ICR numbers: EPA ICR Number 1285.07, OMB Control Number 2060-0132.

ICR Status: This ICR is scheduled to expire on November 30, 2008. Abstract: Section 206(g) of the Clean Air Act, as amended, contains nonconformance penalty provisions (NCP) that allow manufacturers to introduce into commerce heavy-duty engines or vehicles (including light-duty trucks) that fail to comply with certain emission standards upon payment of a monetary penalty. Manufacturers who elect to use NCPs are required to test production engines and vehicles to determine the extent of their nonconformity and conduct a Production Compliance Audit (PCA). The collection activities of the nonconformance penalty program include periodic reports and other information (including the results of emission testing conducted during the PCA). EPA will use this information to ensure that manufacturers are complying with the regulations and that appropriate nonconformance penalties are being paid. Responses to this collection are voluntary.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 23 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by these actions are Automobile Manufacturers; Light Truck and Utility Vehicle Manufacturers; Heavy Duty Truck Manufacturers; Gasoline Engine and

Engine Parts Manufacturers; Motor Vehicle Body Manufacturers; Construction Machinery Manufacturers; Industrial Truck, Tractor, Trailer, and Stacker Machinery Manufacturers; Military Armored Vehicle, Tank, and Tank Component Manufacturers; Other Engine Equipment Manufacturers; Other Motor Vehicle Electrical and Electronic Equipment Manufacturers.

Estimated Number of Respondents: 2.

Frequency of Response: Annual, quarterly and on occasion.

Estimated Total Annual Hour Burden: 1,178.

Estimated Total Annual Cost:

\$98,789, includes \$18,180 in O&M costs and no capital costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: October 1, 2008.

California State Nonroad Engine Pollution Control Standards; California Nonroad Compression Ignition Engines; Within-the-Scope Request; Opportunity for Public Hearing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of opportunity for public hearing and comment.

SUMMARY: The California Air Resources Board (CARB) has notified EPA that it has amended or adopted emission standards and accompanying testing procedures for new nonroad compression ignition (CI) engines in two CARB rulemakings. By letter dated July 18, 2007, CARB submitted a request seeking EPA confirmation that its amendments affecting three broad power categories expressed in kilowatts (kW) (under 19 kW, 19 kW to under 130 kW, and 130kW and greater) are within the scope of previous authorizations issued by EPA under section 209(e) of the Clean Air Act (CAA), 42 U.S.C. 7543(e). In the alternative CARB seeks a new authorization for these standards. This notice announces that EPA has tentatively scheduled a public hearing concerning California's request and that EPA is accepting written comment on the request.

DATES: EPA has tentatively scheduled a public hearing concerning CARB's

request on November 6, 2008 beginning at 10 a.m. EPA will hold a hearing only if a party notifies EPA by October 27, 2008, expressing its interest in presenting oral testimony. By November 3, 2008, any person who plans to attend the hearing should call David Dickinson at (202)343-9256 to learn if a hearing will be held. If EPA does not receive a request for a public hearing, then EPA will not hold a hearing, and instead consider CARB's request based on written submissions to the docket. Any party may submit written comments by November 21, 2008.

SUPPLEMENTARY INFORMATION:

Background and Discussion: Section 209(e)(1) of the Act addresses the permanent preemption of any State, or political subdivision thereof, from adopting or attempting to enforce any standard or other requirement relating to the control of emissions for certain new nonroad engines or vehicles. Section 209(e)(2) of the Act requires the Administrator to grant California authorization to enforce state standards for new nonroad engines or vehicles which are not listed under section 209(e)(1), subject to certain restrictions. On July 20, 1994, EPA promulgated a regulation that sets forth, among other things, the criteria, as found in section 209(e)(2), by which EPA must consider any California authorization requests for new nonroad engines or vehicle emission standards (section 209(e) rules).¹

¹ Section 209(e)(1) states, in part: No State or and political subdivision thereof shall adopt or attempt to enforce any standard or other requirement relating to the control of emissions from either of the following new nonroad engines or nonroad vehicles subject to regulation under this Act—(A) New engines which are used in construction equipment or vehicles used in farm equipment or vehicles and which are smaller than 175 horsepower. (B) New locomotives or new engines used in locomotives. EPA's regulation was published at 59 FR 36969 (July 20, 1994), and regulations set forth therein, 40 CFR Part 85, Subpart Q, §§ 85.1601 *et seq.* A new rule, signed on
