#### SUPPLEMENTARY INFORMATION:

##### A. Background

This interim rule amends GSAM Parts  
511, 516, 532, 538, 546, and 552 to  
implement Pub.L. 110-248, The Local  
Preparedness Acquisition Act. The  
public law amends the "Cooperative  
Purchasing" provisions of the Federal  
Property and Administrative Services  
Act where the Administrator of GSA  
provides States and localities access to  
certain items offered through GSA's  
supply schedules. The Public Law  
amends 40 U.S.C. 502(c) that allows, to  
the extent authorized by the  
Administrator, a State or local  
government to use Federal Supply  
Schedules of the General Services  
Administration to purchase alarm and  
signal systems, facility management  
systems, firefighting and rescue  
equipment, law enforcement and  
security equipment, marine craft and  
related equipment, special purpose  
clothing, and related services (as

contained in Federal supply  
classification code group 84 or any  
amended or subsequent version of that  
Federal supply classification group).

The GSA Schedules Program is also  
known as the Federal Supply Schedule  
(FSS) or Multiple Award Schedules  
(MAS) Program. Under the FSS/MAS  
Program, Federal agencies are able to  
purchase goods and services under  
contracts that are pre-negotiated by  
GSA. These contracts cover more than  
11 million commercial goods and  
services and are listed in broad  
categories known as Schedules. Under  
current law, State and local  
governments are authorized to purchase  
goods and services off the GSA  
Schedules, in limited circumstances,  
under special procurement authority.  
This interim rule allows for State and  
local purchasing under GSA Schedule  
84, which covers products and services  
related to law enforcement and security.  
Schedule 84 includes items such as fire  
alarm systems, door entry control  
devices, intrusion detection sensors,  
bomb detection equipment, perimeter  
security and video surveillance systems.  
Use of the GSA Schedules allows State  
and local governments to reduce time  
and resources spent on negotiating and  
awarding contracts for needed goods  
and services and gives them access to  
the pre-negotiated prices on the Federal  
Supply Schedules. Access to Schedule  
84 will help State and local  
governments meet growing homeland  
security and public safety needs.

Cooperative Purchasing was added to  
the GSAR in 2003, covering automated  
data processing equipment (including  
firmware, software, supplies, support  
equipment, and services) (Schedule 70).  
A proposed rule was published in the  
**Federal Register** at 68 FR 3220, January  
23, 2003; an interim rule was published  
in the **Federal Register** at 68 FR 24372,  
May 7, 2003; and a final rule was  
published in the **Federal Register** at 69  
FR 28063, May 18, 2004. The rule  
authorized State and local governments  
to procure IT products and services  
from Schedule 70, Information  
Technology and the Consolidated  
Schedule, contracts containing the IT  
Special Item Numbers (SINs).

A related interim rule on Recovery  
Purchasing was published in the  
**Federal Register** at 72 FR 4649,  
February 1, 2007. That interim rule  
implemented Section 833 of P.L. 109-  
364, which authorized the  
Administrator of General Services to  
provide to State and local governments  
the use of Federal Supply Schedules of  
the GSA for purchase of products and  
services to be used to facilitate recovery  
from a major disaster, terrorism, or

nuclear, biological, chemical, or radiological attack. State and local governments are authorized to use Federal Supply Schedules to procure products and services determined by the Secretary of Homeland Security to facilitate recovery from major disasters, terrorism, or nuclear, biological, chemical, or radiological attack. This Recovery Purchasing authority was limited to GSA and the Department of Veterans Affairs (VA) Federal Supply Schedule contracts and does not include any other GSA programs.

Additional information about Cooperative Purchasing and on Recovery Purchasing is available in GSA's Schedules e-Library at <http://www.gsaelibrary.gsa.gov>.

**Cooperative Purchasing Data.**

GSA seeks to continually improve the quality of its data on cooperative purchasing activity under the FSS/MAS Program. Enhanced information on the buying trends of non-federal purchases will help GSA and other Federal agencies better understand how states and localities are using the FSS/MAS Program to facilitate key objectives of cooperative purchasing. One such objective is greater interoperability between Federal, state, and local infrastructures to achieve improved preparedness for emergencies. More detailed data will also allow GSA to

more effectively monitor the impact of cooperative purchasing, including changes, if any, in: (i) small business participation; (ii) access for federal customers; and (iii) GSA's ability to negotiate favorable pricing and terms and conditions. Currently, GSA collects sales data through both quarterly vendor reports based on the Industrial Funding Fee report and GSA Advantage, GSA's online purchasing tool. GSA welcomes public comment on expanding the use and/or functionality of GSA Advantage or another system or process that allows additional collection of information at the transaction level to provide additional insight regarding the impact of the Cooperative Purchasing Program.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

**B. Regulatory Flexibility Act**

The changes may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because the interim rule will affect large and small entities including small businesses that are awarded Schedule 84 contracts, under the GSA Federal Supply Schedule program; non-schedule contractors, including small businesses, contracting with State or local governments; and small governmental jurisdictions that will be eligible to place orders under Schedule 84 contracts. The analysis is as follows:

An Initial Regulatory Flexibility Analysis (IRFA) has been prepared. The analysis is summarized as follows:

**1. Description of the reasons why action by the agency is being considered.**

To implement Pub.L. 110–248, The Local Preparedness Acquisition Act. The Act amends section 502 of Title 40, United States Code, to authorize the Administrator of General Services to provide for the use by State or local governments of Federal Supply Schedules of the General Services Administration (GSA) for alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services (as contained in Federal supply classification code group 84 or any amended or subsequent version of that Federal supply classification group). The rule opens the Federal Supply Schedule 84 for use by other governmental entities to enhance intergovernmental cooperation.

**2. Succinct statement of the objectives of, and legal basis for the interim rule.**

The interim rule will implement Pub.L. 110–248, The Local Preparedness

Acquisition Act with the objective of opening the Federal Supply Schedule 84 for use by other governmental entities to enhance intergovernmental cooperation. The goal of the new rule is to make "government" (considering all levels) more efficient by reducing duplication of effort and utilizing volume purchasing techniques for the acquisition of law enforcement, security, and certain other related items.

**3. Description of, and where feasible, estimate of the number of small entities to which the interim rule will apply.**

The rule will affect large and small entities including small businesses, that are awarded Schedule 84 contracts, under the GSA Federal Supply Schedule program; non-schedule contractors, including small businesses, contracting with State or local governments; and small governmental jurisdictions that will be eligible to place orders under Schedule 84. In Fiscal Year 2007, approximately 85 percent (1,061) of GSA Schedule 84 contractors were small businesses, and approximately 54 percent (\$1,206,816,656) of Schedule 84 contract sales were reported as small business. All of the small business Schedule 84 contractors will be allowed, at the Schedule contractor's option, to accept orders from State and local governments. Obviously, the expanded authority to order from Schedule 84 could increase the sales of small business Schedule contractors. As an example, the Schedule 70 Cooperative Purchasing contract sales reported by small businesses between Fiscal Year 2004 and Fiscal Year 2007 increased from approximately \$33.1 million to \$98.3 million. This represented an average of 42 percent of the total Schedule 70 Cooperative Purchasing contract sales.

It is difficult to identify the number of non-schedule small businesses that currently sell directly to State and local governments. The ability of governmental entities to use Schedule 84 may affect the competitive marketplace in which those small businesses operate. State and local government agencies could realize lower prices on some products and services, less administrative burden and shortened procurement lead times. The rule does not affect or waive State or local government preference programs. Finally, small governmental jurisdictions will also be affected. Counties, incorporated municipalities, minor subdivisions, public housing authorities, school districts, public educational institutions of higher learning, and Indian tribal governments would be among those affected if they chose to order from Schedule 84 contracts. Federal Supply Schedule contracts are negotiated as volume purchase agreements, with generally very favorable pricing. The ability of small governmental entities to order from Schedule 84 holds out the potential for significant cost savings for those organizations.

**4. Description of projected reporting, recordkeeping, and other compliance requirements of the rule, including an estimate of the classes of small entities that will be subject to the requirement and the type of professional skills necessary for preparation of the report or record.**

The interim rule makes changes in certain provisions or clauses in order to recognize

the fact that authorized non-federal ordering activities may place orders under the contract. The Office of Management and Budget under the Paperwork Reduction Act has previously approved these clauses and the changes do not impact the information collection or recordkeeping requirements.

**5. Identification, to the extent practicable, of all relevant Federal rules that may duplicate, overlap or conflict with the rule.**

The interim rule does not duplicate, overlap, or conflict with any other Federal rules.

**6. Description of any significant alternatives to the interim rule that accomplish the stated objectives of applicable statutes and that minimize any significant economic impact of the rule on small entities.**

There are no practical alternatives that will accomplish the objective of this rule.

The Regulatory Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. Interested parties may obtain a copy from the Regulatory Secretariat. The Councils will consider comments from small entities concerning the affected FAR Parts 511, 516, 532, 538, 546, and 552 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, *et seq.* (GSAR case 2008-G517), in all correspondence.

**C. Paperwork Reduction Act**

The Paperwork Reduction Act does apply; however, these changes to the FAR do not impose additional information collection requirements to the paperwork burden previously approved under OMB Control Number 3090-0250.

**D. Determination to Issue an Interim Rule**

A determination has been made under the authority of the Administrator of General Services (GSA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary to implement Pub.L. 110-248, The Local Preparedness Acquisition Act. The Act was signed and became effective June 26, 2008. In addition, this interim rule will provide immediate access to Schedule 84 items (e.g., firefighting and rescue equipment, first responder gear and kits, law enforcement and security equipment) that may be critical to meet the public safety and homeland security needs of State and local governments during hurricanes, fires and incidents related to homeland security. Further, implementation of this interim rule is an incremental expansion of the Cooperative Purchasing Program where the processes and procedures are well

established and have been the subject of prior rulemakings. However, pursuant to Public Law 98-577 and FAR 1.501, the Councils will consider public comments received in response to this interim rule in the formation of the final rule.
