AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before October 22, 2008 to be assured of consideration.

ADDRESSES: Send comments to Mr. Nicholas A. Fraser, Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167; or electronically mailed to Nicholas_A_Fraser@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-713-7409.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Public Law 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on June 25, 2008 (73 FR 36128). Two comments were received. One comment requested that the veteran or requestor should be afforded the opportunity to request their entire record on the form so they don't have to request it more than once. Another comment requested replacing "service" with "component" in several areas of the form; changing "VA Loan" to "VA Loan Programs"; and requesting all documents in the Official Military Personnel File (OMPF). Both comments were accepted and the changes were made to the SF 180. NARA has submitted the described

information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Request Pertaining to Military Records.

OMB number: 3095-0029.

Agency form number: SF 180.

Type of review: Regular.

Affected public: Veterans, their authorized representatives, state and local governments, and businesses.

Estimated number of respondents: 1,028,769.

Estimated time per response: 5 minutes.

Frequency of response: On occasion (when respondent wishes to request information from a military personnel record).

Estimated total annual burden hours: 85,731 hours.

Abstract: The authority for this information collection is contained in 36 CFR 1228.168(b). In accordance with rules issued by the Department of Defense (DOD) and Department of Homeland Security (DHS, U.S. Coast Guard), the National Personnel Records Center (NPRC) of the National Archives and Records Administration (NARA) administers military service records of veterans after discharge, retirement, and death. When veterans and other authorized individuals request information from or copies of documents in military service records, they must provide in forms or in letters certain information about the veteran and the nature of the request. Federal agencies, military departments, veterans, veterans' organizations, and the general public use Standard Forms (SF) 180, Request Pertaining to Military Records, in order to obtain information from military service records stored at NPRC. Veterans and next-of-kin of deceased veterans can also use eVetRecs (http://www.archives.gov/research_room/vetrecs/) to order copies.

Dated: September 17, 2008.

Assistant Archivist for Information Services.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-3]

Notice of Docketing and Issuance of Amendment to Materials License SNM-2502, Carolina Power and Light Company, H.B. Robinson Steam Electric Plant, Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance of Amendment to Materials License SNM-2502.

FOR FURTHER INFORMATION CONTACT:

Kevin M. Witt, Project Manager, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards, Mail Stop EBB-3D-02M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 492-3323; e-mail: Kevin.Witt@nrc.gov.

SUPPLEMENTARY INFORMATION: On March 30, 2005, the U.S. Nuclear Regulatory Commission (NRC or the Commission) renewed NRC Materials License No. SNM-2502 to the Carolina Power and Light Company (CP&L) for the H.B. Robinson Steam Electric Plant (HBRSEP) Independent Spent Fuel Storage Installation (ISFSI), located in Hartsville, South Carolina. The renewed license authorizes CP&L to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials resulting from the operation of the HBRSEP in an ISFSI at the power plant site for a term of 40 years. The NRC staff also issued an Environmental Assessment and Finding of No Significant Impact related to the

issuance of the renewed ISFSI license on March 17, 2005, in accordance with the National Environmental Policy Act, and in conformance with the applicable requirements of 10 CFR Part 51.

On September 26, 2007, CP&L submitted an application to NRC, in accordance with 10 CFR Part 72, requesting an amendment to NRC Materials License No. SNM-2502. CP&L's license amendment requests four separate administrative changes. Specifically, the first administrative change request was to delete the preoperational license conditions in Section 1.2 of the Technical Specifications (TSs). The second administrative change request was to revise the referenced drawing numbers from the original vendor numbers to the plant's document control numbers. The third administrative change request was to clarify that the lifting height restriction specified in Table 2-1 of Appendix A is measured in feet—the licensee has requested that the single apostrophe symbol be replaced by the abbreviation "ft." The fourth administrative change request was to clarify the level of sensitivity and titles of training plans. An additional change was made by the NRC to correct a regulatory reference in the safeguards license condition (TS Appendix B) description of the amendment process. As a result of these change requests, CP&L also requested the pages of the TSs be re-formatted to ensure consistent page numbering.

Pursuant to 10 CFR 72.46, the NRC has docketed, approved and issued Amendment No. 1 to Materials License No. SNM-2502 held by CP&L for the receipt, possession, transfer, and storage of spent fuel at the HBRSEP ISFSI. Amendment No. 1 is effective as of the date of issuance.

Amendment No. 1 complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings, as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in Amendment No. 1. The issuance of Amendment No. 1 satisfied the criteria specified in 10 CFR 51.22(c)(11) for a categorical exclusion. Thus, the preparation of an environmental assessment or an environmental impact statement is not required.

In accordance with 10 CFR 72.46(b)(2), the NRC has determined that Amendment No. 1 does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a
