

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Docket ID No. EPA-HQ-OAR-2008-0707.

Affected entities: Entities potentially affected by this action are the state government agencies or departments responsible for oversight and operation of the I/M programs (SIC#91). Thirty-three states plus the District of Columbia will be affected by I/M program requirements.

Title: Data Reporting Requirements for State and Local Vehicle Emission Inspection and Maintenance (I/M) Programs.

ICR number: EPA ICR No. 1613.03, OMB Control No. 2060-0252.

ICR status: This ICR is scheduled to expire February 28, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: To provide general oversight and support to state and local I/M programs, the Transportation and Regional Programs Division (TRPD), Office of Transportation and Air Quality, Office of Air and Radiation, U.S. Environmental Protection Agency, requires that state or local program management for both basic and enhanced I/M programs collect two varieties of reports to EPA. The first reporting requirement is the submittal of an annual report providing general program operating data and summary statistics, addressing the program's

current design and coverage, a summary of testing data, enforcement program efforts, quality assurance and quality control efforts, and other miscellaneous information allowing for an assessment of the program's relative effectiveness; the second is a biennial report on any changes to the program over the two-year period and the impact of such changes, including any weaknesses discovered and corrections made or planned.

General program effectiveness is determined by the degree to which a program misses, meets, or exceeds the emission reductions committed to in the state's approved SIP, which, in turn, must meet or exceed the minimum emission reductions expected from the relevant performance standard, as promulgated under EPA's revisions to 40 CFR, Part 51, in response to requirements established in section 182 of the Clean Air Act Amendments of 1990 (Act). This information will be used by EPA to determine a program's progress toward meeting requirements under 40 CFR, Part 51, as well as to assess national trends in the area of basic and enhanced I/M programs and to provide background information in support of periodic site visits and evaluations.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 85 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 34.

Frequency of response: Annual and Biennial.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 85 hours.

Estimated total annual costs: \$4,478.

Are There Changes in the Estimates From the Last Approval?

There is no change in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: September 25, 2008.

Sarah Dunham,

Acting Division Director, Transportation and Regional Programs Division, Office of Transportation and Air Quality.

Draft Toxicological Review of Ethylene Glycol Mono Butyl Ether (EGBE): In Support of the Summary Information in the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Listening Session.

SUMMARY: EPA is announcing a listening session to be held on Friday, October 10, 2008, for the external review draft document entitled, "Toxicological Review of Ethylene Glycol Mono Butyl Ether (EGBE): In Support of Summary Information on the Integrated Risk Information System (IRIS)." This listening session is a new step in EPA's revised process, announced on April 10, 2008, for development of human health assessments for inclusion on IRIS. The purpose of the listening session is to allow all interested parties to present scientific and technical comments on draft IRIS health assessments to EPA and other interested parties during the public comment period and prior to the external peer review meeting. EPA

welcomes the scientific and technical comments that will be provided to the Agency by the listening session participants. The comments will be considered by the Agency as it revises the draft assessment in response to the independent external peer review and public comments. All presentations will become part of the official and public record.

The EPA's draft assessment and peer review charge are available via the Internet on the National Center for Environmental Assessment's (NCEA) home page under the Recent Additions and the Data and Publications menus at <http://www.epa.gov/ncea>.

DATES: The listening session on the draft IRIS health assessment for Ethylene Glycol Mono Butyl Ether (EGBE) will be held on Friday, October 10, 2008, beginning at 9 am and ending at 4 pm, Eastern Daylight Time. If you wish to make a presentation at the listening session, you should register by Wednesday, October 8, 2008, and indicate that you wish to make oral comments at the session, and indicate the length of your presentation. At the time of your registration, please indicate if you require audio-visual aid (e.g., lap top and slide projector). In general, each presentation should be no more than 30 minutes. If, however, there are more requests for presentations than the allotted time will allow, then the time limit for each presentation will be adjusted accordingly. A copy of the agenda for the listening session will be available at the meeting. If no speakers have registered by Wednesday, October 8, 2008, the listening session will be cancelled. EPA will notify those registered to attend of the cancellation.

The public comment period for review of this draft assessment was announced previously in the **Federal Register** (FR) (73 FR 22372) on April 25, 2008 and ended on June 24, 2008. Any technical comments submitted in response to this notice, should in writing and should be provided to EPA at the October 10 listening session or e-mailed to Christine Ross at ross.christine@epa.gov by October 10. All comments received will be provided to the peer review panel.

The date and logistics for the peer-review meeting were announced in a separate FR notice that was published on September 25, 2008.

ADDRESSES: The listening session on the draft Ethylene Glycol Mono Butyl Ether (EGBE) assessment will be held at the EPA offices at Two Potomac Yard (North Building), 7th Floor, Room 7100, 2733 South Crystal Drive, Arlington, Virginia, 22202. To attend the listening

session, register by Wednesday, October 8, 2008, via e-mail at ross.christine@epa.gov (subject line: Ethylene Glycol Mono Butyl Ether (EGBE) listening session), by phone: 703-347-8592, or by faxing a registration request to 703-347-8689 (please reference the "Ethylene Glycol Mono Butyl Ether (EGBE) Listening Session" and include your name, title, affiliation, full address and contact information). Please note that to gain entrance to this EPA building to attend the meeting, attendees must have photo identification with them and must register at the guard's desk in the lobby. The guard will retain your photo identification and will provide you with a visitor's badge. At the guard's desk, attendees should give the name Christine Ross and the telephone number, 703-347-8592, to the guard on duty. The guard will contact Ms. Ross who will meet you in the reception area to escort you to the meeting room. Upon your exit from the building please return your visitor's badge and you will receive the photo identification that you provided.

A teleconference line will also be available for registered attendees/speakers. The teleconference number is 866-299-3188 and the access code is 1068186199, followed by the pound sign (#). The teleconference line will be activated at 8:45 am, and you will be asked to identify yourself and your affiliation at the beginning of the call.

Information on Services for Individuals with Disabilities: For information on access or services for individuals with disabilities, please contact Christine Ross at 703-347-8592 or ross.christine@epa.gov. To request accommodation of a disability, please contact Ms. Ross, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

FOR FURTHER INFORMATION CONTACT: For information on the public listening sessions, please contact Christine Ross, IRIS Staff, National Center for Environmental Assessment, (8601P), U.S. EPA, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone: 703-347-8592; facsimile: 703-347-8689; or e-mail: ross.christine@epa.gov. If you have questions about the draft Ethylene Glycol Mono Butyl Ether (EGBE) assessment, contact Angela Howard, Hazardous Pollutants Assessment Branch, Research Triangle Park, National Center for Environmental Assessment, (B243-01), U.S. EPA, USEPA Mailroom, Research Triangle Park, NC 27711; telephone: 919-541-

5133; facsimile: 919-541-0245; or e-mail: howard.angela@epa.gov.

SUPPLEMENTARY INFORMATION: This listening session is a new step in EPA's revised process, announced on April 10, 2008, for development of human health assessments for inclusion on IRIS. The new process is posted on the NCEA home page under the Recent Additions menu at <http://www.epa.gov/ncea>. Two listening sessions are scheduled under the new IRIS process. The first is during the public review of the draft assessment that includes only qualitative discussion. The second session is during the public review of the externally peer reviewed draft assessment; if feasible, this draft will include both qualitative and quantitation elements (i.e., a "complete draft"). All IRIS assessments that are at the document development stage will follow the revised process, which includes the two listening sessions. However, when EPA initiated the new IRIS process, the draft assessment for Ethylene Glycol Mono Butyl Ether (EGBE) had already completed document development and been through several rounds of internal review. Therefore, EPA will only hold one listening session during the public review and comment period of the externally peer-reviewed draft.

Dated: September 24, 2008.

Rebecca Clark,

Acting Director, National Center for Environmental Assessment.

SFIREG Working Committee on Water Quality and Pesticide Disposal; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Association of American Pesticide Control Officials (AAPCO)/State FIFRA Issues Research and Evaluation Group (SFIREG) Working Committee on Water Quality and Pesticide Disposal (WQPD) will hold a 2-day meeting, beginning on October 27, 2008 and ending October 28, 2008. This notice announces the location and times for the meeting and sets forth the tentative agenda topics.

DATES: The meeting will be held on Monday, October 27, 2008 from 8:30
