SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's U.S. Commercial Service is mandated by Congress to help U.S. businesses, particularly small- and medium-sized companies, export their products and services to global markets. As part of its mission, the U.S. Commercial Service (CS) currently uses customer satisfaction surveys to collect feedback from U.S. business clients that pay for services performed by CS. These surveys ask the client to evaluate CS on its customer service provision. The results from the surveys are used to make improvements to the agency's business processes in order to provide better and more effective export assistance to U.S. companies. In addition to soliciting client feedback after a service is delivered, the CS would like to add a tagline with a link to a Comment Card at the bottom of all employees' e-mail messages to enable clients to submit feedback anytime they see fit. The actual tagline would encourage recipients of the e-mail to click the Comment Card link and provide feedback on service quality. Samples of taglines could be similar to:

(1) "Please tell me about the quality of service that I have provided to you;" or

(2) "Please let me know how well I have served you."

A link to a Comment Card would immediately follow the tagline. The purpose of the attached card is to collect feedback from U.S. businesses that interact with CS employees. This information will be used for quality assurance purposes. Survey responses will be used to assess client satisfaction, identify client issues, record client results and recognize exemplary service providers.

II. Method of Collection

Comment Card link embedded in employees' e-mail taglines; clients will fill out and submit the Comment Cards electronically.

III. Data

OMB Control Number: None.

Form Number(s): None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 5,000.

Estimated Time Per Response: 5-10 minutes.

Estimated Total Annual Burden Hours: 833.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: October 1, 2008.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

Antidumping Duty Order: Electrolytic Manganese Dioxide From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: Based on an affirmative final determination by the Department of Commerce (the Department) and the International Trade Commission (ITC), the Department is issuing an antidumping duty order on electrolytic manganese dioxide (EMD) from the People's Republic of China (PRC).

DATES: Effective Date: October 7, 2008.

FOR FURTHER INFORMATION CONTACT:

Eugene Degnan at (202) 482-0414, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On August 18, 2008, the Department published the final determination of

sales at less than fair value of EMD from the PRC. See *Electrolytic Manganese Dioxide From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 73 FR 48195 (August 18, 2008) ("Final Determination").

On August 18, 2008, Guizhou Redstar Developing Import & Export Co., Ltd. ("Redstar") submitted ministerial error allegations with respect to the Department's *Final Determination*. On August 25, 2008, Tronox LLC, Petitioner, submitted a reply to Redstar's ministerial error allegations, arguing that the Department should reject each of Redstar's claims. On October 1, 2008, the Department determined that Redstar's ministerial error allegations do not meet the requirements under 19 CFR 351.224(f) to be considered ministerial errors. See Memorandum entitled "Final Results of Antidumping Duty Investigation of Electrolytic Manganese Dioxide from the People's Republic of China: Allegations of Ministerial Errors," dated October 1, 2008.

On September 26, 2008, the ITC notified the Department of its final determination pursuant to section 735(d) of the Tariff Act of 1930, as amended (the Act), that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of less-than-fair-value imports of EMD from the PRC. See Letter from the ITC to the Secretary of Commerce, "Notification of Final Affirmative Determination of Electrolytic Manganese Dioxide from Australia and from the People's Republic of China," Investigation Nos. 731-TA-1124 and 1125 (September 26, 2008). Pursuant to section 736(a) of the Act, the Department is publishing an antidumping duty order on the subject merchandise.

Scope of the Order

The merchandise covered by this order includes all manganese dioxide (MnO₂) that has been manufactured in an electrolysis process, whether in powder, chip, or plate form. Excluded from the scope are natural manganese dioxide (NMD) and chemical manganese dioxide (CMD). The merchandise subject to this order is classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2820.10.00.00. While the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Antidumping Duty Order

In accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further information from the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or the constructed export price) of the merchandise for all relevant entries of EMD from the PRC. These antidumping duties will be assessed on all entries of EMD entered, or withdrawn from the warehouse, for consumption on or after March 26, 2008, the date on which the Department published its notice of preliminary determination in the **Federal Register**. See *Electrolytic Manganese Dioxide from the People's Republic of China: Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final*

Determination, 73 FR 15988 (March 26, 2008). Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of the exporters that account for a significant proportion of EMD in the PRC, we extended the four-month period to no more than six months. See Letter from Guizhou Redstar Developing Import and Export Company, Ltd. (March 11, 2008). In the underlying investigation, the six-month period beginning on the date of the publication of the preliminary determination ended on September 22, 2008. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the

ITC's final injury determination. Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of EMD from the PRC entered, or withdrawn from warehouse, for consumption on or after September 22, 2008, through the day preceding the date of publication of the ITC's final injury determination in the **Federal Register**.

On and after the date of publication of the ITC's notice of final determination in the **Federal Register**, CBP will require, at the same time as importers would normally deposit estimated duties on this merchandise, cash deposits for the subject merchandise equal to the estimated weighted-average antidumping margins listed below.

Exporter	Producer	Weighted-average margin (percent)
Guizhou Redstar Developing Import and Export Company, Ltd ..	Guizhou Redstar Developing Dalong Manganese Industrial Co., Ltd.	149.92
PRC-Wide Entity	149.92

This notice constitutes the antidumping duty order with respect to EMD from the PRC, pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room 1117 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is issued and published in accordance with section 736(a) of the Act and 19 CFR 351.211(b).

Dated: October 1, 2008.

David M. Spooner,
Assistant Secretary for Import Administration.
