NOTIFICATION PROCEDURES:

Inquiries regarding the existence of records about an individual shall be addressed to the appropriate Water Science Center Director shown under

the System Managers list above. A written, signed request stating that the requestor seeks information concerning records pertaining to him or herself is required. (see 43 CFR 2.60.)

RECORD ACCESS PROCEDURES:

For copies of your records, write to the appropriate Water Science Center Director shown under the System Managers list above. The request must be in writing, signed by the requestor, and meet the content requirements of 43 CFR 2.63.

CONTESTING RECORDS PROCEDURES:

To request amendment of your records, write to the appropriate Water Science Center Director shown under the System Managers list above. The request must be in writing, signed by the requestor and meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Designated USGS personnel enter site-owner location information that is provided by individuals, well drillers, local, State environmental protections offices, water management districts or Federal cooperating agencies such as the U.S. Army Corps of Engineers, Environmental Protection Agency, and the Department of Commerce, National Oceanic and Atmospheric Administration's National Weather Service.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 4310-Y7-P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Final Environmental Impact Statement for the Proposed Riverton Dome Coal Bed Natural Gas and Conventional Gas Development, Wind River Indian Reservation, Fremont County, WY

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA), in cooperation with the Joint Business Council of the Eastern Shoshone and Northern Arapaho Tribes, Bureau of Land Management and U.S. Environmental Protection Agency (EPA), intends to file a Final Environmental Impact Statement (FEIS) with EPA for the proposed coal bed natural gas and conventional gas

development project, and that the FEIS is now available to the public.

DATES: The Record of Decision on the proposed action will be issued on or after October 21, 2008. Any comments on the FEIS must arrive by October 20, 2008.

ADDRESSES: You may mail or hand carry written comments to Ray Nation, Deputy Superintendent, Trust Services, Bureau of Indian Affairs, Wind River Agency, First and Washakie Streets, Fort Washakie, Wyoming 82514.

Paper or CD copies of the FEIS are available at the above address and at the Bureau of Land Management, Lander Field Office, 1335 Main Street, Lander, Wyoming 82420.

FOR FURTHER INFORMATION CONTACT: Ray Nation, (307) 332-3718.

SUPPLEMENTARY INFORMATION: The Riverton Dome Project Area (RDPA) is located on the southeast corner of the Wind River Indian Reservation in Township 1S, Range 4E, Sections 13, 14, 23, 24, 25, 26, 35, and 36; Township 2S, Range 4E, Sections 1, 2, 11 and 12; Township 1S, Range 5E, Sections 17, 18, 19, 20, 29, 30, 31 and 32; and Township 2S, Range 5E, Sections 5, 6, 7, and 8, in Fremont County, Wyoming, approximately 5 miles southeast of the city of Riverton, Wyoming. The Project Area is approximately 13,804 acres in size, of which 12,656 acres of surface and minerals belong to the Eastern Shoshone and Northern Arapaho Tribes and 1,148 acres of surface and minerals are privately owned.

The FEIS analyzes three alternatives: the proposed action (Alternative A), existing leases (Alternative B) and no action (Alternative C). The BIA has chosen Alternative B, rather than the proposed action, as the preferred alternative for this project.

Alternative B consists of developing from 70 coal bed natural gas (CBNG) wells at 80-acre spacing to 151 CBNG wells at 40-acre spacing. The initial spacing for each new CBNG well drilled is 80-acre spacing. Forty-acre spacing would only be utilized if 80-acre spacing is not sufficient to efficiently produce the CBNG from the formation. The assumption that all CBNG wells would be drilled at 40-acre spacing was used to evaluate the maximum potential disturbance, produced water production, roads, pipelines, and compression needed for development. The actual number of CBNG wells to be drilled under the Alternative B is anticipated to be less than the maximum of 151 wells. In addition, up to 20 conventional gas wells could be drilled under Alternative B.

Alternative B would result in less than 57 percent of the initial surface disturbance anticipated under the proposed action and less than 55 percent of the long-term surface disturbance. The decrease in surface disturbance would result in fewer impacts to the natural resources within the RDPA. In addition, the selection of the Alternative B incorporates the implementation of various avoidance, minimization, and mitigation measures.

Public Comment Availability

Comments, including names and addresses of respondents, will be available for public review at the mailing address shown in the **ADDRESSES** section during regular business hours, 7:30 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: This notice is published in accordance with section 1503.1 of the Council on Environmental Quality regulations (40 CFR Parts 1500 through 1508) implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and the Department of Interior Manual (516 DM 1-6), and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.1.

Dated: August 28, 2008.

George T. Skibine,

Acting Deputy Assistant Secretary for Policy and Economic Development.

Alaska Native Claims Selection

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of decision approving lands for conveyance.

SUMMARY: As required by 43 CFR 2650.7(d), notice is hereby given that an appealable decision approving lands for conveyance pursuant to the Alaska Native Claims Settlement Act will be

issued to Calista Corporation for lands located on Nunivak Island, Alaska. Notice of the decision will also be published four times in the Anchorage Daily News.

DATES: The time limits for filing an appeal are:

1. Any party claiming a property interest which is adversely affected by the decision shall have until October 20, 2008 to file an appeal.

2. Parties receiving service of the decision by certified mail shall have 30 days from the date of receipt to file an appeal.

Parties who do not file an appeal in accordance with the requirements of 43 CFR part 4, Subpart E, shall be deemed to have waived their rights.

ADDRESSES: A copy of the decision may be obtained from: Bureau of Land Management, Alaska State Office, 222 West Seventh Avenue, #13, Anchorage, Alaska 99513-7504.

FOR FURTHER INFORMATION CONTACT: The Bureau of Land Management by phone at 907-271-5960, or by e-mail at ak.blm.conveyance@ak.blm.gov. Persons who use a telecommunication device (TTD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8330, 24 hours a day, seven days a week, to contact the Bureau of Land Management.

Dina L. Torres,

*Land Transfer Resolution Specialist,
Resolution Branch.*

BILLING CODE 4310-JA-P

DEPARTMENT OF THE INTERIOR

Notice of Availability

AGENCY: National Park Service, Department of Interior.

ACTION: Notice of availability of a Supplemental Draft Environmental Impact Statement for the Chattahoochee River National Recreation Area General Management Plan.

SUMMARY: Pursuant to 42 U.S.C. 4332(2)(C) of the National Environmental Policy Act of 1969 and National Park Service (NPS) policy in Director's Order Number 2 (Park Planning) and Director's Order Number 12 (Conservation Planning, Environmental Impact Analysis, and Decision-making) the NPS announces the availability of a Supplemental Draft Environmental Impact Statement/General Management Plan (SDEIS/GMP) for the Chattahoochee River National Recreation Area (CRNRA) in the Atlanta, Georgia metropolitan area.

The document provides a framework for management, use, and development options for the CRNRA by the NPS for the next 15 to 20 years. The document describes six management alternatives for consideration, including a no-action alternative that continues current management policies, and analyzes the environmental impacts of those alternatives. The CRNRA includes a maximum of 10,000 acres of land in 16 units distributed along a 48-mile corridor between Peachtree Creek, Atlanta, and Buford Dam. The CRNRA is linear corridor surrounded by rapidly developing urban and suburban areas.

DATES: Written comments regarding the SDEIS/GMP must be post marked no later than 60 days from the Environmental Protection Agency's publication of its Notice of Availability in the **Federal Register**.

ADDRESSES: Written comments should be addressed to Dan Brown, Superintendent Chattahoochee River National Recreation Area, 1978 Island Ford Parkway, Atlanta, Georgia, 30350-3400. Comments may also be submitted through the NPS Planning Environment and Public Comment (PEPC) Web site: <http://parkplanning.nps.gov>. Copies of the SDEIS are available by contacting the Park Superintendent. An electronic copy of the SDEIS is available on the Internet at <http://parkplanning.nps.gov/projectHome.cfm?parkId=364&projectId=11174>. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION: On July 30, 2004, the NPS issued a Draft GMP/EIS for the CRNRA. Many reviewers objected to some of the provisions of the alternative management strategies that were proposed in the draft plan. In consultation with the Georgia Department of Natural Resources the NPS made major revisions to the plan document including the development of two new alternatives. Subsequently, the NPS held public, stakeholder, and consulting party meetings to gather advice and feedback on the proposed new alternatives for the future management of the CRNRA. The input from the meetings assisted the NPS in developing these new alternatives for managing the cultural and natural
