

competition that is not necessary or appropriate in furtherance of the purposes of the Act.

NYSE Alternext intends to adopt membership rules that are nearly identical to those of NYSE.¹² Thus, if a firm were to meet NYSE Alternext's membership rules, then it also will have met NYSE's rules. Moreover, the same staff that administer NYSE membership rules will also administer NYSE Alternext membership rules. Therefore, the Commission believes it is consistent with the Act for NYSE to waive in NYSE Alternext members that have been duly admitted to NYSE Alternext membership. Such action will eliminate regulatory duplication without undermining compliance with applicable membership requirements. Similarly, the Commission believes it is consistent with the Act for NYSE to waive the new member application fee for NYSE Alternext members that waive into NYSE.

Certain NYSE Alternext members that will be waived in to NYSE do not currently meet all of NYSE's membership requirements. In a separate order, the Commission has approved Amex's proposal to give its existing members a six-month grace period to meet the new NYSE Alternext membership requirements.¹³ In this proposal, NYSE is offering such members a similar six-month grace period to meet the NYSE membership requirements. The Commission believes that this aspect of the proposal reasonably balances the desire to allow NYSE Alternext members to continue their businesses and participate in the Relocations with the need to ensure compliance with applicable membership requirements.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁴ that the proposed rule change (SR-NYSE-2008-70) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁵

Florence E. Harmon,

Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-58699; File No. SR-NYSE-2008-94]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by New York Stock Exchange LLC To Extend the Moratorium on the Administration of the Specialist Performance Evaluation Questionnaire ("SPEQ") Pursuant to Exchange Rule 103A and the Use of the SPEQ Pursuant to Rule 103B ("Moratorium") to the Earlier of December 31, 2008 or the Approval of SR-NYSE-2008-52, To Continue To Suspend the Use of SuperDot Turnaround for Orders Received and Responses to Administrative Messages as Objective Measures in the Assessment of Specialist Performance During the Moratorium and That the SPEQ and Order Reports/Administrative Responses Continue To Be Removed From the Criteria Used To Commence a Specialist Performance Improvement Action

October 1, 2008.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on September 30, 2008, New York Stock Exchange LLC ("NYSE" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Exchange has designated the proposed rule change as "non-controversial" under Section 19(b)(3)(A)(iii)⁴ of the Act and Rule 19b-4(f)(6) thereunder,⁵ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend the moratorium on the administration of the Specialist Performance Evaluation Questionnaire ("SPEQ") pursuant to Exchange Rule 103A and the use of the SPEQ pursuant to Rule 103B ("Moratorium"), which was implemented on June 8, 2007 to the

earlier of December 31, 2008 or the approval of SR-NYSE-2008-52. In addition, the Exchange proposes to continue to suspend the use of SuperDot turnaround for orders received and responses to administrative messages as objective measures in the assessment of specialist performance during the Moratorium. The Exchange further proposes that the SPEQ and Order Reports/Administrative Responses continue to be removed from the criteria used to commence a specialist performance improvement action during the Moratorium.

The text of the proposed rule changes is available on the Exchange's Web site (<http://www.nyse.com>), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to extend the moratorium on the administration of the Specialist Performance Evaluation Questionnaire ("SPEQ") pursuant to Exchange Rule 103A and the use of the SPEQ pursuant to Rule 103B ("Moratorium"), which was implemented on June 8, 2007,⁶ to the earlier of December 31, 2008 or the approval of SR-NYSE-2008-52.⁷

In addition, the Exchange proposes that the use of SuperDot turnaround for orders received and responses to administrative messages continue to be removed from the objective measures

used in the assessment of specialist performance pursuant to Exchange Rule 103B or as criteria used to commence specialist performance improvement action pursuant to Exchange Rule 103A during the Moratorium.

SPEQ

Prior to June 2007, pursuant to Exchange Rule 103A, on a quarterly basis, the Exchange distributed a twenty question survey known as the SPEQ to eligible Floor brokers⁸ to evaluate specialist performance during the quarter immediately prior to the distribution of the SPEQ. Initially, this subjective feedback provided critical information to assist the Exchange in maintaining the quality of the NYSE market.

However, the Exchange believed that the SPEQ no longer adequately allowed a Floor broker to assess the electronic interaction between the specialist and the Floor broker. The Hybrid Market provided Floor brokers and specialists with electronic trading tools that have resulted in less personal and verbal contact between Floor brokers and specialists. Currently, the majority of transactions executed on the Exchange are done through electronic executions.

In addition, the dramatic increase in transparency with respect to the Display Book through, among other things, Exchange initiatives like NYSE OPENBOOK™⁹ ("OPENBOOK") has decreased the need for the Floor broker to obtain market information verbally from the specialist. This increased transparency gives all market participants, both on and off the Floor, a greater ability to see and react to market changes.

The questions on the SPEQ did not take into account the operation of the electronic tools available in the Hybrid Market. The SPEQ did not provide Floor brokers with a means to evaluate specialist performance under the

current market model. As a result of the more electronic interaction between Floor brokers and specialists, Floor brokers were unable to assess specialist performance using the SPEQ.

The questions posed to the Floor brokers on the SPEQ required Floor brokers to opine on the specialists' ability to offer single price executions and specialists' ability to provide notification to Floor brokers of market changes in particular stocks. In the current more electronic market, specialists are unable to offer single price executions and the relative speed of executions makes it virtually impossible for specialists to notify brokers of changes in a particular security.

Given the above, the SPEQ no longer served as a meaningful measure of specialist performance.

Objective Measures

The Exchange further requests that during the extension of the Moratorium, allocations of newly listed securities on the Exchange continue to be based on the objective measures identified in Exchange Rule 103B,¹⁰ with the exception of SuperDot turnaround for orders received and response to administrative messages.

As explained in the Original Request and previously requested extensions, SuperDot turnaround for orders received and response to administrative messages no longer provide meaningful objective standards to evaluate specialist performance in today's electronic market. Specifically, in the more electronic market, orders received by Exchange systems that are marketable upon entry are eligible to be immediately and automatically executed by Exchange systems. As such, SuperDot turnaround no longer provided a meaningful objective measure of a specialist's performance.

Furthermore, in the current more electronic market, the Exchange systems automatically respond to the majority of the administrative messages. Today, there are two administrative messages

that require a manual response from specialists. These are messages that require the specialist to provide status information on market orders and stop orders. With regard to requests for the status of stop orders, the specialists are no longer capable of providing this information. In December 2006, following Commission approval,¹¹ the Exchange changed its stop order handling process. Stop orders are no longer visible to the part of the NYSE Display Book® that the specialist "sees." When a transaction on the Exchange results in the election of a stop order that had been received prior to such transaction, the elected stop order is sent as a market order¹² to the Display Book and the specialist's system employing algorithms, where it is handled in the same way as any other market order. The specialist, therefore, is unable to provide any information regarding the status of stop orders.

Market orders are eligible to receive immediate and automatic execution on the Exchange. The immediate and automatic execution of market orders eliminates the need for the specialists to respond to the administrative request for the status of market orders. In practice, a customer that submits a market order will likely receive a report of execution before the administrative message requesting the status of the market order has been printed and read by the specialist.

This change has had a minimal impact on Exchange customers. In the past few years, the average number of administrative messages received on a daily basis has steadily declined. The Exchange believes that immediate and automatic execution of orders will virtually eliminate administrative messages that require a manual response from a specialist. As a result, a specialist's ability to respond to administrative messages no longer provides a meaningful measure of specialists' performance during the Moratorium.

Given the above, the Exchange seeks to continue suspension of the use of both measures as criteria used to assess specialists' performance during the extension of the Moratorium.

Performance Improvement Actions

Similarly, during the extension of the Moratorium, the Exchange seeks to continue suspending the use of the SPEQ and Order Reports/Administrative

⁸ The Exchange believed that conscientious participation in the SPEQ process was a critical element in the Exchange's program for evaluating the overall performance of its specialists. All eligible Floor brokers are required to participate in the process and evaluate from one to three specialist units each quarter. Floor brokers were selected to participate in the SPEQ process based on broker badge data submitted in accordance with audit trail requirements. Brokers who intentionally failed or refused to participate in the SPEQ process were potentially subject to disciplinary action, including the imposition of a summary fine pursuant to Exchange Rule 476A.

⁹ OPENBOOK Online Database is an Exchange online service that allows subscribers to view the contents of the specialist book for any stock at any given point in the day, or over a period of time. Results are returned in an Excel spreadsheet. OPENBOOK Online Database is a historical database with data stored online for a 12-month period.

¹⁰ Pursuant to Exchange Rule 103B, specialist dealer performance is measured in terms of participation (TTV); stabilization; capital utilization, which is the degree to which the specialist unit uses its own capital in relation to the total dollar value of trading in the unit's stocks; and near neighbor analysis, which is a measure of specialist performance and market quality comparing performance in a stock to performance of stocks that have similar market characteristics. Additional objective measures pursuant to Exchange Rule 103B are those measures included in Exchange Rule 103A which are: (a) Timeliness of regular openings; (b) promptness in seeking Floor official approval of a non-regulatory delayed opening; (c) timeliness of DOT turnaround; and (d) response to administrative messages.

¹¹ See Securities Exchange Act Release No. 54820 (November 27, 2006), 71 FR 70824 (December 6, 2006) (SR-NYSE-2006-65).

¹² As used herein, the term "market order" refers to market orders that are not designated as "auction market orders."

Reports as criteria for the implementation of a performance improvement action pursuant to Exchange Rule 103A. Exchange Rule 103A(b) provides that:

The Market Performance Committee shall initiate a Performance Improvement Action (except in highly unusual or extenuating circumstances, involving factors beyond the control of a particular specialist unit, as determined by formal vote of the Committee) in any case where a specialist unit's performance falls below such standards as are specified in the Supplementary Material to this rule. The objective of a Performance Improvement Action shall be to improve a specialist unit's performance where the unit has exhibited one or more significant weaknesses, or has exhibited an overall pattern of weak performance that indicates the need for general improvement.

Prior to June 2007, the SPEQ and Order Reports/Administrative Reports were two criteria included in the standards specified in Exchange Rule 103A Supplementary Material. Given that SPEQ and Order Reports/Administrative Reports no longer provided significant objective measures of specialists' performance in the Hybrid Market, the Exchange sought to suspend the use of both measures as criteria for the implementation of a performance improvement action during the Moratorium. Through this filing, the Exchange seeks to continue this suspension for the duration of the Moratorium.

Creation of a New Process

The Exchange has established a quantifiable measure in order to determine a specialist unit's eligibility to participate in the new Allocation Process. The Exchange has formally submitted a proposal to the Commission to amend Exchange rules that govern the allocation of securities to specialist units and other related rules.¹³

The Exchange believes that the use of a single objective measure to determine specialist unit eligibility for allocation will create a more efficient process that is consistent with the Exchange's current more electronic trading environment.

Conclusion

The Exchange therefore requests to extend the Moratorium on the administration of the Specialist Performance Evaluation Questionnaire ("SPEQ") pursuant to Exchange Rule 103A and the use of the SPEQ pursuant to Rule 103B until the earlier of December 31, 2008 or the approval of

SR-NYSE-2008-52. In addition, the Exchange proposes to continue to suspend the use of SuperDot turnaround for orders received and responses to administrative messages continue to not be used as objective measures in the assessment of specialist performance during the Moratorium. The Exchange further proposes that the SPEQ and Order Reports/Administrative Responses continue to be removed from the criteria used to commence a specialist performance improvement action during the Moratorium.

2. Statutory Basis

The Exchange believes that the basis under the Act for this proposed rule change is the requirement under Section 6(b)(5)¹⁴ that an Exchange have rules that are designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The proposed rule change also is designed to support the principles of Section 11A(a)(1)¹⁵ in that it seeks to assure economically efficient execution of securities transactions, make it practicable for brokers to execute investors' orders in the best market and provide an opportunity for investors' orders to be executed without the participation of a dealer. Due to the Exchange's transition to a more electronic market, the current SPEQ, SuperDot turnaround for orders received and response to administrative messages no longer provide meaningful objective standards to evaluate specialist performance. The Exchange requests this continued extension of the Moratorium to determine whether elimination of the SPEQ as well as SuperDot turnaround for orders received and response to administrative messages as objective measures would remove an impediment to a free and open electronic market which would result in the more economically efficient execution of securities transactions. Given the current trend to a more electronically-based market, the Exchange believes that the use of more objective and detailed measures will promote healthy competition between specialist units and ultimately result in better market-making for Exchange customers.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose

any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁶ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁷

A proposed rule change filed under 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing.¹⁸ However, Rule 19b-4(f)(6)(iii)¹⁹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day pre-operative delay and designate the proposed rule change to become operative upon filing.²⁰

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission designates the proposal to become effective and operative upon filing.²¹

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is

¹⁶ 15 U.S.C. 78s(b)(3)(A).

¹⁷ 17 CFR 240.19b-4(f)(6).

¹⁸ 17 CFR 240.19b-4(f)(6)(iii). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. NYSE has satisfied this requirement.

¹⁹ 17 CFR 240.19b-4(f)(6)(iii).

²⁰ *Id.*

²¹ For purposes only of waiving the 30-day operative delay, the Commission has considered the impact of the proposed rule on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

¹⁵ 15 U.S.C. 78k-1(a)(1).

necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov.

Please include File Number SR-NYSE-2008-94 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSE-2008-94. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of NYSE. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSE-2008-94 and should be submitted on or before October 29, 2008.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²²

Florence E. Harmon,

Acting Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-58713; File No. SR-NYSE-2008-96]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by New York Stock Exchange LLC To Extend for Three Months the Moratorium Related to the Qualification and Registration of Registered Competitive Market Makers ("RCMMs") Pursuant to NYSE Rule 107A and Competitive Traders ("CTs") Pursuant to NYSE Rule 110

October 2, 2008.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 ("Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on September 30, 2008, New York Stock Exchange LLC ("NYSE" or the "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend for three months the moratorium related to the qualification and registration of Registered Competitive Market Makers ("RCMMs") pursuant to NYSE Rule 107A and Competitive Traders ("CTs") pursuant to NYSE Rule 110. The text of the proposed rule change is available at <http://www.nyse.com>, the NYSE, and the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of,

and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to extend for three months the moratorium related to the qualification and registration of RCMMs pursuant to NYSE Rule 107A and CTs pursuant to NYSE Rule 110.

On September 22, 2005, the Exchange filed SR-NYSE-2005-63⁴ with the Securities and Exchange Commission ("Commission") proposing to implement a moratorium on the qualification and registration of new RCMMs and CTs ("Moratorium"). The purpose of the Moratorium was to allow the Exchange an opportunity to review the viability of RCMMs and CTs in the NYSE HYBRID MARKETSM ("Hybrid Market").⁵

During each phase of the Hybrid Market, new system functionality was included in the operation of Exchange systems and new data was generated. As a result, the Exchange was unable to make an informed decision as to the viability of RCMMs and CTs in the Hybrid Market. The phasing in implementation of the Hybrid Market required the Exchange to extend the Moratorium an additional seven times over the next twenty-seven (27) months.⁶

On June 12, 2008, the Exchange filed its proposal to create its new market model ("New Model").⁷ Pursuant to its filing, the Exchange proposed to: (i)
