

payments on the foreign components used in export production. The company anticipates that some 27 percent of the plant's stainless steel shipments and 5–10 percent of its carbon steel shipments will be exported. On its domestic sales, ThyssenKrupp would be able to choose the duty rates during customs entry procedures that apply to the finished stainless steel and carbon steel products (duty-free) for the foreign inputs noted above. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Elizabeth Whiteman of the FTZ Staff is designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 8, 2008. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to December 22, 2008.

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

Office of the City Clerk, City of Mobile, 9th Floor, South Tower, Government Plaza, 205 Government Street, Mobile, AL 36602.

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 2111, 1401 Constitution Ave. NW., Washington, DC 20230.

Foreign-Trade Zones Board

[Order No. 1576]

Grant of Authority for Subzone Status; Baker Hughes, Inc. (Barite Milling), Corpus Christi, TX

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Foreign-Trade Zones Act provides for " * * * the establishment * * * of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," and authorizes the Foreign-Trade Zones Board to grant qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

Whereas, the Board's regulations (15 CFR Part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and when the activity results in a significant public benefit and is in the public interest;

Whereas, the Port of Port of Corpus Christi Authority, grantee of Foreign-Trade Zone 122, has made application to the Board for authority to establish a special-purpose subzone at the barite milling facility of Baker Hughes, Inc., located in Corpus Christi, Texas (FTZ Docket 15-2008, filed 2/25/08);

Whereas, notice inviting public comment was given in the **Federal Register** (73 FR 12949, 3/11/08); and,
Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds the requirements of the FTZ Act and the Board's regulations are satisfied, and that approval of the application is in the public interest;

Now, therefore, the Board hereby grants authority for subzone status for activity related to barite milling at the facility of Baker Hughes, Inc., located in Corpus Christi, Texas (Subzone 122Q), as described in the application and **Federal Register** notice, and subject to the FTZ Act and the Board's regulations, including Section 400.28.

Signed at Washington, DC, this 18th day of September, 2008.

David M. Spooner,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Andrew McGilvray,
Executive Secretary.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's U.S. Commercial Service is mandated by Congress to help U.S. businesses, particularly small- and medium-sized companies, export their products and services to global markets. As part of its mission, the U.S. Commercial Service (CS) currently uses customer satisfaction surveys to collect feedback from U.S. business clients that pay for services performed by CS. These surveys ask the client to evaluate CS on its customer service provision. The results from the surveys are used to make improvements to the agency's business processes in order to provide better and more effective export assistance to U.S. companies. In addition to soliciting client feedback after a service is delivered, the CS would like to add a tagline with a link to a Comment Card at the bottom of all employees' e-mail messages to enable clients to submit feedback anytime they see fit. The actual tagline would encourage recipients of the e-mail to click the Comment Card link and provide feedback on service quality. Samples of taglines could be similar to:

(1) "Please tell me about the quality of service that I have provided to you;" or

(2) "Please let me know how well I have served you."

A link to a Comment Card would immediately follow the tagline. The purpose of the attached card is to collect feedback from U.S. businesses that interact with CS employees. This information will be used for quality assurance purposes. Survey responses will be used to assess client satisfaction, identify client issues, record client results and recognize exemplary service providers.

II. Method of Collection

Comment Card link embedded in employees' e-mail taglines; clients will fill out and submit the Comment Cards electronically.

III. Data

OMB Control Number: None.

Antidumping Duty Order: Electrolytic Manganese Dioxide From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: Based on an affirmative final determination by the Department of Commerce (the Department) and the International Trade Commission (ITC), the Department is issuing an antidumping duty order on electrolytic manganese dioxide (EMD) from the People's Republic of China (PRC).

DATES: Effective Date: October 7, 2008.

FOR FURTHER INFORMATION CONTACT:

Eugene Degnan at (202) 482-0414, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On August 18, 2008, the Department published the final determination of

sales at less than fair value of EMD from the PRC. See *Electrolytic Manganese Dioxide From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 73 FR 48195 (August 18, 2008) ("Final Determination").

On August 18, 2008, Guizhou Redstar Developing Import & Export Co., Ltd. ("Redstar") submitted ministerial error allegations with respect to the Department's *Final Determination*. On August 25, 2008, Tronox LLC, Petitioner, submitted a reply to Redstar's ministerial error allegations, arguing that the Department should reject each of Redstar's claims. On October 1, 2008, the Department determined that Redstar's ministerial error allegations do not meet the requirements under 19 CFR 351.224(f) to be considered ministerial errors. See Memorandum entitled "Final Results of Antidumping Duty Investigation of Electrolytic Manganese Dioxide from the People's Republic of China: Allegations of Ministerial Errors," dated October 1, 2008.

On September 26, 2008, the ITC notified the Department of its final determination pursuant to section 735(d) of the Tariff Act of 1930, as amended (the Act), that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of less-than-fair-value imports of EMD from the PRC. See Letter from the ITC to the Secretary of Commerce, "Notification of Final Affirmative Determination of Electrolytic Manganese Dioxide from Australia and from the People's Republic of China," Investigation Nos. 731-TA-1124 and 1125 (September 26, 2008). Pursuant to section 736(a) of the Act, the Department is publishing an antidumping duty order on the subject merchandise.

Scope of the Order

The merchandise covered by this order includes all manganese dioxide (MnO₂) that has been manufactured in an electrolysis process, whether in powder, chip, or plate form. Excluded from the scope are natural manganese dioxide (NMD) and chemical manganese dioxide (CMD). The merchandise subject to this order is classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2820.10.00.00. While the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this order is dispositive.
