How Should I Submit Confidential Business Information (CBI) to the Agency?

You should not submit information that you consider to be CBI through the electronic public docket in FDMS. If you wish to take advantage of the opportunity to electronically submit a conflict of law waiver request or an application for an equivalent alternative determination but a portion of your request or application contains CBI, then you should send by mail to the Aviation Enforcement Office the original document containing CBI and submit a second copy of the original document with the CBI redacted in FDMS. The date that you submit the document to FDMS will be considered the receipt date.

The original document that you mail to the Aviation Enforcement Office should clearly indicate which material you believe contains confidential information. You can do this by marking "confidential" on each page of the original document that you would like to keep confidential and highlighting or underlining the CBI. You will also need to explain why the information is confidential (as a trade secret, other confidential commercial information, or sensitive security information (SSI)). In your explanation, you should provide enough information to enable the Department to determine whether the information provided is protected by law and must be handled separately. Information not marked as CBI will be included in FDMS without prior notice. Also, if you do not provide an explanation of why the information is confidential you risk the Department including it in the public docket. The Department will also place in the public docket those portions of submissions that a carrier may have redacted but that the agency determines are not trade secrets, other confidential commercial information, or SSI. DOT's policy is that waiver requests or applications for equivalent alternative determinations will be made available for public viewing in DOT's electronic public docket (i.e., FDMS) as DOT receives them and without change, unless the request or application contains copyrighted material, CBI, or other

information whose disclosure is restricted by statute.

BILLING CODE 4910-9X-P

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in October 2008. Interest assumptions are also published on the PBGC's Web site (<http://www.pbgc.gov>).

DATES: Effective October 1, 2008.

FOR FURTHER INFORMATION CONTACT:

Catherine B. Klion, Manager, Regulatory and Policy Division, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine

lump-sum amounts to be paid by the PBGC (found in Appendix B to part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to part 4022).

This amendment (1) adds to Appendix B to part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during October 2008, (2) adds to Appendix B to part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during October 2008, and (3) adds to Appendix C to part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during October 2008.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 6.18 percent for the first 20 years following the valuation date and 5.25 percent thereafter. These interest assumptions represent a decrease (from those in effect for September 2008) of 0.06 percent for the first 20 years following the valuation date and 0.06 percent for all years thereafter.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 3.25 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. These interest assumptions represent a decrease (from those in effect for September 2008) of 0.25 percent in the immediate annuity rate and are otherwise unchanged. For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current market conditions as accurately as possible.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during October 2008, the PBGC finds that good cause exists for making the assumptions set forth in

this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).
