanta. The depository institutions that are located in the affected check-processing regions and that include the routing numbers in their disclosure statements would be required to notify customers of the resulting change in availability under § 229.18(e). However, all paperwork collection procedures associated with Regulation CC already are in place, and the Board accordingly anticipates that no additional burden

will be imposed as a result of this rulemaking.

Airworthiness Directives; Boeing Model 777–200 and –300 Series Airplanes Equipped With Rolls-Royce Model RB211–TRENT 800 Series Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: We are adopting a new airworthiness directive (AD) for certain Boeing Model 777–200 and –300 series airplanes. This AD requires revising the airplane flight manual to include in-flight procedures for pilots to follow in certain cold weather conditions and requires fuel circulation procedures on the ground when certain conditions exist. This AD results from a report of uncommanded reduction in thrust on both engines because of reduced fuel flows. We are issuing this AD to prevent ice from accumulating in the main tank fuel feed system, which, when released, could result in a restriction in the engine fuel system. Such a restriction could result in failure to achieve a commanded thrust, and consequent forced landing of the airplane.

DATES: This AD is effective September 29, 2008.

We must receive comments on this AD by November 12, 2008.
