**Federal Aviation Administration**

**Centennial Airport, Englewood, CO;  
FAA Approval of Noise Compatibility Program**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice, Noise compatibility program.

**SUMMARY:** The FAA's *Federal Register* Notice entitled "Approval of Noise Compatibility Program; Centennial Airport, Englewood, CO;" published August 21, 2008, published with several inaccuracies. Because of those inaccuracies we withdraw the August 21, 2008 notice (73 FR 49635) and are issuing this notice to replace the August 21, 2008 notice. The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the Arapahoe County Public Airport Authority for the Centennial Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96–193) and 14 CFR Part 150, Airport Noise Compatibility Planning. These findings are made in recognition of the description of federal and non-federal responsibilities in Senate Report No. 96–52 (1980). On August 12, 2008, FAA Airports Division Manager approved the Centennial Airport noise compatibility program. Of the twelve proposed program elements, FAA approved eight and reserved approval of another two measures pending further study. The remaining two measures were disapproved.

**DATES:** *Effective Date:* The effective date of the FAA's approval of the Centennial Airport noise compatibility program is August 12, 2008.

**FOR FURTHER INFORMATION CONTACT:** Linda Bruce, Federal Aviation Administration, Denver Airports District Office, 26805 E. 68th Avenue, Suite 224, Denver, Colorado 80249–6361, Telephone (303) 342–1264. Documents reflecting this FAA action may be obtained from Ms. Bruce or on the Internet at <http://www.faa.gov/airports-airtraffic/airports/regional-guidance/northwest-mountain/environmental/>.

**SUPPLEMENTARY INFORMATION:** This notice announces that the FAA has given its overall approval to the Centennial Airport noise compatibility program, effective August 12, 2008.

Under Section 104(a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter the Act), an airport operator who has previously submitted a noise exposure map may submit to the FAA

a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing noncompatible land uses and prevention of additional noncompatible land uses within the area covered by the noise exposure maps.

The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with 14 CFR Part 150 is a local program, not a federal program. The FAA does not substitute its judgment for that of the airport sponsor with respect to which measures should be recommended for action. The FAA's approval or disapproval of Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act, and is limited to the following determinations:

(a) The noise compatibility program was developed in accordance with the provisions and procedures of 14 CFR Part 150;

(b) Program measures are reasonably consistent with achieving the goals of reducing existing noncompatible land uses around the airport and preventing the introduction of additional noncompatible land uses;

(c) Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the federal government; and

(d) Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the FAA Administrator, as prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in Part 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute a FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action.
