POSTAL SERVICE

39 CFR Part 111

Postage Payment for Bound Printed Matter Limited to Permit Imprint

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: In this final rule, the Postal Service is revising mailing standards for all Bound Printed Matter (BPM). In March we filed a notice with the Postal Regulatory Commission for a classification change requiring all mailings of Bound Printed Matter be paid by permit only. The Commission agreed, and we are moving forward with the change.

Postage payment for BPM mailings: carrier route, presorted, and nonpresorted (single-piece) flats and parcels, regardless of volume, are limited to permit imprint. Mailers can no longer affix postage by adhesive stamps, postage meter, or PC Postage®. BPM will not be accepted at retail counters, in collection boxes, or by carriers and must be deposited and accepted at the Post Office™ facility that issued the permit. Merchandise Return Service (MRS) permit holders may continue to pay nonpresorted BPM prices on eligible items returned with a MRS label.

DATES: This rule is effective September 29, 2008, and is applicable beginning September 11, 2008.

FOR FURTHER INFORMATION CONTACT: Carol A. Lunkins at 202-268-7262.

SUPPLEMENTARY INFORMATION: Mailers who are presently authorized to pay postage via permit imprint may use their existing permit to mail BPM at the Post Office™ where the permit is held. Mailers who wish to obtain a new authorization to pay postage via permit imprint must complete an application and pay a one-time application fee at each office of mailing to mail BPM on or after September 11, 2008.

Authorization is obtained by submitting PS Form 3615, *Mailing Permit Application and Customer Profile*, and the applicable fee to the Post Office where mailings are to be deposited. As long as a permit remains active, there is no additional fee for use of a permit imprint indicia, but other fees (e.g., an

annual destination entry mailing fee) may be due depending on where the mail is deposited.

Payment for postage must be made for each mailing through an advance deposit account before the mailing can be released for processing. Funds to pay postage must be deposited as directed by the USPS®.

Nonpresorted BPM mailings, except discount mailings (e.g., barcode discounts), will be exempt from the general minimum volume requirement for a permit imprint mailing of at least 200 pieces or 50 pounds of mail and will not have a minimum volume requirement. However, the current requirements for all other commercial nonpresorted and presorted minimum volumes will remain (e.g., nonpresorted barcoded—50 pieces and presorted—300 pieces).

As a reminder, prices for BPM pieces vary by weight and zone of destination. Supporting documentation of postage is required for all nonidentical-weight pieces and for identical-weight pieces that are not separated by price and zone.

This requirement, which limits the payment of postage for all BPM to permit imprint, is effective September 11, 2008.

The Postal Service adopts the following changes to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), which is incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 111.1.

1.1.1 Payment Method

[Revise the text of 1.1.1 to eliminate postage payment methods other than permit imprint, as follows:]

The mailer is responsible for proper postage payment. Subject to the corresponding standards, postage and fees for Bound Printed Matter must be paid by permit imprint, as defined in 604.5.0. Permit imprint may be used for mailings that contain nonidentical-weight pieces only when authorized by Business Mailer Support. Identical-weight pieces must be separated at acceptance into groups that contain pieces all subject to the same zone and same combination of prices (e.g., all are zone 4), unless mailed under 705.2.0 through 705.4.0 in *Advanced Preparation and Special Postage Payment Systems*.

2.0 Mailing Documentation

2.1 Completing Postage Statements

[Revise the text of 2.1, as follows:]

All mailings must be accompanied by a completed postage statement signed by the mailer (in duplicate if the mailer wants a receipted copy). A change made to any postage statement requires the mailer to correct the postage statement accordingly and document the correction.

2.2 Basic Documentation Standards

[Revise the text of 2.2, as follows:]

Generally, documentation is required from a mailer when a mailing is presented to the USPS, and supporting documentation of postage is required.

Documentation describes the preparation, price levels, content of the mailing and it details the volume and postage data. By comparison with the actual mailing, it describes and supports the claims contained on the postage statement, which accompanies the mailing. It allows the USPS to validate the accuracy of the mailing. Documentation must be submitted when specified for the price claimed.

2.3 Documentation for Mail Claiming the Barcode Discount

[Revise the text of 2.3, as follows:]

A complete postage statement must accompany each mailing, and it must be supported by documentation produced

by PAVE-certified or MAC-certified software or standardized documentation. Mailers may use a single postage statement and a single documentation report for all price levels in a mailing. Documentation of postage is not required if each piece is of identical weight and the pieces are separated by zone and price when presented for acceptance.
