NUCLEAR REGULATORY COMMISSION

10 CFR Part 35

[NRC-2008-0071]

RIN 3150-A126

Medical Use of Byproduct Material—Amendments/Medical Event Definitions; Extension of Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule: Extension of comment period.

SUMMARY: On August 6, 2008 (73 FR 45635), the Nuclear Regulatory Commission (NRC) published for public comment a proposed rule that would amend its regulations in 10 CFR Part 35, “Medical Use of Byproduct Material” to change medical event definitions. The public comment period for this proposed rule was to have expired on October 20, 2008.

By letter dated September 16, 2008, the NRC’s Advisory Committee on the Medical Use of Isotopes (ACMUI) requested an extension to November 7, 2008. As explained in the letter, the fall meeting of the ACMUI is scheduled for October 27 and 28, 2008, and the subject matter in the proposed rule is on the agenda for discussion at this public meeting. ACMUI believes that it will be able to provide better comment on the proposed rule following this discussion. Due to the complex nature of the proposed medical rule and the high public interest of the medical community, the NRC has decided to extend the comment period until November 7, 2008.

DATES: The comment period has been extended and now expires on November 7, 2008. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.
