Background

On October 5, 2007, the FAA published Notice No. 07-15, Automatic Dependent Surveillance—Broadcast (ADS-B) Out performance requirements to support Air Traffic Control (ATC) service (72 FR 56947; Oct. 5, 2007). Comments to that document were to be received on or before January 3, 2008. On November 19, 2007, the FAA extended the comment period until March 3, 2008 (72 FR 64966).

On July 15, 2007, the Administrator established the ADS-B Aviation Rulemaking Committee (ARC). The ADS-B ARC provides a forum for the U.S. aviation community to discuss and review the ADS-B NPRM, formulate recommendations on presenting and structuring an ADS-B mandate, and consider additional actions that may be necessary to implement those recommendations. On September 26, 2008, pursuant to its responsibilities under the charter, the ADS-B ARC submitted to the FAA specific recommendations addressing the NPRM. These ARC recommendations have been placed in the docket.

To give the public an opportunity to comment on the recommendations received from the ARC, the FAA is reopening the comment period for an additional 30 days. The purpose of the comment period is to receive public

comments on the ARC recommendations; the FAA is not reopening the comment period on the NPRM.

Issued in Washington, DC, on September 29, 2008.

Pamela Hamilton-Powell,

Director, Office of Rulemaking.

BILLING CODE 4910-13-P

SUSQUEHANNA RIVER BASIN COMMISSION

18 CFR Part 806

Review and Approval of Projects

AGENCY: Susquehanna River Basin Commission.

ACTION: Notice of proposed rulemaking and public hearing.

SUMMARY: This document contains proposed rules that would amend the project review regulations of the Susquehanna River Basin Commission (Commission) by requiring review and approval of any natural gas well development project targeting the Marcellus, Utica or other shale formations and involving the withdrawal or consumptive use of waters of the Susquehanna River Basin, adding a provision providing for a specific approval by rule process for consumptive water use associated with such projects and modifying the definition of project. In addition, two editorial changes are made to the existing approval by rule provision related to the consumptive use of water withdrawn from public water supply systems to make that provision consistent with the new approval by rule provision for natural gas well development projects.

DATES: Public hearings will be held on October 21 and October 22, 2008, beginning at 7 p.m. regarding this proposed rulemaking action. The locations of the hearings are listed in the **ADDRESSES** section of this notice. The deadline for submission of written comments on the proposed rulemaking is October 31, 2008.

ADDRESSES: The October 21 2008, public hearing will be held at Lycoming College, Academic Center, Lecture Hall Room D001, Mulberry Street, Williamsport, PA 17701; the October 22, 2008, public hearing will be held at Binghamton University, State University of New York, Lecture Hall Complex, Lecture Hall 1, Route 434 (Vestal Parkway East), Binghamton, NY 13903. Written comments may be submitted by

mail to Mr. Richard A. Cairo, Susquehanna River Basin Commission, 1721 N. Front Street, Harrisburg, PA 17102-2391 or by e-mail to rcairo@srbc.net.

Richard A. Cairo, General Counsel, 717-238-0423; Fax: 717-238-2436; e-mail: rcairo@srbc.net. Also, for further information on the proposed rulemaking, visit the Commission's Web site at www.srbc.net.

SUPPLEMENTARY INFORMATION:

Background and Purpose of Amendments

As a result of advances in hydraulic fracturing, and higher natural gas prices, natural gas well development activity in the Susquehanna River Basin has increased dramatically in the past year, resulting in a large number of project applications being filed with the Commission seeking approval for the withdrawal and consumptive use of water for that activity. The Commission is hereby proposing a rulemaking action to handle the large and immediate influx of project applications, and to avoid adverse, cumulative adverse or interstate effects to the water resources of the basin.

The proposed rule modifies the definition of "project" for purposes of natural gas well development, requires review and approval of any natural gas well development project involving the withdrawal or consumptive use of water, and adds a specific approval by rule process associated with the consumptive use of water by such projects. The Commission's current approval by rule process is available for use only if the sole source of water is a public water supply system. Under the contemplated rule change, the approval by rule process would allow for the consumptive use of wastewater, acid mine water and other sources of water for natural gas well development projects. The proposal would not change the current process used to review groundwater or surface water withdrawals.

In addition, two editorial changes are made to the existing approval by rule provision relating to the consumptive use of water withdrawn from public water supply systems to make that provision consistent with the new approval by rule provision for natural gas well development projects.
