

The form is being revised with changes to the data field that collects the Social Security Number (SSN). The SSN field is an optional field. The current collection pre-fills the first five digits with "xxx-xx" and only collects the last four digits of the SSN. At OMB's

request, we reviewed the usefulness of collection of a portion of the SSN, by polling the Agencies that used the SF-424 Short Organizational form; however, it was determined that the partial SSN is not useful for processing the SF-424 Short Organizational form

by the Agencies. Therefore, no portion of the SSN will be collected as part of the electronic grant application process. Frequency of data collection varies by Federal agency.

Proposed Project: Protection of Human Subjects: Assurance of Compliance with Federal Policy/IRB Review/IRB Recordkeeping/Informed Consent/Consent Documentation—OMB No. 0990-0260—Office for Human Research Protections.

Abstract: Section 491(a) of Public Law 99-158 states that the Secretary of HHS shall by regulation require that each entity applying for HHS support (e.g., a grant, contract, or cooperative agreement) to conduct research involving human subjects submit to HHS assurances satisfactory to the Secretary that it has established an institutional review board (IRB) to review the research in order to ensure protection of the rights and welfare of the human research subjects. IRBs are boards, committees, or groups formally designated by an entity to review, approve, and have continuing oversight of research involving human subjects.

Pursuant to the requirement of the Public Law 99-158, HHS promulgated regulations at 45 CFR part 46, subpart A, the basic HHS Policy for the Protection

of Human Subjects. The June 18, 1991 adoption of the common Federal Policy (56 FR 28003) by 15 departments and agencies implements a recommendation of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research which was established on November 9, 1974, by Public Law 95-622. The Common Rule is based on HHS regulations at 45 CFR part 46, subpart A, the basic HHS Policy for the Protection of Human Subjects.

The respondents for this collection are institutions engaged in such research. Institutional adherence to the Common Rules also is required by other federal departments and agencies that have codified or follow the Common Rule which is identical to 45 CFR part 46, subpart A.

The information being requested related to the Common Rule should be readily available to the institution or organization that registers the IRB.

The burden estimates for the Common Rule include those recently approved for use of the Federalwide Assurance (FWA) form under Control Number 0990-0278 and for the IRB Registration Form that was recently approved under Control Number 0990-0279, and for the institutional review board (IRB) verification (former Optional Form 310).

The burden estimate for the sections of the Common Rule that require reporting or recordkeeping are shown in the burden table below. The number of respondents is the number of IRBs registered utilizing OMB 0990-0279.
