I. Regulatory History

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under both 5 U.S.C. 553(b)(A) and (b)(B), the Coast Guard finds this rule is exempt from notice and comment rulemaking requirements because these changes involve agency organization and practices, and good cause exists for not publishing an NPRM for all revisions in the rule because they are all non-substantive changes. This rule consists only of corrections and editorial, organizational, and conforming amendments. These changes will have no substantive effect on the public; therefore, it is unnecessary to publish an NPRM. Under 5 U.S.C. 553(d)(3), the Coast Guard finds that, for the same reasons, good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

II. Background and Purpose

Each year the printed edition of Title 46 of the Code of Federal Regulations is updated on October 1. This rule, which becomes effective September 29, 2008, makes technical and editorial corrections throughout Title 46. This rule does not create any substantive requirements.

III. Discussion of Rule

This rule updates the address and contact information for the National Maritime Center (NMC) in 10 sections: the Marine Index Bureau in 1 section; the National Cargo Bureau in 1 section; and the International Cargo Bureau in 8 sections. We updated internal Coast Guard office designators in nine sections, and typographical errors were corrected in §§ 10.219, 28.50, 28.275(a)(2), 28.390(c), and 176.816. Further, certain sections of Title 46 previously included a list of Regional Examination locations; however, as a result of other rulemakings, these sections currently state that the list of Regional Examination locations is available through the Coast Guard Web site at <http://www.uscg.mil>. We updated cross-references to these sections in §§ 12.02–23(e), 12.02–27(a)(2), 13.107(f), 10.105 and 13.109(c) to ensure the public may easily locate the list of Regional Examination locations.

Additional amendments to parts 10, 14, 15, 28, 71, 91, 401, and 402 are:

46 CFR 10.464. We amended § 10.464(f)(3) for clarity and to make it consistent with § 10.464(f)(2).

46 CFR Part 14. We updated the address for the NMC throughout Title 46

to reflect their move to West Virginia. In addition to updating the address, we removed the outdated facsimile number in § 14.103(b), and replaced it with NMC's public contact e-mail address. The facsimile number listed is no longer valid, and the NMC is now accepting communications via electronic mail. We also added paragraph (c) to § 14.103 to provide the NMC's World Wide Web address.

46 CFR 15.610. We removed § 15.610(c) because it expired on May 21, 2006. We re-designated § 15.610(d) as § 15.610(c) due to the removal of paragraph (c).

46 CFR 28.575. We amended 46 CFR 28.575 to correct two typographical errors. The first typographical error appears in the formula in paragraph (b). Specifically, the figure two in the formula should be a superscripted figure two. The correct formula, with the superscripted figure, was added to the CFR in 1991 (56 FR 40413). The typographical error appeared in the CFR in 1997. The Coast Guard amended § 28.575 twice between 1991 and 1997 (56 FR 47679 and 60 FR 50461); however neither amendment affected the superscripted figure, and as such the cause for the error is unknown. Further, we have contacted members of the public that may have been impacted by the typographical error; and they have indicated that, in completing the calculation, they have relied on the original formula published in 1991 rather than the formula published since 1997. This amendment will merely restore the formula to that which was published in 1991. The second typographical error appears in Figure 28.575, which is the graphical representation for § 28.575. Figure 28.575 shows a heel angle of 40 degrees while the text of the rule in paragraph (e)(3) states a heel angle of 50 degrees. Thus, we corrected Figure 28.575 to accurately reflect the rule text.

46 CFR Parts 71 and 91. 73 FR 35959 amended § 31.10–16 by adding the National Cargo Bureau, Inc., as a recognized inspection organization. Previously this section only listed the International Cargo Gear Bureau, Inc., as a recognized inspection organization. Sections 71.65–1 and 91.55–1 referenced § 31.10–16 to identify the International Cargo Gear Bureau, Inc., as the cargo gear organization authorized to approve cargo gear plans and specifications. The International Cargo Gear Bureau, Inc., remains the only authorized organization, other than recognized classification societies authorized to perform the approval of plans as described in §§ 71.65–1 and 91.55–1. We amended §§ 71.65–1 and

91.55–1 to eliminate confusion, and ensure that mariners continue to be directed to appropriate cargo gear plans and specifications approval organizations.

46 CFR Part 401. In §§ 401.200 and 401.211, we removed a provision requiring pilots to submit fingerprint charts with registration applications. We removed these provisions because they duplicate the same requirement found in § 401.210(a)(1). In § 401.450, we amended a reference to a pilot change point located in Canada. Previously, the Canadians identified Lock No. 7, Welland Canal, as an appropriate pilot change point. The Canadians have relocated the pilot change point and it is now located at Port Colburne. Both Welland Canal and Port Colburn are under Canadian jurisdiction—rather than U.S. jurisdiction—and as such this amendment imposes no, U.S. based, substantive burden on the regulated public. This amendment merely conveys Canadian operating procedures to mariners that may traverse Canadian waters. Pilots traversing Canadian waters have been complying with this change for many years. Lastly, we amended § 401.720 to reflect the recodification of 46 U.S.C. 216b(e). Public Law 109–304 (An Act to complete the codification of title 46, United States Code, “Shipping”, as positive law) recodified 46 U.S.C. 216b(e) as 46 U.S.C. 9304.

46 Part 402. We revised the authorities section by removing a reference to a Department of Transportation regulation that no longer applies to the Coast Guard. We 2104(a) amended § 402.220 by removing a reference to a memorandum of agreement between Canada and the United States, dated 1961, regarding Great Lakes pilotage, and replaced it with a more current version of that agreement dated 1977. There were no substantive changes between the two agreements impacting the public. Lastly, we revised § 402.320 to reflect the most current “working rules” on file with the Coast Guard. These working rules are compiled by voluntary U.S. registered pilot associations authorized to establish pilotage pools. This amendment provides the public with information regarding the current working rules compiled by those organizations.

IV. Regulatory Analyses

A. Executive Order 12866

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not

require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. We expect the economic impact of this rule to be so minimal that a full Regulatory Analysis is unnecessary. As this rule involves internal agency practices and procedures and non-substantive changes, it will not impose any costs on the public.

B. Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. This rule does not require a general notice of proposed rulemaking and, therefore, is exempt from the requirements of the Regulatory Flexibility Act. However, the Coast Guard certifies under 5 U.S.C. 605(b) that this final rule will not have a significant economic impact on a substantial number of small entities.

C. Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

G. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

H. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

I. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

J. Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs at OMB has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

K. Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are

technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

L. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 5100.1 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that under the Instruction there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraphs (34)(a) and (b), of the Instruction from further environmental documentation because this rule involves editorial, procedural, and internal agency functions. A final “Environmental Analysis Check List” and a final “Categorical Exclusion Determination” are available in the docket where indicated under **ADDRESSES**.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch for Vessels in the Bering Sea and Aleutian Islands Trawl Limited Access Fishery in the Western Aleutian District of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific ocean perch for vessels participating in the Bering Sea and Aleutian Islands (BSAI) trawl limited access fishery in the Western Aleutian District of the BSAI. This action is necessary to prevent exceeding the 2008 Pacific ocean perch total allowable catch (TAC) specified for vessels participating in the BSAI trawl limited access fishery in the Western Aleutian District of the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 24, 2008, through December 31, 2008.

FOR FURTHER INFORMATION CONTACT: Jennifer Hogan, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2008 Pacific ocean perch TAC allocated as a directed fishing allowance to vessels participating in the BSAI trawl limited access fishery in the Western Aleutian District of the BSAI is 136 metric tons (mt) as established by the 2007 and 2008 final harvest specifications for groundfish in the BSAI (72 FR 9451, March 2, 2007) and revision (72 FR 71802, December 19, 2007). See § 679.20(a)(10)(i), § 679.20(a)(10)(iii), and § 679.91(c)(1) and (2).

In accordance with § 679.20(d)(1)(iii), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2008 Pacific ocean perch TAC allocated to vessels participating in the BSAI trawl limited access fishery in the Western Aleutian District of the BSAI will soon be reached. Consequently, NMFS is prohibiting directed fishing for Pacific ocean perch by vessels participating in the BSAI trawl limited access fishery in the Western Aleutian District of the BSAI.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA,
