

grant application derived from those figures were also false.

5. Two figures in NIAID, NIH, grant application P01 AI44236-05 contained falsified data: In Figure 1b, panels of confocal microscopy images of intestinal biopsies from four patients were falsified by duplication; and in Figure 3, one panel of PCR data was duplicated and similarly misrepresented as data from the same four biopsy specimens.

Dr. Sperber has entered into a Voluntary Exclusion Agreement in which he neither admitted or denied HHS' findings of scientific misconduct. However, he recognized that if this matter were to proceed to an administrative hearing, there is sufficient evidence upon which an Administrative Law Judge could make findings of scientific misconduct against him. Dr. Sperber agreed not to contest or appeal the jurisdiction of the PHS or HHS findings of scientific misconduct as set forth above and in the MSSM Report. Dr. Sperber has voluntarily agreed, for a period of four (4) years, beginning on September 12, 2008:

(1) To exclude himself from any contracting or subcontracting with any agency of the United States Government and from eligibility or involvement in nonprocurement programs of the United States pursuant to HHS' Implementation (2 CFR Part 376 *et seq.*) of OMB Guidelines to Agencies on Government wide Debarment and Suspension (2 C.F.R., Part 180); and

(2) To exclude himself from serving in any advisory capacity to PHS, including but not limited to service on any PHS advisory committee, board, and/or peer review committee, or as a consultant or contractor to PHS.
